Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

The assistive product specifications (APS) were developed under the overall guidance of the World Health Organization (WHO) Access to Assistive Technology Team (ATA) led by Chapal Khasnabis. The concept and development of the APS template was led by Diane Bell and Emma Tebbutt, with the support of Johan Borg, Joakim Falk, Elsje Scheffler and Terje Sund, in 2018.

The development of this publication was led by Wei Zhang, with the support of Alice Guo, from September 2018 to August 2020, and with technical support from the Global Disability Innovation (GDI) Hub. The Swedish Institute of Standards and the China Assistive Devices Technology Center for Persons with Disabilities provided technical and administrative support for the external peer review process between April and September 2019.

The draft received additional review by Shelly Chadha and Lindsay Lee of the WHO Sensory Function, Disability and Rehabilitation team, and Dennis C. Søndergård from the United Nations Children's Fund Supply Division. An online open consultation for public feedback and comments was hosted on the WHO ATA homepage between November 2019 and January 2020. A technical editorial group was convened between January and May 2020, including David Banes, Beula Christy, Victor de Andrade, Joakim Falk, Elsje Scheffler and Rebecca Sumalini, to compile and integrate the feedback from the consultation into the final draft. Designed by Inis Communication. Illustrations were created by Ainsley Hadden and Codi Ash.

The WHO ATA team is grateful to the following, who gave their valuable input in a generous voluntary capacity to the APS drafting, review and revision processes: Maryke Bezuidenhout, Dave Brienza, Maria Brink, Ayesha Kamal Butt, Chen Guang, Chen Zhensheng, Chen Zhuoming, Joseph Cho, Beula Christy, Jackie Clark, Alan Cottenden, Victor de Andrade, Patricia de Muñoz, Du Xiaojing, Mandy Fader, Lauren Flaherty, Angelene Fong, Han Rui, Carson Harte, Bronwyn Hemsley, Hu Jianmin, Dennis Janisse, Ji Wenping, Carina Jönsson, Jordan Kassalow, Stuart Keel, George King, Hanif Kruger, Natasha Layton, Li Dongmei, Li Shuwei, Li Xi, Li Xiang, Margaret Macaulay, Jennifer McAdam, Bradley McPherson, Amanda Milligan, Ray Mines, Ajai Mittal, Tecla Mlambo, Dipendra Mocha, Kavitha Murthi, Said Nafai, Irum Nawaz, Peter Ndaa, Jesper Nordliner, Giulia Oggero, Rosalind Owen, Daniel Paccioretti, Jonathan Pearlman, Caroline Perkinson, Cecilia Pettersson, Louise Puli, Ronald Rabbetts, Chris Rushman, Prem Saggurthi, Agneta Sandberg, Elsje Scheffler, Perry Sella, Sandra Sexton, Kylie Shae, Phillip Sheppard, Grace Shyng, Gulapar Srisawasdi, Michiel Steenbeek, Elizabeth Steggles, Elizabeth Stevens-Nafai, Mark Sullivan, Rebecca Sumalini, Tang Zhanxin, María Luisa Toro Hernández, Gregg Vanderheiden, Sarah Wallcook, Ruth Warick, Wang Baohua, Wang Caixia, Wang Tianyuan, Howard Weinstein, Michael Wolffe, Man Sang Wong, Xiao Chenglong, Zhang Hongtao, Zhang Hua, Zhang Jian, Zhang Jianyi, Zhao Jianrong, Zhao Jun, Zheng Jian, Zhong Lei, Zhu Siwei, Zhu Tuling, Zhu Wenqing, Rabia Zubair.

This publication was made possible through the generous financial support of the United States Agency for International Development and the AT2030 programme funded by UKAID and led by the GDI Hub.
