SUPPORTING THE URBAN
DIMENSION OF THE SUSTAINABLE
DEVELOPMENT GOALS AND THE
NEW URBAN AGENDA

Liaison • Action

JANUARY 2019

The UN-Habitat Office in Spain was formally settled in 2012, after the Host Country Agreement was signed between the Kingdom of Spain and UN-Habitat in November 2011.

UN-Habitat in Spain is composed of a Liaison Office in Madrid and two Programme Offices in Barcelona: the GWOPA Secretariat and the CRPP Office.

The initial mandate of the UN-Habitat Office in Spain-Madrid was acting as liaison, for institutional representation and partnership forging with Spanish Government, institutions and other stakeholders related to UN-Habitat's mission, as well as adding value to UN-Habitat's mandate in selected areas of collaboration.

Since the beginning, the Office made clear the potential of strategic collaborations with Spanish partners beyond donor treatment, evolving our relation with Spanish actors to strategic partners.

This process of evolution has resulted in the following strategic areas of work:

- Representation and liaison with Spanish key stakeholders for developing strong support from member states and strengthening UN Habitat's mandate.

- Effective advocacy, communication and digital engagement to inform, influence and mobilize all relevant stakeholders.

- Innovative and strategic partnerships and resource mobilization to encourage regional and local bodies and stakeholders to engage in global processes within the framework of the implementation of the New Urban Agenda and the urban dimension of the 2030 Agenda for Sustainable Development, as well as other global frameworks.

- Knowledge fostering, programme support, and advisory services for enhancing UN -Habitat's impact and expertise as a renowned and valued centre of excellence.

The office contributes to the strengthening of UN-Habitat's convening power as focal point for promoting transformative change in cities and human settlements, through knowledge generation and dissemination, awareness raising on policy, advocacy and evidence-based communication, as well as collaborative action through partnerships, including private sector, to leave no one and no place behind.
