

OVERVIEW

The 2019-2020 South Sudan Regional RRP articulates the protection and humanitarian needs of an anticipated 2,518,683 South Sudanese refugees by the end of 2019 and 2,440,319 by the end of 2020. The RRP outlines the inter-agency response strategy and financial requirements of 95 partners responding across five countries of asylum. As the protracted emergency enters its sixth year, it remains the largest refugee situation on the African continent. It continues to be characterised as a children's crisis with children constituting over 65 percent of the refugee population. The sheer scale of displacement is putting immense pressure on hosting countries and greater international solidarity and responsibility sharing is needed. In line with the Global Compact on Refugees, the response will aim to provide protection and life-saving assistance in such way as to allow for greater integration of refugees into national systems and development plans. Renewed and increased focus will also be given to strengthening the resilience of South Sudanese refugees and host communities.

*The 2019 – 2020 Regional Refugee Response Plan was revised in May 2019 to reflect updates made to the response plans for both Sudan and Uganda. The Sudan summary plan was updated to ensure greater coherence with the Sudan Humanitarian Response Plan (HRP), while the Uganda summary plan was updated in light of the results of the population verification completed in late 2018. The other country summaries remain the same.

**The operation considers there not enough data yet to predict the size of the return in 2019. At the same time, with the current trend it is expected that the population size will remain the same in 2020.

2019 & 2020 STRATEGIC OBJECTIVES

The 2019-2020 Regional RRP for the South Sudan situation remains guided by the following regional strategic objectives to guide programming for the South Sudan situation and which were validated on an inter-agency basis.

1. Upholding the quality of asylum for South Sudanese refugees in the region, the majority of whom are women and children, by meeting their lifesaving needs and upholding their dignity according to applicable minimum standards
2. Anchoring the response within national and regional multi-year protection frameworks, policies, laws, and standards which comprehensively address legal and physical protection needs of South Sudanese refugees with a particular emphasis on children, women and youth.
3. Enhancing biometric registration, documentation and data management in collaboration with host Governments to support implementation of durable solutions strategies
4. Proactively explore and, where applicable, pursue innovative approaches stemming from participatory assessments with refugees, Governments, humanitarian and development actors, private sector, and civil society, with a view to systematically expand Cash-Based Interventions (CBIs) and other initiatives aimed at alleviating the dependency of refugees on aid.
5. Maintaining the civilian and humanitarian character of camps.
6. Promoting social cohesion between refugees and host communities through implementation of targeted resilience programmes.

REGIONAL COORDINATION

The South Sudan situation is coordinated by the UNHCR's Special Advisor and Regional Refugee Coordinator and his team based out of Nairobi. The 2019-2020 Regional RRP strategic objectives were informed by strategic level inter-agency meetings of Regional RRP partners convened by the Regional Refugee Coordination Office which took place after the joint launch of the Regional RRP and HRP on the South Sudan situation by the High Commissioner for Refugees and the Emergency Relief Coordinator (ERC) and host Governments in February 2018.

UNHCR works in close collaboration with UN and NGO partners in the development and humanitarian realms and with regional economic communities such as the Intergovernmental Authority for Development to ensure a regionally coordinated response to the regional South Sudanese crisis.

The complete list of the 95 partners involved in the 2019/2020 South Sudan Regional RRP is provided on the following page.
