United Nations

World Health
Organization

World Health
Organization

The World Health Organization was established in 1948 as a specialized agency of the United Nations serving as the directing and coordinating authority for international health matters and public health. One of WHO's constitutional functions is to provide objective and reliable information and advice in the field of human health, a responsibility that it fulfils in part through its extensive programme of publications. The Organization seeks through its publications to support national health strategies and address the most pressing public health concerns of populations around the world. To respond to the needs of Member States at all levels of development, WHO publishes practical manuals, handbooks and training material for specific categories of health workers; internationally applicable guidelines and standards; reviews and analyses of health policies, programmes and research; and state-of-the-art consensus reports that offer technical advice and recommendations for decision-makers. These books are closely tied to the Organization's priority activities, encompassing disease prevention and control, the development of equitable health systems based on primary health care, and health promotion for individuals and communities. Progress towards better health for all also demands the global dissemination and exchange of information that draws on the knowledge and experience of all WHO's Member countries and the collaboration of world leaders in public health and the biomedical sciences. To ensure the widest possible availability of authoritative information and guidance on health matters, WHO secures the broad international distribution of its publications and encourages their translation and adaptation. By helping to promote and protect health and prevent and control disease throughout the world, WHO's books contribute to achieving the Organization's principal objective – the attainment by all people of the highest possible level of health.

The WHO Technical Report Series makes available the findings of various international groups of experts that provide WHO with the latest scientific and technical advice on a broad range of medical and public health subjects. Members of such expert groups serve without remuneration in their personal capacities rather than as representatives of governments or other bodies; their views do not necessarily reflect the decisions or the stated policy of WHO. An annual subscription to this series, comprising about four to six such reports, costs CHF 150.00 / US\$ 180.00 (CHF 105.00/US\$ 126.00 in developing countries). For further information, please contact: WHO Press, World Health Organization, 20 avenue Appia, 1211 Geneva 27, Switzerland (tel. +41 22 791 3264; fax: +41 22 791 4857; email: bookorders@who.int; order online: <http://www.who.int/bookorders>).

Contents

List of participants	v
List of abbreviations	viii
1. Introduction	1
1.1 Declarations of interests	2
1.2 Modification of the agenda	2
2. General considerations	3
2.1 Matters of interest arising from previous sessions of the Codex Committee on Residues of Veterinary Drugs in Foods (CCRVDF)	3
2.2 MRLs for generic fish species	4
2.3 Acute reference dose (ARfD) for veterinary drugs	7
2.4 Chronic dietary exposure assessment	9
2.4.1 Approach for dietary exposure assessment of compounds used for multiple purposes (i.e. veterinary drugs and pesticides)	9
2.4.2 Dietary exposure assessment for less-than-lifetime exposure	10
2.4.3 Recommendations	11
2.5 Update and revision of <i>Principles and methods for the risk assessment of chemicals in food</i> (EHC 240)	11
2.6 Guidance for the evaluation of veterinary drug residues in food by JECFA	12
2.7 Update on FAO and WHO databases related to the work of the Committee	12
2.8 Processing of food containing residues of veterinary drugs	13
2.9 Reporting of original data in JECFA monographs	14
2.10 Assessment of short-term (90-day and 12-month) studies in dogs	14
2.11 Coordination of the agendas of JECFA and JMPR	15
3. Response to concern forms from CCRVDF	17
3.1 Lasalocid sodium	17
4. Comments on residues of specific veterinary drugs	25
4.1 Diflubenzuron	25
4.2 Ivermectin	39
4.3 Sisapronil	49
4.4 Teflubenzuron	59
4.5 Zilpaterol hydrochloride	73
5. Future work and recommendations	85
Acknowledgements	87

List of participants

Eighty-first meeting of the Joint FAO/WHO Expert Committee on Food Additives

Rome, 17–26 November 2015

Members

Professor A. Anadón, Department of Toxicology and Pharmacology, Faculty of Veterinary Medicine, Universidad Complutense de Madrid, Madrid, Spain

