Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

The views expressed in this report do not imply the expression of any opinion on the part of the World Health Organization (WHO), the International Development Law Organization (IDLO), the O'Neill Institute for National and Global Health Law, Georgetown University, Washington D.C., or Sydney Law School, University of Sydney, Australia.

All reasonable precautions have been taken to verify the information contained in this report. However, the material published is being distributed without warranty of any kind, either expressed or implied. The responsibility for the use and interpretation of the material presented lies with the reader. In no event shall the WHO, IDLO, the O'Neill Institute or the University of Sydney be liable for any consequences arising from the use of material in this report.

Introduction	1
Purpose and scope of this report.....	1
Who should read this report?	2
The structure of this report	4
PART 1 ADVANCING THE RIGHT TO HEALTH THROUGH LAW REFORM	5
Chapter 1: Public health regulation and the right to health.....	6
1.1 Justifications for public health regulation.....	6
(a) Obligations of immediate effect under the right to health.....	9
(b) Core obligations arising under the right to health	10
(c) The right to health and health systems.....	11
1.2 Concepts and principles for guiding and evaluating law reform efforts.....	12
(a) The goal of universal health coverage.....	13
(b) Availability	15
(c) Accessibility	17
Non-discrimination	18
Physical accessibility	18
Economic accessibility (affordability)	19
Information accessibility	20
(d) Acceptability	20
(e) Quality	20
PART 2 THE PROCESS OF PUBLIC HEALTH LAW REFORM	24
Chapter 2: The context of public health law reform activities	27
2.1 What are public health laws?.....	27
2.2 Conceptualizing the process of health legislation review.....	28
(a) Impetus for a review	28
(b) Scope of the review process.....	29
(c) Implementing recommendations.....	29
2.3 Why legislate?	30
Chapter 3: Assessing the case for the reform of public health law	35

3.1	Common reasons for reviewing and updating public health laws.....	36
(a)	The problem of outdated laws	36
(b)	The problem of multiple layers of law	37
(c)	The problem of inconsistency	38
3.2	Identifying priorities for public health law reform	39
(a)	Communicable diseases	40
	Infectious diseases with pandemic potential.....	40
	HIV/AIDS.....	41
	Tuberculosis	42
(b)	Noncommunicable diseases.....	43
	Obesity	43
	Cardiovascular disease, cancer and tobacco-related diseases	44
(c)	Injuries	45
3.3	Who can initiate public health law reform?	46
3.4	What factors can act as triggers for public health law reform	47
(a)	Triggers for public health law reform within government.....	47
(b)	Community participation as a trigger for public health law reform and policy-making..	48
(c)	Litigation and public health law reform	48
Chapter 4: Building blocks for effective public health laws.....		57
4.1	Legislative goals, mandates and principles.....	58
4.2	Powers and responsibilities of the health ministry, and coordination with other agencies	59
4.3	Legal tools and strategies for discharging public health responsibilities.....	61
	Public health infrastructure and governance structures	62
	Economic policies.....	62
	The informational environment.....	62
	Regulation of businesses, professionals, and individuals	62
	Environmental policies.....	63
	Health inequalities	63
	Indirect regulation through the tort system	65
4.4	Building flexibility into public health laws	65
4.5	Integrating human rights protections into public health law	67
4.6	Creating coherence between public health laws and other laws.....	69
Chapter 5: Good governance in the process of public health law reform.....		73

5.1	Public health law reform, good governance and human rights.....	73
5.2	Good governance and corruption.....	74
5.3	Principles of good governance.....	75
(a)	Stewardship.....	75
(b)	Transparency.....	75
(c)	Participation.....	75
(d)	Fairness.....	76
(e)	Accountability.....	77
(f)	The rule of law.....	77
Chapter 6: Coordinated, intersectoral action to improve public health		79
6.1	The purpose and scale of intersectoral reforms to improve public health	80
6.2	Practical steps for initiating intersectoral action	84
6.3	Case studies of governance reforms supporting intersectoral action on health.....	86
(a)	Disease prevention and health promotion	86
(b)	Promoting health equity and reducing health inequalities.....	89
(c)	Improving food and nutritional security in Brazil.....	91
	Intersectoral governance reforms	92
	One Zero: leading policies	94
	Strengthening the National System for Food and Nutrition Security.....	95
PART 3 PRIORITIES FOR PUBLIC HEALTH LAW REFORM		102
Chapter 7: Achieving universal access to quality health services.....		103
7.1	The concept and scope of universal health coverage.....	105
7.2	Legislative frameworks supporting the provision of health services.....	107
7.3	The role of legislation in defining a national health insurance scheme: case study from Ghana.....	114
(a)	Legislative regulation of Ghana's National Health Insurance Scheme.....	115
	Governing institutions.....	115
	Membership and coverage	115
	Regulation of health services and health service providers	115
	Financing	116
	Evolution of the scheme under the 2012 Act	116
(b)	Ghana's National Health Insurance Scheme and the dimensions of universal health coverage	118
	Population axis.....	119

Services axis	119
Cost axis	119
Quality	120
Chapter 8: Clean water, sanitation and vector abatement	125
8.1 Sanitation and hygiene	126
(a) Clean water supplies	128
(b) Sanitation facilities	131
8.2 Vector abatement	133
(a) Malaria and other mosquito-borne diseases	133
(b) Rodent control	135
Chapter 9: Monitoring, surveillance, and investigation of health threats	141
9.1 Clinical and laboratory-based surveillance	142
9.2 Sentinel surveillance	144
9.3 Community-based surveillance and investigations	145
9.4 Comprehensive surveillance systems	145
9.5 Developing integrated national capabilities for surveillance and response	146
Chapter 10: Controlling the spread of infectious diseases	151
10.1 Building ethical principles into infectious disease legislation	153
10.2 Preventing the transmission of infectious diseases	154
(a) Immunization	154
(b) Screening	155
(c) Criminal law and mandatory disclosure laws	159
10.3 Compulsory treatment orders	159
10.4 Limiting contact with infectious persons	160
Chapter 11: Public health emergencies	165
11.1 International management of public health emergencies	166
(a) The International Health Regulations (2005)	166
National IHR Focal Points	167
Reporting obligations	167
Surveillance and response capabilities	169
Temporary recommendations	169
Human rights protections within the IHR	169
(b) Pandemic Influenza Preparedness Framework	170
(c) Strengthening WHO's emergency response capacity	172

11.2	National public health emergency plans	172
11.3	Emergency health workforce	173
11.4	Control of premises, facilities and supplies	174
11.5	Health care services during a public health emergency	176
Chapter 12: Enabling environments to support healthy and safe behaviours		181
12.1	Enabling behaviours that reduce risks for NCDs	182
(a)	Global targets for reducing mortality from NCDs	183
(b)	Implementing “best buys” for NCDs	183
(c)	Engaging with the private sector	185
(d)	Supporting health promotion	186
12.2	Discouraging behaviour that contributes to injuries	187
Chapter 13: Tobacco control		192
