

WHO Expert Committee on Drug Dependence

Forty-second report

World Health
Organization

The World Health Organization was established in 1948 as a specialized agency of the United Nations serving as the directing and coordinating authority for international health matters and public health. One of WHO's constitutional functions is to provide objective, reliable information and advice in the field of human health, a responsibility that it fulfils in part through its extensive programme of publications.

The Organization seeks through its publications to support national health strategies and address the most pressing public health concerns of populations around the world. To respond to the needs of Member States at all levels of development, WHO publishes practical manuals, handbooks and training material for specific categories of health workers; internationally applicable guidelines and standards; reviews and analyses of health policies, programmes and research; and state-of-the-art consensus reports that offer technical advice and recommendations for decision-makers. These books are closely tied to the Organization's priority activities, encompassing disease prevention and control, the development of equitable health systems based on primary health care, and health promotion for individuals and communities. Progress towards better health for all also demands the global dissemination and exchange of information that draws on the knowledge and experience of all WHO's Member countries and the collaboration of world leaders in public health and the biomedical sciences. To ensure the widest possible availability of authoritative information and guidance on health matters, WHO secures the broad international distribution of its publications and encourages their translation and adaptation. By helping to promote and protect health and prevent and control disease throughout the world, WHO's books contribute to achieving the Organization's principal objective – the attainment by all people of the highest possible level of health.

The WHO Technical Report Series makes available the findings of various international groups of experts that provide WHO with the latest scientific and technical advice on a broad range of medical and public health subjects. Members of such expert groups serve without remuneration in their personal capacities rather than as representatives of governments or other bodies; their views do not necessarily reflect the decisions or the stated policy of WHO. To purchase WHO publications, please contact: WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel. +41 22 791 3264; fax: +41 22 791 4857; email: bookorders@who.int; <http://www.who.int/bookorders>).

Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

This publication contains the collective views of an international group of experts and does not necessarily represent the decisions or the policies of WHO.

WHO Expert Committee on Drug Dependence

Geneva, Switzerland, 21–25 October 2019

Members

Professor Patrick M. Beardsley, Department of Pharmacology and Toxicology, and Centre for Biomarker Research and Personalized Medicine, Virginia Commonwealth University, United States of America

Professor Bruna Brands, Faculty of Medicine, University of Toronto, Canada

Dr Ifeoma Toyin Ekwere, Department of Anaesthesiology, University of Benin, Nigeria

Dr Simon Elliott, Elliott Forensic Consulting, England

Professor Raka Jain, National Drug Dependence Treatment Centre, All India Institute of Medical Sciences, India

Dr Pamela Kaduri, Department of Psychiatry, University of Toronto and adjunct faculty, Muhimbili University of Health and Allied Sciences, United Republic of Tanzania (Rapporteur)

Dr Junichi Kitanaka, Department of Pharmacology, Hyogo College of Medicine, Japan

Dr Antonio Pascale Prieto, Department of Toxicology, Faculty of Medicine, Uruguay

Dr Afarin Rahimi-Movaghar, Director of Iranian National Centre for Addiction Studies, Tehran University of Medical Sciences, Islamic Republic of Iran (Co-Chair)

Professor Sutisa Nudmamud-Thanoi, Centre of Excellence in Medical Biotechnology, Naresuan University, Thailand

Professor Jason White, School of Pharmacy and Medical Sciences, Division of Health Sciences, University of South Australia, Australia (Chair)

Temporary advisers

Dr Suzanne Nielsen, Monash Addiction Research Centre, Monash University, Australia

Professor Rainer Spanagel, Institute of Psychopharmacology, University of Heidelberg, Germany

Professor Kim Wolff, Department of Analytical, Forensic and Addiction Science, King's College London, England

Representatives of other organizations

Dr Conor Crean, United Nations Office of Drugs and Crime, Vienna, Austria

Mr Bernard Leroy, International Narcotics Control Board, Vienna, Austria

Ms Hanifa Rebbani, International Narcotics Control Board, Vienna, Austria

WHO Secretariat (Geneva, Switzerland)

Ms Alma Alic, Office of Compliance, Risk Management and Ethics

Mr Michael Deats, Department of Safety and Vigilance

Dr Gilles Forte, Access to Medicines, Vaccines and Pharmaceuticals Division (Secretary)

Dr Nicola Magrini, Department of Essential Medicines and Health Products

Dr Claudia Nannini, Office of the Legal Counsel

Dr Dilkushi Poovendran, Department of Essential Medicines and Health Products

Dr Vladimir Poznyak, Department of Mental Health and Substance Abuse

Dr Mariângela Simão, Access to Medicines, Vaccines and Pharmaceuticals Division

Ms Judith Sprunken, Access to Medicines, Vaccines and Pharmaceuticals Division

Ms Annette Verster, Global HIV, Hepatitis and STIs Programme

Abbreviations and acronyms

CND	Commission on Narcotic Drugs
ECDD	Expert Committee on Drug Dependence
INCB	International Narcotics Control Board
UNODC	United Nations Office on Drugs and Crime
