Acknowledgements	v
Acronyms and abbreviations	vi
Abstract	vii
Background	1
Rationale and scope	2
Global context	3
Co-benefits of fossil fuel subsidy reform and carbon pricing – international examples	3
Aligning energy policy and nationally determined contributions – international examples	4
Research methods	6
Summary of modelling framework and approach	6
GSI-IF methods description	7
Energy demand and emissions modelling with GSI-IF	7
Power generation in the GSI-IF model	9
Air pollution in GSI-IF using GEM	10
CaRBonH methods description	10
Study findings	13
Policy recommendations	22
Lessons learned	25
References	26
Annex 1: Emission factors used for the estimation of air pollutants from energy consumption and power generation	31
Annex 2: Overview of air pollutants from energy consumption and power generation	32
Annex 3: Power generation technologies considered in GEM	34

# Acknowledgements

The World Health Organization in collaboration with the Ministry of National Health Services, Regulations and Coordination, the Ministry of Climate Change and the International Institute for Sustainable Development are grateful to the following members of the technical working group that contributed to this research study.

Project coordination led by Tara Neville, WHO

Modelling and analytical expertise:

- Andrea Bassi, Georg Pallaske (KnowlEdge Srl, International Institute of Sustainable Development)
- Joseph V. Spadaro (Spadaro Environmental Research Consultants)

Technical and policy expertise:

- National consultants: Zafar Fatmi (Aga Khan University), Irfan Yousuf
- International Institute for Sustainable Development (IISD): Lourdes Sanchez, Avet Khachatryan, Estan Beedell
- Ministry of Climate Change: Syeda Hadika Jamshaid, Saima Shafique, Muhammad Irfan Tariq
- Ministry of National Health Services, Regulations and Coordination: Razia Safdar
- World Health Organization: Palitha Gunarathna Mahipala, Noureen Aleem Nishtar, Mazen Malkawi, Saleh Rababa, Heather Adair-Rohani, Diarmid Campbell-Lendrum, Pierpaulo Mudu

Financial support for this research study has generously been provided by the Wellcome Trust and the International Health Grants Programme of Health Canada.

# Acronyms and abbreviations

BAU	Business as usual
CaRBonH	Carbon Reduction Benefits on Health
COP	Conference of the Parties
GHG	Greenhouse gas
IISD	International Institute for Sustainable Development
IMF	International Monetary Fund
NDC	Nationally Determined Contribution
OECD	Organisation for Economic Co-operation and Development
UN	United Nations
UNFCCC	United Nations Framework Convention on Climate Change
WHO	World Health Organization
WB	World Bank
