Foreword	ix
Acknowledgements	x
Abbreviations	xi
Executive summary	xiii
1 Introduction	1
1.1 Objectives of this document.	1
1.2 Background information.	1
1.3 What is new in WASH monitoring?	3
1.4 Why is the health sector involved in WASH?	9
2 Essential statistics on drinking-water, sanitation and hygiene	14
2.1 Drinking-water.	14
2.2 Sanitation.	19
2.3 Hygiene	24
2.4 Implications of the SDG WASH targets on the Western Pacific Region. .	26
2.5 Inequalities in drinking-water supply, sanitation and hygiene	33
3 Overall status of the WASH sector	39
3.1 Human right to drinking-water and sanitation	39
3.2 National sector organization	40
3.3 Human resources	47
3.4 Gender issues	50
3.5 Financing	52
4 Regional programmatic priorities	58
4.1 Drinking-water quality	58
4.2 WASH in schools	65
4.3 WASH in health-care facilities	69
4.4 WASH in climate change	73
Bibliographic references	77

Annexes

Annex 1. Global, regional and national basic drinking-water coverage, 2000 and 2015.	81
Annex 2. Global, regional and national safely managed drinking-water coverage, 2000 and 2015.	83
Annex 3. Global, regional and national basic sanitation coverage, 2000 and 2015.	85
Annex 4. Global, regional and national safely managed sanitation coverage, 2000 and 2015.	87

Annex 5. Selected tables derived from the 2016/2017 GLAAS survey in the Western Pacific Region	89
Annex 6. Glossary of selected terms used in this report.	97
Annex 7. Sustainable Development Goals	99
Annex 8. Regional groupings considered in this report	100

Figures

Fig. 1. Composition of the different JMP drinking-water statistics.	6
Fig. 2. Composition of the different JMP sanitation statistics.	6
Fig. 3. Mortality rate attributed to exposure to unsafe WASH services (per 100 000 population)	10
Fig. 4. Proportion of population with access to safely managed drinking-water services and other supply alternatives in Western Pacific countries and areas, 2015.	15
Fig. 5. Proportion of the population in the Western Pacific Region and the PICs with access to different drinking-water options in 2000 and 2015, and comparison with the world aggregated statistics	16
Fig. 6. Proportion of population with access to basic drinking-water services and population without access to basic drinking-water services in the Western Pacific Region and comparison with the world aggregated statistics, 2015.	16
Fig. 7. Proportion of populations in the Western Pacific countries using different types of drinking-water services, 2015	17
Fig. 8. Population in the Western Pacific Region not using basic drinking-water, 2015 (population in millions).	17
Fig. 9. Proportion of populations in the Western Pacific Region using drinking-water piped into their households, 2015.	18
Fig. 10. Proportion of the population in the Western Pacific Region and the PICs with access to different sanitation options in 2000 and 2015, and comparison with the world aggregated statistics.	19
Fig. 11. Proportion of populations in the Western Pacific countries using safely managed sanitation and other types of sanitation options, 2015.	20
Fig. 12. Proportion of people using toilets flushing to sewers and proportion of people generating wastewater treated by treatment plants, Western Pacific Region, 2015.	21
Fig. 13. Proportion of people in the Western Pacific Region with access to different types of technologies, total, rural, urban, 2015	22
Fig. 14. Proportion of people in the Western Pacific countries using basic sanitation facilities and other types of sanitation options, and aggregated statistics for the Western Pacific Region, the PICs and the world, 2015.	23

Fig. 15.	Population in the Western Pacific Region not using basic sanitation, 2015 (population in millions)	24
Fig. 16.	Proportion of population in Cambodia, Mongolia and Viet Nam using basic and limited handwashing facilities in 2015	26
Fig. 17.	Change in the proportion of people with access to basic drinking-water services in the Western Pacific Region and the PICs between 2000 and 2015 and projection of change between 2015 and 2030	27
Fig. 18.	Proportion of people with access to basic drinking-water in 2015 and projected coverage in 2030, Western Pacific Region, PICs and comparison with the world aggregated statistics	28
Fig. 19.	Population with access to basic drinking-water in 2000 and 2015 and projected coverage in 2030, Western Pacific Region and PICs	29
Fig. 20.	Change in the proportion of people with access to safely managed and basic sanitation services in the Western Pacific Region between 2000 and 2015 and projection of change between 2015 and 2030 and trends required to achieve SDG 6.2 and SDG 1.4 targets	30
Fig. 21.	Change in the proportion of people with access to basic sanitation services in the PICs between 2000 and 2015 and projection of change between 2015 and 2030 and trends required to achieve SDG 1.4 target	31
Fig. 22.	Proportion of population with access to safely managed sanitation services in selected countries of the Western Pacific Region and projected coverage in 2030	31
Fig. 23.	Proportion of population with access to basic sanitation services in selected countries of the Western Pacific Region and projected coverage in 2030	32
Fig. 24.	Population with access to basic sanitation in 2000 and 2015 and projected coverage in 2030, Western Pacific Region and the PICs	33
Fig. 25.	Proportion of urban and rural populations in the Western Pacific Region, PICs and the world using basic drinking-water services, 2015	33
Fig. 26.	Proportion of urban, rural and national populations in the Western Pacific Region, PICs and the world using basic drinking-water services, 2015	34
Fig. 27.	Use of basic drinking-water facilities in selected countries by wealth quintile in 2015	35
Fig. 28.	Proportion of urban and rural populations in the Western Pacific Region and the world using safely managed sanitation services, 2015	36
Fig. 29.	Proportion of urban, rural and national populations in the Western Pacific Region, the PICs and the world using basic sanitation services, 2015	36

Fig. 30.	Population with and without access to safely managed sanitation services in urban and rural areas, Western Pacific Region and the world, 2000 and 2015	37
Fig. 31.	Reported annual government WASH budgets in the Western Pacific Region, most recent fiscal year (2015–2017)	52
Fig. 32	Reported annual government WASH budgets per capita in the Western Pacific Region, most recent fiscal year (2015–2017).	52

Tables

Table 1.	Targets and indicators for WASH SDG (water, sanitation and hygiene).	3
Table 2.	The JMP ladder for drinking-water	4
Table 3.	The JMP ladder for sanitation	5
Table 4.	The JMP hygiene ladder	5
Table 5.	JMP service ladders to monitor WASH in schools	66
Table 6.	Status of drinking-water and sanitation coverage in schools of selected Western Pacific countries (%)	66
Table 7.	What can be done at the national, district and local levels to improve drinking-water, sanitation and hygiene in schools?	69
Table 8.	Service ladders for monitoring WASH in health-care facilities	71

Boxes

Box 1.	The GLAAS 2016/2017 survey in the Western Pacific Region	8
Box 2.	Effect of improvement in drinking-water supply and sanitation on diarrhoeal disease risk	11
Box 3.	What can be done to accelerate health gains?	12
Box 4.	What should be done to improve hygiene in the Western Pacific countries?	25
Box 5.	Suggested actions to advance the human right agenda on water and sanitation	40
