Addendum¹ to "The use of stems in the selection of International Nonproprietary Names (INN) for pharmaceutical substances" - WHO/EMP/RHT/TSN/2018.1

¹ This addendum is a cumulative list of all new stems selected by the INN Expert Group since the publication of "*The use of stems in the selection of International Nonproprietary Names (INN) for pharmaceutical substances*" 2018.

-adenant

adenosine receptors antagonists

ciforadenant (118), preladenant (99), taminadenant (120), tozadenant (106), vipadenant (103)

-caftor

cystic fibrosis transmembrane regulator (CFTR) protein modulators, correctors, and amplifiers

bamacaftor (121), deutivacaftor (118), elexacaftor (121), galicaftor (119), icenticaftor (122), ivacaftor (104), lumacaftor (105), navocaftor (121), nesolicaftor (122), olacaftor (119), posenacaftor (122), tezacaftor (114)

-calcet/-calcet-

calcium-sensing receptors (CaSR) agonists

cinacalcet (88), etelcalcetide (112), evocalcet (113), tecalcet (87), upacicalcet (118)

-cerfont

corticotropin-releasing factor (CRF) receptor antagonists

crinecerfont (120), emicerfont (102), pexacerfont (97), tildacerfont (119), verucerfont (102)

-copan

complement receptor antagonists/ complement inhibitors

avacopan (114), danicopan (119), iptacopan (122), nomacopan (119)

(c)category: pegcetacoplan (120), zilucoplan (118)

-corat

glucocorticoid receptor agonists

dagrocorat (111), fosdagrocorat (111), mapratorat (102), tomicorat (108), velsecorat (121)

-fexor

farnesoid X receptor agonists

cilofexor (119), nidufexor (118), tropifexor (116), turofexorate isopropyl (103), vonafexor (122)

-fusp

fusion proteins¹

bintrafusp alfa (121), cinrebausp alfa (121), clervonafusp alfa (120), lorukafusp alfa (120), modakafusp alfa (122), onfekafusp alfa (118), pabinausp alfa (120), rozibafusp alfa (120), simlukafusp alfa (121), tagraxofusp (118), tebentafusp (118), valanafusp alfa (118)

-golix

gonadotropin releasing hormone (GnRH) antagonists

elagolix (99), linzagolix (118), opigolix (118), relugolix (107), sufugolix (89)

-ixafor

chemokine CXCR4 antagonists

balixafortide (112), burixafor (104), mavorixafor (118), motixafortide (120), plerixafor (93)

-ixibat

ileal bile acid transporter (IBAT) inhibitors, bile acid reabsorption inhibitors

barixibat (88), elobixibat (104), linerixibat (118), maralixibat chloride (113), odevixibat (119), volixibat (113)

-leuton

5-lipo-oxygenase inhibitors, anti-inflammatory

atreleuton (78), diroleuton (118), epeleuton (118), fenleuton (72), setileuton (101), zileuton (63)

¹ A fusion protein is defined as a multifunctional protein derived from a single nucleotide sequence which may contain two or more genes or portions of genes with or without amino acid linker sequences. The genes should originally code for separate proteins, with at least two of them endowed with pharmacological action (e.g. action and targeting). “Notes from the fusion protein Working Group”, INN Working Document number 17.414 rev.

stat enzyme inhibitors

-*becestat* beta secretase inhibitors

atabecestat (117), elenbecestat (117), umibecestat (119), lanabecestat (116), verubecestat (112)

-*glustat* ceramide glucosyltransferase inhibitors

duvoglustat (102), eliglustat (103), miglustat (85), sinbaglustat (121), venglustat (114)

-tib tyrosine kinase inhibitors

-*ertinib* epidermal growth factor receptor (EGFR) inhibitors

abivertinib (119), osimertinib (113), epertinib (115), canertinib (87), lazertinib (117), mavelertinib (118), mobocertinib (121), olafertinib (121), rezivertinib (122), xilertinib (121), zorifertinib (121)

(b) category: ulixertinib (113), raxoxertinib (115) (Erk inhibitors)

(c) category: afatinib (104), olmutinib (114), erlotinib (85), gefitinib (85), mubritinib (90), nazartinib (114), mubritinib (90), nazartinib (114)

-*trom(-)* antihyperlidaemic; thyromimetic derivatives

acetiromate (30), axitirome (82), bentriomide (41), eprotirome (99), resmetirom (119), sobetirome (100)

-*toclax* B-cell lymphoma 2 (Bcl-2) inhibitors, antineoplastics

obatoclax (94), navitoclax (103), venetoclax (111), imlatoclax (115), pelcitoclax (122), tanotoclax (121), mirzotamab clezutoclax (121), murizatoclax (122)