Dr J.O. Boison, Centre for Veterinary Drug Residues, Canadian Food Inspection Agency, Saskatoon, Saskatchewan, Canada (*Joint Rapporteur*)

Professor A.R. Boobis, Centre for Pharmacology & Therapeutics, Department of Experimental Medicine, Division of Medicine, Faculty of Medicine, Imperial College London, London, England, United Kingdom (*Vice-Chair*)

Dr L.G. Friedlander, Residue Chemistry Team, Division of Human Food Safety, Center for Veterinary Medicine, Food and Drug Administration, Department of Health and Human Services, Rockville, Maryland, United States of America (USA) (*Chair*)

Dr K.J. Greenlees, Office of New Animal Drug Evaluation, Center for Veterinary Medicine, Food and Drug Administration, Department of Health and Human Services, Rockville, Maryland, USA (*Joint Rapporteur*)

Professor S.H. Jeong, Department of Biomedical Science, College of Life and Health Science, Hoseo University, Asan City, Chungnam, Republic of Korea

Professor B. Le Bizec, Laboratoire d'Étude des Résidus et des contaminants dans les aliments (LABERCA), École Nationale Vétérinaire, Agroalimentaire et de l'Alimentation Nantes Atlantique (ONIRIS), Nantes, France

Professor J. Palermo-Neto, Department of Pathology, Faculty of Veterinary Medicine, University of São Paulo, São Paulo, Brazil

Professor Emeritus L. Ritter, University of Guelph, Guelph, Ontario, Canada

Dr P. Sanders, National Reference Laboratory for Veterinary Drug Residues and Antimicrobial Resistance, Agence nationale de sécurité sanitaire de l'alimentation, de l'environnement et du travail (ANSES), Fougères, France

Secretariat

Ms G. Brisco, Joint FAO/WHO Food Standards Programme, Food and Agriculture Organization of the United Nations, Rome, Italy (*Codex Secretariat*)

- Dr A. Bruno, Joint FAO/WHO Food Standards Programme, Food and Agriculture Organization of the United Nations, Rome, Italy (*Codex Secretariat*)
- Dr C.E. Cerniglia, Division of Microbiology, National Center for Toxicological Research, Food and Drug Administration, Department of Health and Human Services, Jefferson, Arkansas, USA (*WHO Expert*)
- Dr A. Chicoine, Veterinary Drugs Directorate, Health Canada, Saskatoon, Saskatchewan, Canada (*FAO Expert*)
- Dr H. Erdely, Residue Chemistry Team, Division of Human Food Safety, Center for Veterinary Medicine, Food and Drug Administration, Department of Health and Human Services, Rockville, Maryland, USA (*FAO Expert*)
- Dr V. Fattori, Food and Agriculture Organization of the United Nations, Rome, Italy (*FAO Secretariat*)
- Dr S. Ghimire, Veterinary Drugs Directorate, Health Canada, Ottawa, Ontario, Canada (*WHO Expert*)
- Dr J.C. Leblanc, Food and Agriculture Organization of the United Nations, Rome, Italy (*FAO Secretariat*)
- Dr M. Lipp, Food and Agriculture Organization of the United Nations, Rome, Italy (*FAO Joint Secretary*)
- Dr J. MacNeil, Consultant, Food and Agriculture Organization of the United Nations, Rome, Italy (*FAO Technical Editor*)
- Dr K. Ogawa, Division of Pathology, Biological Safety Research Center, National Institute of Health Sciences, Tokyo, Japan (*WHO Expert*)
- Professor S. Rath, Department of Analytical Chemistry, University of Campinas, Campinas, São Paulo, Brazil (*FAO Expert*)
- Dr R. Reuss, Food Standards Australia New Zealand, Canberra, Australian Capital Territory, Australia (*FAO Expert*)
- Dr G.I. Schefferlie, Veterinary Medicinal Products Unit, Medicines Evaluation Board
