**Contents**

**Executive summary..... 1**

**1. Background ..... 3**

**2. Methods ..... 6**

2.1. Evidence synthesis ..... 6

2.2. Guideline Development Group meeting ..... 9

2.3. External Review Group ..... 10

**3. Scope ..... 11**

3.1. Target audience..... 11

**4. Evidence base for policy formulation..... 12**

4.1. Quality of included studies..... 13

4.2. LF-LAM accuracy for the diagnosis of active TB in people living with HIV.... 14

4.2.1. Overall accuracy of LF-LAM compared with a microbiological reference standard..... 14

4.2.2. Overall accuracy of LF-LAM compared with a composite reference standard..... 15

4.2.3. LF-LAM accuracy by health care setting..... 15

4.2.4. LF-LAM for the diagnosis of TB in adults living with HIV by CD4 threshold..... 16

4.2.5. LF-LAM compared to conventional tests for the diagnosis of TB in adults ..... 19

4.2.6. LF-LAM for the diagnosis of TB in children living with HIV compared with a microbiological reference standard ..... 21

4.3. LF-LAM for screening of active TB in people living with HIV ..... 21

4.3.1. Overall accuracy of LF-LAM to screen for TB in adults living with HIV compared with a microbiological reference standard ..... 21

4.3.2. Overall accuracy of LF-LAM to screen for TB in adults living with HIV compared with a composite reference standard ..... 22

4.3.3. LF-LAM for screening for TB in adults living with HIV by health care setting ..... 22

4.3.4. LF-LAM for screening for TB in adults living with HIV by CD4 threshold ..... 23

4.4. LF-LAM and patient outcomes ..... 23

4.5. Cost and cost-effectiveness of using LF-LAM for the diagnosis of active TB ..... 24

4.6. Inter- and intra-reader variability between test readers in studies, included in the review ..... 25

**5. Summary of evidence to recommendations..... 26**

5.1. LF-LAM for the diagnosis of active TB ..... 26

5.2. LF-LAM for the screening for TB..... 27

**6. WHO policy recommendations ..... 28**

**7. Implementation considerations ..... 29**

7.1. Plans for disseminating the WHO policy guidance on LF-LAM ..... 29

**8. Research needs..... 30**

**9. Grade tables ..... 31**

**10. Annexes..... 50**

Annex 1. Meeting participants ..... 50

Annex 2. Members of the External Review Group ..... 51

Annex 3 WHO Steering Group..... 52

Annex 4. Declarations of Interests ..... 52

Annex 5. References to studies for the review of the diagnostic accuracy of LF-LAM ..... 53

Annex 6. References to studies for the review of economic evaluations of LF-LAM ..... 59

