Executive Summary	ix
Situation Analysis on The Implementation and Impacts of Covid-19 to People with Disabilities	Х
in Achieving The Nine Goals of SDG's 2030 Program For The VNR 2021	
Goal 1. End Poverty in All its Forms Everywhere	1
Goal 3. Ensure Healthy Lives and Promote Wellbeing For All of All Ages	11
Goal 8. Promote Sustained, Inclusive, And Sustainable Economic Growth, Full and Productive	15
Employment, and Decent Work for All	
Goal 10. Reduce Inequality Within and Among Countries	25
Goal 13. Take Urgent Action to Combat Climate Change and its Impacts	27
Goal 16. Promote Just, Peaceful and Inclusive Societies	29
Goal 17. Strengthen The Means of Implementation and Revitalize The Global Partnership	33
for Sustainable Development	
References	34

Preface

ndonesia supports the new Agenda 2030 Sustainable Development Goals, with 17 goals and 169 targets. The important part of the follow-up process is the Voluntary National Review (VNR), where countries voluntarily register and report their progress in the implementation of the 2030 Agenda and the Sustainable Development Goals (SDGs). Aligned with the 2021 High Level Political Forum agenda, VNR 2021 reporting focuses on sustainable and resilient recovery from the COVID-19 pandemic that promotes the economic, social and environmental dimensions of sustainable development, namely building an inclusive and effective pathway to the achievement of the 2030 Agenda in the context of the decade of action. and achieve sustainable development. The cross-sectoral reports on the SDGs goals that will be discussed are on goal 1 no poverty, goal 2 on zero hunger, goal 3 on good health and wellbeing, 8 on decent work and economic growth, 10 on reducing inequality, 12 on consumption that responsibility and production, 13 on climate action, 16 on peace, justice and strong institutions, and 17 on partnerships, which in this report will focus on progress towards achieving the 9 goals of VNR 2020 on the issue of persons with disabilities. The issue of people with disabilities is a cross cutting issue where each goal achievement has a role in improving the lives of people with disabilities in Indonesia, specifically in cross cutting issues with gender issues, in this report we consultants who collaborate with UNFPA will also help the VNR 2021 Bappenas consultant to see the condition of people with disabilities women with disabilities, especially in goal 3. Although there has been progress in fulfilling the rights of persons with disabilities in Indonesia, the condition of women with disabilities is still lagging behind compared to male with disabilities. The United Nations Convention on the Rights of Persons with Disabilities (CRPD) highlights the fact that the majority of persons with disabilities live in conditions of poverty, and recognizes the critical need to address the negative impacts of poverty on persons with disabilities which have an impact on the difficulty of persons with disabilities to obtain adequate education, access health services and access to formal employment, this has an impact on the circle of poverty for persons with disabilities is still difficult to break. Responses to these global challenges are outlined in the 2030 Agenda for Sustainable Development, at the point of which is a commitment to end poverty everywhere and leave no one behind. It predicts a better future for everyone, which will ensure that everyone has a decent, dignified and fruitful life, and reaches his full human potential by eradicating poverty in all its dimensions. The implementation of the 2030 Agenda should be guided by the CRPD to change the lives of people with disabilities around the world.

EXECUTIVE SUMMARY

he Republic of Indonesia highly supports the new Agenda of Sustainable Development Goals - Agenda 2030, with 17 goals and 169 targets. Voluntary National Review (VNR) 2021 reporting focuses on sustainable and resilient recovery from the COVID-19 pandemic promoting the economic, social and environmental dimensions of sustainable development, namely establishing an inclusive and effective pathway to achieving the 2030 Agenda in the context of decades of action and realizing sustainable development. Although there has been progress in fulfilling the rights of persons with disabilities in Indonesia, the condition of women with disabilities is still lagging behind compared to men with disabilities and women without disabilities. Based on the United Nations Convention on the Rights of Persons with Disabilities (CRPD) this cross-sectoral report on the Voluntary National Review (VNR) on disability highlights the fact that the majority of persons with disabilities, especially women with disabilities, still live in conditions of poverty, and lack access to education, health, and social services. employment, and social participation. The cross-sectoral Voluntary National Review (VNR) report on disability presents a review of the achievements of the 9 SDGs targets (1,2,3,8,10, 12,13,16,17) as well as challenges and recommendations that must be carried out by related parties in order to achieve the new Agenda of Sustainable Development - Agenda 2030.
