

### **IRAN** NEW ARRIVALS FROM AFGHANISTAN

as of 16 October 2021

The situation in Afghanistan remains highly volatile. Over half a million of Afghans have been displaced in their country due to conflict and violence this year alone, amid what is now a humanitarian emergency of internal displacement. While Iran has not yet witnessed a major influx of refugees, UNHCR has seen an increase in the number of approaches by newly arrived Afghans in need of international protection. Most Afghans fleeing to Iran are doing so in an irregular manner through unofficial border crossings and with the help of smugglers, as official border points remain closed for entry to persons without valid passports and visas intending to seek asylum. The actual numbers of new arrivals to Iran are likely to be much higher than presented in this document – however, UNHCR currently lacks access to border areas and is only able to report on newly arrived persons of concern who have reached us through our hotlines and receptions. Therefore, UNHCR is not able to confidently confirm trends and figures. UNHCR has issued a non-return advisory for Afghanistan on 16 August, calling on governments to halt returns of Afghan nationals, including asylum-seekers who have had their claims rejected. UNHCR calls on countries to keep their borders open for Afghans seeking international protection, as well as for resettlement spaces to be allocated to Afghan refugees currently in Iran, with flexible criteria.

According to official figures shared by the Government of Iran to UNHCR, most of the 3,646 persons have returned to Afghanistan, with UNHCR seeking clarity on the voluntary nature of these returns. Of the remaining persons, 107 individuals are currently being held in Al-Ghadir, in Sistan and Baluchistan province, while an additional 700 individuals are in Sefid Sang, in Khorasan Razavi province. The actual number of new arrivals is much higher, given that most Afghans are using informal routes to enter Iran. However, UNHCR lacks access to borders to verify.

While borders between Iran and Afghanistan were officially closed from 16 August, they are now open only for Afghan passport-holders with valid visas for Iran. The Government does not allow the entry of undocumented persons. UNHCR calls on countries to keep their borders open for Afghans fleeing the country. UNHCR and other actors are involved in discussions with BAFIA on developing potential sites in border areas that could host new arrivals for short periods of time.
