The views and opinions expressed in this report are those of the contributors and do not necessarily reflect those of UNFPA or HelpAge International.

The designations employed and the presentation of material in this publication do not imply the expression of whatsoever on the part of UNFPA and HelpAge International concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

The term 'country' as used in the text of this report refers, as appropriate, to territories or areas. The designations of 'developed' and 'developing' countries are intended for convenience and do not necessarily express a judgment about the stage reached by a particular country or area in the development process.

Acknowledgements

We wish to acknowledge HelpAge staff and volunteers involved in the consultations with older persons, including local people who conducted consultations in local languages. We also acknowledge the valuable contribution of HelpAge staff and volunteers who reviewed the drafts and provided further inputs, and those who supported the production of the report.

We are grateful to the John D. and Catherine T. MacArthur Foundation and Age International for their financial contributions.

Special thanks go to the 1,300 older men and women who generously gave of their time to share their experiences and recommendations for the future.
