UNIDO and the  
Stockholm Convention

## DISCLAIMERS

This document has been produced without formal United Nations editing. The designations employed and the presentation of the material in this document do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations Industrial Development Organization (UNIDO) concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries, or its economic system or degree of development. Designations such as “developed”, “industrialized” and “developing” are intended for statistical convenience and do not necessarily express a judgment about the stage reached by a particular country or area in the development process. Mention of firm names or commercial products does not constitute an endorsement by UNIDO.

Although great care has been taken to maintain the accuracy of information herein, neither UNIDO nor its Member States assume any responsibility for consequences which may arise from the use of the material.

**Thank you.**

Ditching DDT: Finding alternatives  
to DDT in **India**

20

29

### Popping out again: Recycling chains

Treat it right: Managing e-waste in  
**Ethiopia**

30

Ending POP culture

32

# The POP Priority:

## UNIDO and the Stockholm Convention

**POPs** (Persistent Organic Pollutants) are **harmful chemicals** which circulate globally, travel rapidly and cause widespread damage.

A global treaty designed to protect human health and the environment, the **Stockholm Convention** reduces or eliminates releases of POPs. The Stockholm Convention entered into force in May 2004, and it has been ratified by **more than 150 countries**.
