Regional and national workshops to apply the AA-HA! guidance to support country implementation:

this manual builds on many experiences shared by participants, including young people, at the national and regional AA-HA! meetings. We are grateful to UNAIDS, UNDP, UNESCO, UNFPA, UNICEF, UN Women, WHO country and regional staff who helped organize and facilitate these workshops. We are grateful for the unique contributions made during the AA-HA! workshops by all participants and especially by young people. Finally, we are grateful to the government officials in early adopter countries for planning and overseeing the processes in countries to develop national adolescent health strategies and plans, and sharing their experiences, and to adolescents and youth who informed these processes via active participation in meetings and discussions.
