**General disclaimers.** The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

This publication contains the collective views of the Strategic Advisory Group on Malaria Eradication (SAGme) and does not necessarily represent the decisions or the policies of WHO.

### **The past leads us forward . . .**

“Malaria control should not be a campaign, it should be a policy, a long-term program. It cannot be accomplished or maintained by spasmodic effort. It requires the adoption of a practicable program, the reasonable continuity of which will be sustained for a long term of years.”

Mark F. Boyd (1939)

# Contents

**FOREWORD ..... x**

**ACKNOWLEDGEMENTS ..... xi**

**MEMBERS OF THE STRATEGIC ADVISORY  
GROUP ON MALARIA ERADICATION ..... xii**

**ABBREVIATIONS ..... xiii**

**EXECUTIVE SUMMARY ..... xv**

**REPORT OF THE WHO STRATEGIC ADVISORY  
GROUP ON MALARIA ERADICATION ..... 1**

**Introduction ..... 1**

**The case for malaria eradication ..... 4**

        History and burden of malaria ..... 4

        Economic impact of malaria ..... 8

**Learning from eradication campaigns ..... 13**

        Malaria ..... 14

        Smallpox ..... 17

        Dracunculiasis (Guinea worm disease) ..... 19

        Polio ..... 21

**Global trends and impact on future scenarios for malaria eradication ..... 24**

        Demographic trends ..... 25

        Urbanization ..... 26

        Climate change ..... 27

        Land use and land cover changes ..... 29

        Migration ..... 31

        A quantitative exploration of malaria trajectories in Africa to 2050 ..... 33

**Eliminating malaria in the hardest places ..... 38**

**Mitigating potential threats to eradication ..... 44**

        Biological threats ..... 44

        Threats posed by malaria in non-human primates ..... 46

        Threats posed by complex emergencies ..... 49

Health systems readiness for malaria elimination .....	52
Community engagement for malaria elimination and eradication .....	58
Approaches to global policies to end malaria .....	62
Interpreting and negotiating the malaria problem.....	62
Exit and voice, demonstration projects, and organizational proliferation.....	63
The dramatic structure of the policy process and the challenge of implementation .....	64
Present dynamics .....	66
A pragmatic, strategic and humanitarian way forward .....	67
Getting back on track to meet GTS targets .....	68
A successful approach to malaria eradication .....	71
Conclusions.....	82
<b>ANNEX 1.....</b>	<b>83</b>
Affiliations of the SAGme members .....	84
Biographical sketches.....	85
<b>ANNEX 2 .....</b>	<b>93</b>
Working groups .....	93
Working papers .....	97
<b>REFERENCES.....</b>	<b>101</b>
