Cataloguing-in-Publication (CIP) data. CIP data are available at <http://apps.who.int/iris>.

Sales, rights and licensing. To purchase WHO publications, see <http://apps.who.int/bookorders>. To submit requests for commercial use and queries on rights and licensing, see <http://www.who.int/about/licensing>.

Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

Contents

Acknowledgements	vi
Glossary of terms	vii
Executive summary	x
SECTION 1 Introduction	1
1.1 Stages of an outbreak	1
1.2 Preparedness	3
SECTION 2 Risk assessment	4
2.1 Gather information	5
2.2 Evaluate the risk	6
2.3 Develop a risk control strategy	7
2.4 Select and implement risk control measures	8
2.5 Review risks and risk control measures	10
SECTION 3 Facility design	12
3.1 Mobile laboratories	12
3.2 Outbreak laboratories in buildings	13
3.3. Outbreak laboratory infrastructure	14
3.4 Laboratory integration as part of the outbreak response	14
3.5 Laboratory equipment	15
SECTION 4 Personnel competence and training	16
4.1 Recruitment, training and assessment	16
4.2 Considerations for deployment	18
4.3 Selection and support of the laboratory team	19

SECTION 5 Personal protective equipment	20
SECTION 6 Laboratory workflow	22
6.1 Specimen reception and patient data management	24
6.2 Specimen inactivation	28
6.3 Selection of the diagnostic method	29
6.4 Decontamination and waste management	33
6.5 Specimen storage	36
6.6 Reporting	36
SECTION 7 Specimen transfer and transport	38
7.1 Specimen classification	40
7.2 Specimen packaging	41
7.3 Specimen transport conditions	42
SECTION 8 Accident and incident response	44
SECTION 9 Human factors and occupational health	46
9.1 Human factors	46
9.2 Occupational health	47
SECTION 10 Laboratory biosecurity	52
SECTION 11 Declaring an outbreak over	54
11.1 Communication	54
11.2 Lessons learnt	55
11.3 Maintained heightened surveillance	55
11.4 Laboratory decommissioning	55
