Session 56. Introducing child growth assessment	159
Session 59. Plotting points for growth indicators	163
Session 61. Interpreting trends on growth charts	168
8. Course-completion certificate	169

Acknowledgements

Many people from numerous countries contributed their valuable time and expertise to the development and field-testing of the different counselling courses used as a basis for this course.

The development of this course was led by the World Health Organization (WHO) Department of Nutrition and Food Safety.

The following deserve special recognition for the roles they played in the development of this course: Ruth Bland, Consultant, Africa Centre for Health and Population Studies, who was the primary author and who also acted as Director of the course in all the field-tests for the first edition; Randa Saadeh, WHO, who oversaw development of the first edition; Peggy Henderson, Nigel Rollins and Constanza Vallenias, WHO, who contributed to the revision of the first edition; Carmen Casanovas, WHO, who contributed to the development and revision of the first edition; Juan Pablo Peña Rosas, Pura Rayco-Solon and Lisa Rogers, WHO, who led the initiation, development and production of the second edition, respectively; Mary Lungaho and Maryanne Stone-Jimenez, consultants, who contributed to the development and testing of the course materials; and Maaïke Arts and France Begin, United Nations Children's Fund (UNICEF), who reviewed the course and provided comments.

Special thanks are due to Helen Armstrong, Genevieve Becker, Hilary Creed-Kanashiro and Felicity Savage King, who were the authors of the original training courses on breastfeeding counselling, complementary feeding counselling, and HIV and infant-feeding counselling; and to Adelheid W. Onyango and Mercedes de Onis who were authors of the training course on child growth assessment. Thanks are also due to Ilgi Ertem and Cutberto Garza, for their technical input, and to Patricia Whitesell Shirey and Florence C Johnson, for developing the modules for the training course on child growth assessment.

The contribution of the many individuals from the countries where the course and counselling tools were field-tested, namely Eswatini, Ghana, Kenya, Zambia and Zimbabwe, and the staff of the UNICEF and WHO regional and country offices concerned, is also gratefully acknowledged.

Thanks are due to the Bill & Melinda Gates Foundation and the Government of the Republic of Korea, for providing financial support for updates to this second edition.
