UNFPA Supplies also provides strategic support to other countries in response to humanitarian crises, to support Family Planning 2020 commitments, and to implement the UNFPA Family Strategy, including Pacific Island Countries and Territories.

CONTENTS

Acronyms and abbreviations	2
Acknowledgements	3
Report of 2019 progress	4
Foreword	5
Executive summary	6
<hr/>	
CHAPTER ONE:	
Expanding method choice: meeting needs and affirming rights	10
Reliably choose, obtain and use quality contraceptives	11
Improving access to a choice of methods	12
Scaling up subcutaneous injectable contraception	14
Expanding access to contraceptive implants	15
IUDs and permanent methods	16
Reaching young people and marginalized groups	17
<hr/>	
CHAPTER TWO:	
Supply chain strengthening for access and choice	20
Towards reliability and sustainability of national supply chains	21
Better logistics management information systems	22
Timely planning and response	23
Evidence-based practices to strengthen supply chains	23
Gaining programme visibility via last mile assessments	26
Enhancing data for decision-making	27
Partnerships are critical to steady, reliable, quality supplies	28

CHAPTER THREE:

Expanding access to contraceptives in humanitarian settings	30
Supply chains in humanitarian settings	31
Reproductive health kits: essential supplies in crises	31
Family planning in humanitarian and fragile contexts	33
Country responses in humanitarian and fragile contexts	34

CHAPTER FOUR:

Towards sustainable financing for family planning	36
Innovative approaches for sustainable finance: countries taking action	37
Making the case for investing in family planning	37
Expanding sources: mobilizing for more domestic funding resources	40
Ensuring efficient use of all resources	43
Total market approach	45

CHAPTER FIVE:

Strengthening the programme	48
Contributions to the global movement for family planning	49
Strategic communications to raise awareness of impact	50
Programme management	51
Data collection, analysis and monitoring	52
Building on strengths to drive progress towards the 2030 Agenda	52

Financial snapshot	53

ACKNOWLEDGEMENTS

The results achieved in 2019 would not have been possible without the partnership and collaboration of national governments and our implementing partners as well as numerous international and national non-governmental organizations, United Nations agencies, civil society organizations and members of the private sector. We are grateful for the technical and financial support of donors to the UNFPA Supplies programme.

Our 19 donors in 2019 are as follows:

Australia	Spain
Belgium	United Kingdom
Canada	The Bill & Melinda Gates Foundation
Denmark	Children's Investment Fund
European Union	Foundation (through Crown
Liechtenstein	Agents Limited)
Luxembourg	Friends of UNFPA
The Netherlands	Winslow Foundation
Norway	Private contributions
Portugal	(including online)
Regione Lombardia (Italy)	Anonymous donor
Slovenia	

Since the launch of the programme in 2007, it has also received support from: Finland, France, Ireland, Norway, Sweden, Spain-Cataluña, the RMNCH Trust Fund and Treehouse Investments.

REPORT OF 2019 PROGRESS

UNFPA Supplies, the United Nations Population Fund thematic fund, is the only United Nations programme dedicated to family planning and it is the world's largest provider of donated contraceptives. UNFPA Supplies supports countries with the greatest needs, helping them to strengthen their supply chains so that women and adolescent girls can access a choice of contraceptives no matter where they live. The programme has a particular focus on 46 countries, in addition to providing support for reproductive health services in humanitarian crises.

This report of UNFPA Supplies' progress in 2019 has two sections:

Highlights of Key Progress in 2019 is a narrative overview of key highlights of UNFPA Supplies work in 2019. Select examples from countries illustrate the programme's support.

Reporting on the Performance Monitoring Framework is a detailed report of progress against the programme framework, including a scorecard for at-a-glance information and a detailed financial report. Part II of the report is [available on the UNFPA website](#).

An important data source for annual reporting is the facility-based survey.

These large-scale national surveys are conducted in collaboration with governments in each programme country at least every two years and provide point-in-time stock measurements. Twenty-three (23) countries submitted survey results for 2019. However,

The number of countries with available data is specified as relevant, e.g. 19 of the 21 countries surveyed.

The annual country reporting questionnaire is another key source of country-specific information. It is completed each year by UNFPA country offices in each of the 46
