All rights reserved. Publications of the World Health Organization are available on the WHO website ([www.who.int](http://www.who.int)) or can be purchased from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: [bookorders@who.int](mailto:bookorders@who.int)).

Requests for permission to reproduce or translate WHO publications – whether for sale or for non-commercial distribution – should be addressed to WHO Press through the WHO website ([www.who.int/about/licensing/copyright\\_form/en/index.html](http://www.who.int/about/licensing/copyright_form/en/index.html)).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either express or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

The recommendations of the World Health Organization Pesticide Evaluation Scheme (WHOPES) are intended to facilitate the registration and use of the evaluated products by the Member States of the World Health Organization. A recommendation or interim recommendation concerning a specific product means that the World Health Organization has evaluated that product in laboratory and field trials and that the product was found to meet the criteria and requirements of the World Health Organization.

For long-lasting insecticidal mosquito nets (LNs), the World Health Organization may – pending the completion of long-term studies that may be required to fully evaluate such LNs and subject to certain conditions being met – issue an interim recommendation for the use of such LNs for prevention and control of malaria.

A recommendation or interim recommendation does not imply any approval by the World Health Organization of the product in question (which is the sole prerogative of national authorities).

Such a recommendation or interim recommendation does not, furthermore, constitute any assurance by the World Health Organization that the manufacture, distribution, sale and/or use of the product in question is in accordance with the national laws and regulations of any country, including, but not limited to, patent law.

The recommendations and interim recommendations included in this publication may not be used by manufacturers, suppliers or any other parties for commercial or promotional purposes. Manufacturers are, however, permitted to discreetly mention the outcome of the WHOPES evaluation in non-commercial material which is addressed to national public health professionals and/or pesticide registration authorities only (that is, through a statement that the product in question was found to have been manufactured in accordance with the applicable specification recommended by the World Health Organization).

A recommendation or interim recommendation does not constitute an endorsement, or warranty of the fitness, by the World Health Organization of any product for a particular purpose, nor does such a recommendation or interim recommendation constitute the expression of any opinion whatsoever about the product's suitability for the control of any given pest, or for use in any particular geographical area.

Printed in Italy.

**CONTENTS**

	Page
1. INTRODUCTION .....	1
2. REVIEW OF VEERALIN LN .....	4
2.1 Safety assessment .....	4
2.2 Efficacy – background and supporting documents .....	5
2.3 Efficacy – WHOPES-supervised trials.....	8
2.3.1 Laboratory study .....	8
2.3.2 Experimental hut studies.....	11
2.4 Conclusions and recommendations .....	23
3. REVIEW OF VECTOMAX GR.....	35
3.1 Safety assessment .....	35
3.2 Efficacy – background and supporting documents .....	40
3.3 Efficacy – WHOPES-supervised trials.....	44
3.3.1 Small-scale studies .....	44
3.3.2 Large-scale studies .....	45
3.4 Conclusions and recommendations .....	50
4. REVIEW OF BACTIVEC SC .....	57
4.1 Safety assessment .....	57
4.2 Efficacy – background and supporting documents .....	61
4.3 Efficacy – WHOPES-supervised trials.....	62
4.3.1 Small-scale studies .....	68
4.3.2 Large-scale studies .....	69
4.4 Conclusions and recommendations .....	70
5. GENERAL DISCUSSION.....	87
ANNEXES .....	88
1. LIST OF PARTICIPANTS .....	88
2. REFERENCES .....	90
