Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

TABLE OF CONTENTS

Acknowledgements	3
Abbreviations	4
Executive summary	5
1. Introduction	7
2. Method	8
3. Results	9
3.1 Mapping educational initiatives	9
3.2 Pre-service education curricula	13
3.3 Funding sources	15
4. Discussion	17
4.1 Pre-service training curricula	17
4.2 Improving content and delivery	18
4.3 Improving uptake	19
4.4 Curricula resources to build on	19
4.5 In-service training and continuing education	20
4.6 Improving scale-up	20
4.7 Continuing education resources to build upon	21
4.8 Other mechanisms of engagement	21
4.9 Strengths and limitations of this study	22

5. Conclusion	23
References	24
Appendix 1	27
Appendix 2	28

Acknowledgements

WHO is grateful to Susan Rogers Van Katwyk, Steven J Hoffman and Sara Jones of the Global Strategy Lab, University of Ottawa, Canada, for conducting the analysis and writing of this report. WHO is also grateful to the individuals and institutions who contributed to the list of educational resources and tools mentioned in this paper.

The development of this paper was coordinated, conceptualized and quality assured by Giorgio Cometto, Elizabeth Tayler and Onyema Ajuebor (WHO), under the oversight of James Campbell (Director, Health Workforce, WHO) and Marcus Sprenger (Director, Antimicrobial Resistance Secretariat, WHO).

Financial support for this study was provided by the Ministry of Health, Labour and Welfare of the Government of Japan.

Abbreviations

AMR	antimicrobial resistance
AMS	antimicrobial stewardship
ASP	antimicrobial stewardship programme
BSAC	British Society for Antimicrobial Chemotherapy
CDC	Centers for Disease Control and Prevention
