General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

Acknowledgments

The WHO Regional Office for the Eastern Mediterranean gratefully acknowledges the technical contribution of the following individuals to the development of this publication: Majdouline Obtel (Professor of Epidemiology, Department of Public Health, Faculty of Medicine and Pharmacy, University Mohammed V, Rabat, Morocco), Nada Ghosn (Director, Epidemiology Surveillance Programme, Ministry of Public Health, Beirut, Lebanon), Payman Hemmati (Senior Medical Officer, Iranian Center for Disease Control, Ministry of Health and Medical Education, Tehran, Islamic Republic of Iran), Salim A. Salim (Coordinator, Directorate of Health Emergency and Epidemic Control, Federal Ministry of Health, Khartoum, Sudan), Ahmed Ali Elkhoby (Director, Epidemic Control Directorate, Ministry of Health and Population, Cairo, Egypt), Somia Iqtadar (Assistant Professor of Medicine, Kind Edward Medical University, Lahore, Pakistan), Mamunur Rahman Malik (Manager, Infectious Hazard Management Programme, WHO Regional Office for the Eastern Mediterranean, Cairo, Egypt), Peter Mala (Medical Officer, Infectious Hazard Management Programme, WHO Regional Office for the Eastern Mediterranean, Cairo, Egypt), Evans Buliva (Consultant, WHO Regional Office for the Eastern Mediterranean, Cairo, Egypt), and Tran Minh Nhu Nguyen (Technical Officer, Infectious Hazard Management Programme, WHO Regional Office for the Eastern Mediterranean, WHO Regional Office for the Eastern Mediterranean, Cairo, Egypt).

Contents

| 1. | Introduction | 7 | |
|------|---|------|--|
| 2. | Scope of this publication | | |
| 3. | Rationale for this publication | 8 | |
| 4. | Main objective | 9 | |
| 5. | The organisms and the diseases | 9 | |
| 6. | The syndromic surveillance approach in the Eastern Mediterranean Region | 10 | |
| 7. | Early detection: is it dengue, chikungunya, yellow fever, Zika or another disease | e?11 | |
| | 7.1 Case definitions (suspected, confirmed) | 11 | |
| | 7.2 Early detection of cases using the syndromic surveillance approach | 12 | |
| 8. | Implementing a surveillance system for early detection | 14 | |
| 9. | Event-based surveillance for arboviral diseases | 15 | |
| | 9.1 Definition of event-based surveillance | 16 | |
| | 9.2 Minimum requirements of event-based surveillance | 16 | |
| | 9.3 Sources of information | 16 | |
| | 9.4 Examples of events captured by event-based surveillance for arboviral | | |
| | infection and the verification process | 17 | |
| | 9.5 Methods of reporting from the sources of information | 18 | |
| | 9.6 Specific surveillance strategy for early recognition of complications | | |
| | of Zika virus infection | | |
| 10. |). How vector surveillance can help in early detection | 19 | |
| 11. | 1. Laboratory role and services | 20 | |
| 12. | 2. Integration of syndromic surveillance and event-based surveillance | 22 | |
| 13. | 3. Main challenges for implementation | 22 | |
| 14. | 4. Strategic requirements to implement/strengthen the system | 23 | |
| 15. | 5. Practical requirements for running the system | 23 | |
| 16. | 5. Monitoring and evaluation of the system | 25 | |
| Bib | bliography | 26 | |
