# FIGURES

1.1	Local people may be feel threatened by the local authority's attempts to gather data about them .....	3	8.2	Checking the farmers' documents against the official register book.....	75
1.2	Tenure security and forced evictions .....	4	8.3	The maps are displayed in public so people can check the boundaries are correct.....	76
1.3	A participatory enumeration involves the people themselves in gathering data.....	8	10.1	Circles of trust: The wider the inner circles, the more secure is someone's tenure.....	84
2.1	Many of the approaches in participatory enumerations are borrowed from participatory rural appraisal.....	14	10.2	During the public display stage, people can check that the land plots are correct .....	88
3.1	The enumeration procedure in Abuja.....	32	11.1	For the data collection to be successful, local people have to be informed about it.....	94
3.2	The Bigte settlement was close to a middle-class area.....	35	11.2	Gathering data on households and structures in an informal settlement.....	95
3.3	Catherine's story .....	39	12.1	Local enumerators collecting property data .....	101
4.1	Evictions are often accompanied by the use of force .....	44	12.2	Sample property tax bill, showing details such as the property size, the tax due, and a photo of the property .....	102
4.2	The people in informal settlements may be poor, but they often have large amounts of social capital. Eviction and relocation risk destroying this .....	49	13.1	Participatory enumerations can help ensure that plans take the facts on the ground into account – and have a chance of being turned into reality .....	105
5.1	The resettled families got larger houses with secure tenure and facilities such as sanitation and safe water.....	55	13.2	Upgrading is often the cheapest and easiest way of solving the problems of informal settlements .	109
7.1	Savings and credit groups in informal settlements often involve women .....	64	13.3	Process and linkages of local housing development partnership.	111
8.1	It can be almost impossible for formal land administration systems to keep up with changes on the ground.....	69			

14.1	Participatory enumerations make it easier to gather information about women in informal settlements .....	124	15.1	How participatory enumerations can build bridges ....	140
14.2	Co-management brings benefits for both sides: local residents and city administrators...	127	15.2	Participatory enumerations can help governments overcome the poor match between the official records and facts on the ground....	143
14.3	Dwellings over 20 m away from the tracks were permitted to remain.....	130	15.3	The problem: Inadequate data, inefficient land management and administration systems.....	144
			15.4	A solution: Data improved through participatory enumerations.....	145

## TABLES

2.1	Variables useful for strengthening negotiating positions on land tenure .....	25
5.1	Types of enumeration information needed for relocation and resettlement .....	52
13.1	Use of survey data in various stages of city-wide upgrading .....	107
14.1	Range of official policy responses to informal settlements and informality .....	119

## BOXES

1.1	Eighteen land tools .....	5
1.2	Legal security of tenure .....	6
