Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

This report is the product of the collective effort of many people around the world, led by the Health Expenditure Tracking team in WHO Headquarters in Geneva and with important contributions from staff of the World Bank, the Global Financing Facility and the Organization for Economic Cooperation and Development.

The core writing team of the report includes Ke Xu, Agnès Soucat, Joseph Kutzin, Julien Dupuy, Andrew Siroka, Natalja Eigo, Susan Sparkes, Hapsatou Touré, Maria Aranguren Garcia, Hélène Barroy, Chandika Indikadahena, Matthew Jowett and Ajay Tandon. Marion Cros, Gabriela Flores, Benjamin Lane, Wendy Li, Federica Margini, Ange Mibindzou Mouelet, Michael Mueller and David Morgan also contributed valuable written inputs.

We are grateful for the contributions of numerous individuals and agencies for their support in making this report possible, for their contributions to comments and suggestions in producing this report and for their efforts in improving the quality and completeness of the data that form the basis of this report. From the WHO Global Health Financing Team across all levels of the Organization, these include Baktygul Akkazieva, Camilo Cid, Gregory Coudrier, Seydou Coulibaly, Peter Cowley, Ilker Dastan, Valeria De Oliveira Cruz, Tamás Evetovits, Triin Habicht, Gael Kernen, Awad Mataria, Diane Muhongerwa, Juliet Nabyonga, Benjamin Nganda, Claudia Pescetto, Tomáš Roubal, Ding Wang and Hui Wang. From WHO Technical Departments, Sean Cockerham, Kaia Engesveen, Ines Garcia Baena, Veloshnee Govender, Xiao-Xian Huang, Nathalie Vande Maele and Temo Waqanivalu.

We are also grateful for the contributions of Patricia Hernandez and Karin Vrijburg from the Netherlands Interdisciplinary Demographic Institute, as well as Patrick Hoang-Vu Eozenou and Jewelwayne Salcedo Cain of the World Bank, and to Cor van Mosseveld who provided valuable inputs for the report.

Thanks also go to the consultants that helped countries in preparing the data for the 2020 update of the Global Health Expenditure Database: Jean-Edouard Doamba, Evgeniy Dolgikh, Fe Vida N Dy-Liacco, Lachlan McDonald, Mahmoud Farag, Consulting Group Curatio Sarl led by David Gzirishvili, Kieu Huu Hanh, Eunkyong Kim, Eddy Mongani Mpotongwe, Simon Nassa, Anastasiya Nitsoy, Daniel Osei, Ezraah Rwakinanga, Shakthivel Selvaraj, Katerina Sharapka, Neil Thalagala and Thongleck Xiong.

We also wish to recognize the contributions to data quality improvement made by numerous World Bank staff, as well as the collaboration provided through the P4H network and UHC2030. Our ongoing collaboration with the OECD Health Accounts Team and Eurostat, as well as with the European Observatory on Health Systems and Policies, has played a key role in ensuring the routine production and appropriate categorization of health expenditure data from most high-income countries.

Most important of all, we express our appreciation to the country Health Accounts teams and the strong support provided by the Ministries of Health of the Member States.

We would like to thank the Bill & Melinda Gates Foundation; the Global Fund to Fight AIDS, Tuberculosis and Malaria; Gavi Alliance; United States Agency for International Development; the Department for International Development of the United Kingdom; the European Commission; the Government of Japan; the Government of the French Republic; and the Government of the Grand Duchy of Luxembourg for their funding support to WHO's health financing work, which has played a critical role in enabling us to make health expenditure tracking data, and the analysis of these data, a valuable global public good.

Thanks go as well to a team at Communications Development—led by Bruce Ross-Larson and including Joe Brinley, Joe Caponio, Mike Crumplar, Elaine Wilson and Debra Naylor—for editing and laying out the report.
