# ACKNOWLEDGMENTS

**THIS** report was prepared by Dr Laurence Grummer-Strawn, World Health Organization, Department of Nutrition for Health and Development (NHD) under the supervision of Dr Francesco Branca, Director, NHD. Technical support was provided by Ms Ellen Andresen, Ms Kaia Engesveen (NHD), Ms Diana Estevez (NHD), Ms Natalie Murphy (NHD), and Ms Krista Zillmer (NHD). Mr. Marcus Stahlhofer, Department of Maternal, Newborn, Child, and Adolescent Health (MCA), Ms Maaïke Arts (Programme Division, UNICEF New York), and Dr France Bégin (Programme Division, UNICEF New York) provided helpful review and comments. Much of the data presented in this report was made available directly by countries through submission of completed responses to the 2<sup>nd</sup> Global Nutrition Policy Review, with the facilitation of WHO Regional Advisers for Nutrition. Where responses to questionnaires did not provide adequate information on the coverage of the Baby-friendly Hospital Initiative, additional information sources were used. In particular, data were incorporated from the World Breastfeeding Trends Initiative of the International Baby Food Action Network, the UNICEF Nutridash survey, surveys of the BFHI Network for Industrialized Countries, and regional surveys conducted by the Pan American Health Organization and the WHO Eastern Mediterranean Regional Office. Interviews with national breastfeeding leaders were conducted by Dr Ala Curteanu, Dr Teresita González De Cosío, Dr Rukhsana Haider, Ms Natalie Murphy, Dr Cria Perrine, Dr Randa Saadeh, Dr Isabella Sagoe-Moses, and Ms Julie Stufkens.

We extend our thanks to all individuals and organizations involved in the preparation of this report.
