Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

15. Main action points	92

Annexures

1. List of reviewers	101
2. Reviewers per thematic area	102
3. Health facility and organizations visited.....	103

Acknowledgements

Members of the external review team would like to express their thankfulness to all senior experts in the Ministry of Health and Sports and other ministries who have given their time to discuss and express their views to members of the review team.

Special thanks as well to state/region and township public health and VBDC teams and all health-care staff and malaria volunteers and workers who met with us in the field at all levels welcoming us, making useful presentations and freely discussing and clarifying issues with team members.

Team members had also the opportunity to discuss with various stakeholders from I/NGOs to academic and research institutions and donors, including GFATM principal recipients, 3MDG and PMI/USAID experts who have contributed to the overall review exercise.

Team members acknowledge also the full support of the central VBDC office staff who have prepared and discussed background documents and finalized field visits. Last but not least, team members would like to express their gratitude to WHO staff in the field, at VBDC level and in the WHO Country Office for Myanmar for their excellent coordinating and supportive role before and during the review mission and preparation of the report.

The external review has been financially supported by WHO. The document was peer reviewed by Dr Kevin Palmar, former Regional Adviser for Malaria WHO, Regional Office for the Western Pacific, and Dr Sean Hewitt, an independent vector-borne disease specialist.

Warm hospitality, flexible daily arrangements for accommodation and travel have been highly appreciated by all team members.

Disclaimer

Opinions and views expressed in this report are only those of the review team members.

Acronyms

3DF	Three Diseases Fund
3MDGF	Three Millennium Development Goals Fund
ABER	Annual blood examination rate
ACD	Active case detection (either proactive or reactive)
ACPR	Adequate clinical and parasitological response
ACT	Artemisinin-based combination therapy
ACTMalaria	Asian Collaborative Training Network for Malaria
ADB	Asian Development Bank
AL	Artemether-Lumefantrine (Coartem®)
AM	Artesunate-mefloquine
AMTR	Artemisinin monotherapy replacement project (led by PSI)
API	Annual (malaria) parasite incidence (per 1000 pop)
API <i>Pf</i>	Annual <i>P. falciparum</i> incidence (per 1000 pop)
API <i>Pv</i>	Annual <i>P. vivax</i> incidence (per 1000 pop)
APLMA	Asia Pacific Leaders Malaria Alliance (secretariat in Singapore)
APMEN	Asia Pacific Malaria Elimination Network (secretariat in Brisbane)
ARC	American Refugee Committee
ARCE	Strategy for the containment of artemisinin tolerant malaria parasites in South-East Asia (project from 2009 to 2011)
