**Sales, rights and licensing.** To purchase WHO publications, see <http://apps.who.int/bookorders>. To submit requests for commercial use and queries on rights and licensing, see <http://www.who.int/about/licensing>.

**Third-party materials.** If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

## Contents

Acknowledgements . . . . .	iv
Abbreviations . . . . .	v

## Part 1. Overview

Background . . . . .	2
Objectives . . . . .	6
Components of a digital adaptation kit. . . . .	7
How to use this digital adaptation kit. . . . .	11
Linkages to the broader digital health ecosystem . . . . .	14

## Part 2. Digital adaptation kit content for antenatal care

Component 1. Health interventions and recommendations	16
Component 2. Generic personas	18
Component 3. User scenarios	23
Component 4. Generic business processes and workflows	28
Component 5. Core data elements	49
Component 6. Decision-support logic	59
Component 7. Indicators and performance metrics	67
Component 8. Functional and non-functional requirements	72
Glossary . . . . .	78

## Annexes

Annex 1. Examples of detailed persona . . . . .	82
Annex 2. Guidance adding or amending data elements to the data dictionary. . . . .	84
References . . . . .	87
