Contents

ABBREVIATIONS AND ACRONYMS.....	VII
ABOUT THIS GUIDE	1
INTRODUCTION.....	2
Meningococcal disease and its epidemiology.....	3
Meningococcal disease	3
The African meningitis belt	4
Meningitis control strategy	6
MenACV introduction in the meningitis belt.....	7
A two-pronged strategy	7
Rollout	7
Impact of MenACV mass preventive campaigns	7
DECISION-MAKING AND KEY CONSIDERATIONS	10
Strategy and WHO recommendation for MenACV introduction	11
What is the best age to administer MenACV?	13
Linking routine introduction with mass preventive or catch-up MenACV campaigns.	16
Geographical scope of introduction into routine and for catch-up campaigns.....	17
Decision-making at country level.....	18
PLANNING AND IMPLEMENTATION	20
Which plans and tools should be made or revised?	21
Comprehensive multi-year plan (cMYP)	21
Introduction plan	21
Monitoring tools and information systems	21
National guides	23
Microplanning	23
Coordination.....	24
Key vaccine characteristics.....	24
Logistics and vaccine management.....	27
How to forecast and calculate vaccine supply needs?	27
Which cold-chain capacity is required?	27

Service delivery	29
How to organize sessions with schedules including MenACV?	29
Instructions for use	30
Training and supervision.....	32
Training	32
Supportive supervision	33
Acceptance and demand for MenACV: service quality, advocacy, communication and social mobilization.....	33
Demand generation	33
A demand generation or IEC plan	34
Which key messages should be addressed?	35
Defining locally relevant messages	36
Community engagement	36
Reducing missed opportunities for vaccination.....	37
Opportunities for the integration of MenACV delivery with other vaccinations and health services	37
Determining special populations and high-risk groups	38
MONITORING AND EVALUATION	40
Adverse event following immunization (AEFI) management and surveillance	41
MenACV AEFI	41
Monitoring and reporting of AEFI	42
Meningitis surveillance.....	43
Vaccine introduction and coverage monitoring	44
Integration of tools to monitor introduction and coverage	44
Coverage monitoring	44
Evaluation.....	45
EPI programme reviews	45
Coverage surveys for mass preventive and catch-up campaigns	46
ANNEX 1 – PREPAREDNESS ASSESSMENT (CHECKLIST).....	48
ANNEX 2 – MENINGITIS: CASE DEFINITION/ALERT AND EPIDEMIC THRESHOLDS/CASE MANAGEMENT	50
Meningitis case definition	50
Epidemiological thresholds	51
Case management	51
ANNEX 3 – FREQUENTLY ASKED QUESTIONS.....	53
Generalities on meningitis disease	53
Decision-making	54

Figures and tables

Fig. 1. Serogroup distribution of invasive meningococcal disease, 2018	3
Fig. 2. 26 countries of the African meningitis belt with areas at high epidemic risk	4
Fig. 3. Number of suspected and confirmed meningitis cases by week in the African meningitis belt of 2004, 2005, 2006, 2007, 2009, 2010, 2011, 2012 and 2013	5
Fig. 4. Incidence of reported cases of meningitis in Chad 2009–2013. Vaccination with MenAfriVac® targeted persons 1–29 years of age at the end of 2011 and in 2012.....	8
Fig. 5. Annual incidence of NmA meningitis depending on vaccination strategies	9
Fig. 6. Rationale for the linking of campaign and RI introduction when vaccine is introduced at 18 months of age	17
Fig. 7. Rationale for the linking of campaign and RI introduction when vaccine is introduced at nine months of age	17
Table 1. Link between introduction and catch-up MenACV campaign (or mass campaign if not previously conducted)	16
Table 2. Summary of MenAfriVac 5 micrograms® characteristics and schedules.....	25
Table 3. Meningococcal A vaccine presentation	26
