Under the terms of this licence, you may copy, redistribute and adapt the work for non-commercial purposes, provided the work is appropriately cited, as indicated below. In any use of this work, there should be no suggestion that WHO endorses any specific organization, products or services. The use of the WHO logo is not permitted. If you adapt the work, then you must license your work under the same or equivalent Creative Commons licence. If you create a translation of this work, you should add the following disclaimer along with the suggested citation: “This translation was not created by the World Health Organization (WHO). WHO is not responsible for the content or accuracy of this translation. The original English edition shall be the binding and authentic edition”.

Any mediation relating to disputes arising under the licence shall be conducted in accordance with the mediation rules of the World Intellectual Property Organization.

Suggested citation. Surveillance standards for vaccine-preventable diseases, second edition. Geneva: World Health Organization; 2018. Licence: CC BY-NC-SA 3.0 IGO.

Cataloguing-in-Publication (CIP) data. CIP data are available at <http://apps.who.int/iris>.

Sales, rights and licensing. To purchase WHO publications, see <http://apps.who.int/bookorders>. To submit requests for commercial use and queries on rights and licensing, see <http://www.who.int/about/licensing>.

Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

	Overview of VPD Surveillance Principles
	Cholera
	Congenital Rubella Syndrome
	Diphtheria
	<i>Haemophilus influenzae</i>
	Hepatitis A
	Hepatitis B
	Human Papillomavirus
	Influenza
	Japanese Encephalitis
	Measles
	Meningococcus
	Mumps
	Neonatal Tetanus
	Non-neonatal Tetanus
	Pertussis
	Pneumococcus
	Polio
	Rotavirus
	Rubella
	Typhoid
	Varicella
	Yellow Fever (<i>to be available soon</i>)
	Annex 1: Tools for a surveillance review
	Annex 2: Tetanus Serosurveys

Acknowledgements

The development of this document was coordinated by Minal K. Patel and Adam L. Cohen of the World Health Organization, Geneva (WHO HQ), and Daniel Feiken (Consultant). We're grateful to the technical and financial support from the US Centers for Disease Control and Prevention (US CDC), and as well as financial support from Gavi, the Vaccine Alliance. Thanks especially to Benjamin A. Dahl, Christopher Murrill, and Heather M. Scobie of US CDC, and Jollee Fung of the University of British Columbia.

We are grateful to the >175 colleagues from 47 organizations who developed VPD-specific chapters and/or contributed to the preparation of this document by reviewing drafts and providing constructive comments, including the following (in alphabetical order):

Anna Acosta, US CDC	Alexandria Chung, University of Edinburgh, United Kingdom of Great Britain and Northern Ireland	Nicole Guiso, Institut Pasteur, France
Nedghie Adrien, US CDC	Laurence Cibrelus Yamamoto, WHO HQ	Santosh Gurung, WHO Regional Office for the Western Pacific
Hinda Ahmed, Consultant	Natasha Crowcroft, Public Health Ontario and University of Toronto, Canada	Rana Hajjeh, WHO Regional Office for the Eastern Mediterranean
Jamal Ahmed, WHO HQ	Carine Cruz, WHO HQ	Pradeep Haldar, Ministry of Health and Family Welfare, India
Cui Aili, Chinese Center for Disease Control and Prevention	Tine Dalby, Statens Serum Institut, Denmark	Scott Halperin, Dalhousie University, Canada
Negar Aliabadi, US CDC	Danni Daniels, WHO Regional Office for Europe	Lee Hampton, US CDC
Andreas Alois Reis, WHO HQ	Yin Dapeng, Chinese Center for Disease Control and Prevention	Susan Hariri, US CDC
Peter Henrik Andersen, Statens Serum Institut, Denmark	Thomas Darton, University of Sheffield, United Kingdom of Great Britain and Northern Ireland	Quamrul Hasan, WHO Pakistan
Jason Andrews, Stanford University, United States of America	Kashmira Date, US CDC	James Heffelfinger, WHO Regional Office for the Western Pacific
Diavolana Andrianarimanana, Faculte de Medecine Mahajanga, Madagascar	Siddhartha Datta, WHO Regional Office for Europe	Carl Heinz Wirsing von Konig, Consultant
Narendra Arora, The Inclen Trust International, India	Monica De Cola, WHO HQ	Rolano Herrero, International Agency for Research on Cancer
Sabrina Bacci, European Centre for Disease Prevention and Control	David Durrheim, University of Newcastle, Australia	Carole Hickman, US CDC
Kaushik Banarjee, WHO HQ	Androulla Efstratiou, Public Health England, United Kingdom of Great Britain and Northern Ireland	Susan Hills, US CDC
Nyambat Batmunkh, WHO Regional Office for the Western Pacific	Sergey Eremin, WHO HQ	Stephane Hugonnet, WHO HQ
Julien Beaute, European Centre for Disease Prevention and Control	Kamal Fahmy, WHO Regional Office for the Eastern Mediterranean	Yvan Hutin, WHO HQ
Adwoa Bentsi-Enchill, WHO HQ	Jennifer Farrar, US CDC	Masaaki Iwaki, National Institute of Infectious Diseases, Japan
Terry Besselaar, WHO HQ	Katya Fernandez, WHO HQ	Ilesh Jani, Instituto Nacional de Saúde, Mozambique
Pankaj Bhatnagar, WHO India	Daniella Figueroa-Downing, Gavi the Vaccine Alliance, Switzerland	Jalila Jawad, Ministry of Health, Bahrain
Paul Bloem, WHO HQ	LeAnne Fox, US CDC	Mark Jit, London School of Hygiene and Tropical Medicine, United Kingdom of Great Britain and Northern Ireland
Ray Borrow, Public Health England	Marta Gacic-Dobo, WHO HQ	Jacob John, Christian Medical College, Vellore, India
United Kingdom of Great Britain and Northern Ireland	Julie Warner Gargano, US CDC	Barbara Johnson, Consultant
Michael Bowen, US CDC	Julie Garon, US CDC	Hajime Kamiya, National Institute of Infectious Diseases, Japan
Nathalie Broutet, WHO HQ	Denise Garrett, Sabin Vaccine Institute, United States of America	Ieva Kantsons, Centre for Disease Prevention and Control, Latvia
Megan Carey, The Bill and Melinda Gates Foundation, United States of America	Francois Gasse, Consultant	Karen Keddy, National Institute for Communicable Diseases, South Africa
Pam Cassiday, US CDC	Tracey Goodman, WHO HQ	Aalisha Sahu Khan, Fiji Ministry of Health and Medical Services
Maricel Castro, WHO Philippines	Varja Grabovac, WHO Regional Office for the Western Pacific	Sudhir Khanal, WHO HQ
Ma Chao, Chinese Center for Disease Control and Prevention	Rebecca Grais, Epicentre	Muhamed Kheir Taha, Institut Pasteur, France
Ana Chevez, WHO Regional Office for the Americas	Christopher Gregory, US CDC	
Doris Chou, WHO HQ		

Maria Knoll, Johns Hopkins University,
United States of America

Sophie Lavincente, Consultant

Dominique Legros, WHO HQ

Fernanda Lessa, US CDC

Anagha Loharikar, US CDC

Adriana Lopez, US CDC

Octavie Lunguya, Institut National de
Recherche Biomedicale, Democratic
Republic of the Congo

Kristine Macartney, National Centre for
Immunisation Research and Surveillance,
Australia
