

OBSTETRIC FISTULA & OTHER FORMS OF FEMALE GENITAL FISTULA

Guiding principles
for clinical management and
programme development

OBSTETRIC FISTULA & OTHER FORMS OF FEMALE GENITAL FISTULA

Guiding principles
for clinical management
and programme development

**Dedicated to
the memory of
Yusuf Omenda,
gentle giant in the
fight against fistula
in Kenya**

and to all the women and
girls living with and rising
above fistula, and all those
who seek to serve them

TABLE OF CONTENTS

Acronyms.....	7
Acknowledgements.....	8
Introduction	10
CHAPTER 1: FISTULA PROGRAMMING	13
1.1 Measurement.....	13
1.2 Access to fistula programmes.....	14
1.3 The new challenge of iatrogenic fistula	15
1.4 Outreach and client identification	16
1.5 Resource deployment	18
CHAPTER 2: FISTULA PREVENTION	21
2.1 Prevention of obstetric fistula: the way forward	21
2.1.1 Promoting and enhancing skilled health personnel providing care during childbirth.....	22
2.1.2 Human resources – skilled health personnel providing care during childbirth	22
2.1.3 The role of midwives in obstetric fistula prevention and detection	23
2.2 Recognizing and diagnosing obstructed labour	24
2.2.1 Using the partograph.....	24
2.2.2 Vaginal examination.....	25
2.2.3 Bladder care.....	25
2.2.4 Assessment of clinical signs of obstruction	26
2.2.5 Bandl's ring	26
2.2.6 Other risk factors for obstructed labour.....	26
2.3 Management of obstructed labour	28
2.3.1 Treatment of shock.....	28
2.3.2 Emptying the bladder.....	29
2.3.3 Referral to a higher level facility.....	29
2.4 Diagnosis/examination postpartum	29
2.5 Prevention of iatrogenic fistula	30
2.6 Training of fistula surgeons	32
2.7 Eradication of fistula.....	35
2.8 Sustainability	36
Funding and resources.....	36
References.....	38
CHAPTER 3: FISTULA TREATMENT	41
3.1 Before surgery.....	41
3.1.1 Fistula screening.....	41
3.1.2 Fistula classification	42
3.1.3 The obstructed labour injury complex	44
3.1.4 Informed consent.....	48

3.2	Applying principles of safe surgery	49
3.2.1	Is this the correct patient, and are we doing the planned operation on the correct side?	49
3.2.2	Are we prepared for the intended procedure?	50
3.3	After the operation	50
3.3.1	Antibiotic prophylaxis	51
3.3.2	Fistula repair	51
3.3.3	Post-operative management.....	53
3.3.4	Catheter management after repair	53
3.3.5	Possible post-operative complications.....	53
3.4	Special cases	55
3.4.1	Urethral loss or damage.....	55
3.4.2	Ureteric fistula	55
3.4.3	The "incurable fistula"	56
3.5	Outcomes.....	59
	References.....	62
CHAPTER 4: PROGRAMMES AND STRATEGIES TO PREVENT AND RESPOND TO FISTULA		67
4.1	Programming for fistula	68
4.1.1	A national fistula programme.....	68
4.1.2	A costed national strategy on fistula is developed, implemented and monitored	69
4.1.3	Essential components of a national fistula strategy.....	70
4.2	National leadership and accountability	72
4.3	Fistula prevention strategies.....	73
4.4	Treatment strategies	73
4.5	Social reintegration and rehabilitation	74
4.6	Advocacy and resource mobilization.....	75
4.7	Community empowerment and engagement	76
4.8	Monitoring and evaluating a national programme	76
4.8.1	Availability of fistula data	76
4.8.2	Clinical audit and research	77
4.8.3	Performance indicators.....	77
	References	81
CHAPTER 5: PRINCIPLES OF NURSING		85
5.1	The past and the present.....	85
5.2	Foundational principles	86
5.3	A new approach: clinical pathways.....	89
	References.....	91

CHAPTER 6: PHYSIOTHERAPY	93
6.1 Physiotherapy in the context of women's health	93
6.2 Perioperative physiotherapy for women with fistula	94
6.2.1 Incontinence	94
6.2.2 Pelvic pain	95
6.2.3 Sexual function	95
6.2.4 Musculoskeletal problems	95
6.3 An international tool to guide physiotherapy for women with fistula	95
References	100
CHAPTER 7: PRINCIPLES FOR SOCIAL REINTEGRATION AND REHABILITATION AFTER OBSTETRIC FISTULA REPAIR	105
7.1 Background	105
7.2 The limitations of current information on reintegration strategies	106
7.3 Principles for reintegration programmes	108
7.3.1 Programme design: all girls and women with fistula are not the same	108
7.3.2 Skills training for income generation	109
7.3.3 Counselling	110
7.3.4 Family reintegration	111
7.3.5 The wider community	111
7.3.6 Financing reintegration	112
7.3.7 Research	112
7.4 Suggested General Reading on Reintegration	112
References	114
ANNEXES	117
Annex 1 Obstetric fistula community-based assessment tool	117
Annex 2 Surgical safety checklist	120
Annex 3 Checklist for national strategies to end obstetric (and iatrogenic) fistula	121
Annex 4 Nursing clinical pathways	127
