

The use of loop-mediated isothermal  
amplification (TB-LAMP)  
for the diagnosis of pulmonary tuberculosis

**The use of loop-mediated isothermal  
amplification (TB-LAMP) for the  
diagnosis of pulmonary tuberculosis**

**Policy guidance**

## **WHO Library Cataloguing-in-Publication Data**

The use of loop-mediated isothermal amplification (TB-LAMP) for the diagnosis of pulmonary tuberculosis. Policy guidance.

1. Tuberculosis, Pulmonary - diagnosis. 2. Mycobacterium tuberculosis. 3. Nucleic Acid Amplification Techniques. 4. Guideline.

I. World Health Organization.

ISBN 978 92 4 151118 6

(NLM classification: WF 300)

## Contents

<b>Executive summary.....</b>	<b>1</b>
<b>1. Background .....</b>	<b>3</b>
<b>2. Methods .....</b>	<b>7</b>
2.1 Evidence synthesis .....	7
2.2 Criteria for considering studies for this review .....	7
2.3 Data collection and analysis.....	9
2.4 Guideline Development Group meeting.....	10
2.5 External Review Group .....	10
<b>3. Scope .....</b>	<b>11</b>
3.1 Target audience.....	11
<b>4. Evidence base for policy formulation.....</b>	<b>12</b>
4.1 Assessment of methodological quality .....	15
<b>5. Results of the systematic review.....</b>	<b>17</b>
5.1 Accuracy of TB-LAMP as a replacement test for smear microscopy .....	17
5.2 Accuracy of TB-LAMP as a replacement test for smear microscopy in persons living with HIV .....	19
5.3 Accuracy of TB-LAMP as an add-on test following smear microscopy for smear-negative adults .....	20
5.4 Accuracy of TB-LAMP compared with Xpert MTB/RIF assay for detecting pulmonary TB.....	22
5.5 Evaluation of the proportion of indeterminate or invalid results when TB-LAMP is used to detect pulmonary TB among all adults and among HIV-positive adults.....	24
<b>6. Cost-effectiveness analysis .....</b>	<b>25</b>
<b>7. Summary: from evidence to recommendations .....</b>	<b>26</b>
7.1 TB-LAMP for the detection of pulmonary TB in all adults .....	26
7.2 TB-LAMP for the detection of pulmonary TB in adults living with HIV .....	26
7.3 TB-LAMP as an add-on test for detecting of pulmonary TB in adults following negative smear microscopy .....	27
7.4 TB-LAMP as a replacement test for the Xpert MTB/RIF assay for detecting pulmonary TB in adults .....	27
<b>8. WHO policy recommendations .....</b>	<b>29</b>

**9. Implementation considerations ..... 30**

**10. Plans for disseminating WHO's guidance on TB-LAMP ..... 31**

**11. Research needs..... 32**

**12. Annexes..... 33**

Annex 1. References to studies for the systematic review of the diagnostic accuracy of TB-LAMP ..... 33

Annex 2. GRADE Evidence Profiles ..... 35

Annex 3. Abstracts for unpublished studies ..... 38

## Tables

<b>Table 1.</b>	Characteristics for all studies included in the evaluation of TB-LAMP (see Annex 1 for information about the studies) .....	14
<b>Table 2.</b>	Risk of bias and applicability concerns: review authors' judgments about each domain (see Annex 1 for information about the studies) .....	16
<b>Table 3.</b>	TB-LAMP as a replacement test for smear microscopy: eligible and included patients, by reference standard and study site (see Annex 1 for information about the studies) .....	17
<b>Table 4.</b>	TB-LAMP as a replacement test for smear microscopy: estimates of pooled sensitivity and specificity .....	19
<b>Table 5.</b>	TB-LAMP as a replacement test for smear microscopy in persons living with HIV: pooled sensitivity and specificity .....	20
<b>Table 6.</b>	TB-LAMP as an add-on test following negative sputum-smear microscopy: eligible and included patients, by reference standard and study site (see Annex 1 for information about the studies) .....	20
<b>Table 7.</b>	TB-LAMP as an add-on test following smear microscopy: pooled sensitivity and specificity .....	22
<b>Table 8.</b>	Diagnostic accuracy of TB-LAMP compared with the Xpert MTB/RIF assay: eligible and included patients, by reference standard and study site. (See Annex 1 for information about the studies) .....	23
<b>Table 9.</b>	Accuracy of TB-LAMP and the Xpert MTB/RIF assay: pooled sensitivity and specificity .....	24
<b>Table 10.</b>	GRADE evidence profile: accuracy of TB-LAMP as a replacement test for sputum-smear microscopy for diagnosing pulmonary TB among all adults suspected of having pulmonary TB .....	34
<b>Table 11.</b>	GRADE evidence profile: accuracy of TB-LAMP as a replacement test for sputum-smear microscopy for diagnosing pulmonary TB among all adults living with HIV suspected of having pulmonary TB .....	35
<b>Table 12.</b>	GRADE evidence profile: accuracy of TB-LAMP as an add-on test following negative sputum-smear microscopy for diagnosing pulmonary TB in adults suspected of having pulmonary TB .....	36

Figures	
<b>Figure 1.</b>	Molecular principles of TB-LAMP ..... 4
<b>Figure 2.</b>	Visual display of TB-LAMP results under ultraviolet light ..... 5
<b>Figure 3.</b>	Schematic description of the workflow for TB-LAMP ..... 6
<b>Figure 4.</b>	Flow diagram of the 20 TB-LAMP studies identified through a systematic search. Thirteen studies were eligible for inclusion in the systematic review (see Annex 1 for information about the studies) ..... 13
<b>Figure 5.</b>	Forest plots of TB-LAMP sensitivity and specificity for detecting TB compared with three culture-based reference standards <sup>a</sup> (see Annex 1 for information about the studies) ..... 18
<b>Figure 6.</b>	Forest plots of TB-LAMP sensitivity and specificity for detecting TB among adults living with HIV compared with three culture-based reference standards (see Annex 1 for information about the studies) ..... 19
<b>Figure 7.</b>	Forest plots of TB-LAMP sensitivity and specificity for detecting TB among adults as an add-on test following negative sputum-smear microscopy compared with three culture-based reference standards <sup>a</sup> (see Annex 1 for information about the studies) ..... 21