Annex 7. Summaries of unpublished studies included in the review ..... 62

## Tables

<b>Table 1.</b>	Summary of LF-LAM diagnostic accuracy for active TB at different CD4 thresholds .....	17
<b>Table 2</b>	GRADE evidence profile: accuracy of LF-LAM to diagnose tuberculosis in adults with HIV, microbiological reference standard, grade 2 .....	31
<b>Table 3</b>	GRADE evidence profile: accuracy of LF-LAM to diagnose tuberculosis in adults with HIV, composite reference standard, grade 2 .....	32
<b>Table 4</b>	GRADE evidence profile: accuracy of LF-LAM to diagnose tuberculosis in children with HIV .....	33
<b>Table 5</b>	GRADE evidence profile: accuracy of LF-LAM to diagnose tuberculosis in adults with HIV in inpatient setting, grade 2 .....	34
<b>Table 6</b>	GRADE evidence profile: accuracy of LF-LAM to diagnose tuberculosis in adults with HIV in outpatient setting, grade 2 .....	35
<b>Table 7</b>	GRADE evidence profile: accuracy of LF-LAM to diagnose tuberculosis in adults with HIV with CD4 > 200 cells/ $\mu$ L, grade 2 .....	36
<b>Table 8</b>	GRADE evidence profile: accuracy of LF-LAM to diagnose tuberculosis in adults with HIV with CD4 $\leq$ 200 cells/ $\mu$ L, grade 2 .....	37
<b>Table 9</b>	GRADE evidence profile: accuracy of LF-LAM to diagnose tuberculosis in adults with HIV with CD4 > 100 cells/ $\mu$ L, grade 2 .....	38
<b>Table 10</b>	GRADE evidence profile: accuracy of LF-LAM to diagnose tuberculosis in adults with HIV with CD4 $\leq$ 100 cells/ $\mu$ L, grade 2 .....	39
<b>Table 11</b>	GRADE evidence profile: accuracy of LF-LAM to diagnose tuberculosis in adults with HIV with CD4 $\leq$ 200 cells/ $\mu$ L in inpatient settings, grade 2 .....	40
<b>Table 12</b>	GRADE evidence profile: accuracy of LF-LAM to diagnose tuberculosis in adults with HIV with CD4 $\leq$ 100 cells/ $\mu$ L in inpatient settings, grade 2 .....	41
<b>Table 13</b>	GRADE evidence profile: accuracy of LF-LAM vs. sputum microscopy to diagnose tuberculosis in adults with HIV, grade 2 .....	42
<b>Table 14</b>	GRADE evidence profile: accuracy of LF-LAM in combination with sputum microscopy to diagnose tuberculosis in adults with HIV, grade 2 .....	43
<b>Table 15</b>	GRADE evidence profile: accuracy of LF-LAM vs. sputum Xpert MTB/RIF microscopy to diagnose tuberculosis in adults with HIV, grade 2 .....	44
<b>Table 16</b>	GRADE evidence profile: accuracy of LF-LAM in combination with sputum Xpert MTB/RIF microscopy to diagnose tuberculosis in adults with HIV, grade 2 .....	45
<b>Table 17</b>	GRADE evidence profile: accuracy of LF-LAM to screen for tuberculosis in adults with HIV, grade 2 .....	46

**Table 18** GRADE evidence profile: accuracy of LF-LAM to screen for tuberculosis in adults with HIV, composite reference standard, grade 2..... 47

**Table 19** GRADE evidence profile: accuracy of LF-LAM to screen for tuberculosis in adults with HIV in inpatient setting, grade 2..... 48

**Table 20** GRADE evidence profile: accuracy of LF-LAM to screen for tuberculosis in adults with HIV in outpatient setting, grade 2 ..... 49

## Figures

<b>Figure 1</b>	Alere Determine™ TB LAM Ag test .....	4
<b>Figure 2</b>	Grading of Determine TB Ag assay .....	5
<b>Figure 3</b>	Selection of studies evaluating the accuracy of LF-LAM for the diagnosis of active TB: flow diagram of studies identified by the literature .....	13
<b>Figure 4</b>	Risk of bias and applicability concerns graph: judgements about each domain presented as percentages across the 16 included studies .....	14
<b>Figure 5</b>	Forest plots of sensitivity and specificity of LF-LAM for diagnosis of active TB in people living with HIV against a microbiological reference standard .....	14
<b>Figure 6</b>	Forest plot of the sensitivity and specificity of LF-LAM for diagnosis of active TB in people living with HIV against a composite reference standard .....	15
<b>Figure 7</b>	Forest plots of sensitivity and specificity of LF-LAM for diagnosis of active TB against a microbiological reference standard, HIV positive inpatients .....	16
<b>Figure 8</b>	Forest plots of the sensitivity and specificity of LF-LAM for diagnosis of active TB against a microbiological reference standard, HIV positive outpatients .....	16
<b>Figure 9</b>	Forest plots of sensitivity and specificity of LF-LAM for diagnosis of active TB in HIV positive patients with CD4 count > 200 cells/μL, microbiological reference standard .....	17
<b>Figure 10</b>	Forest plots of sensitivity and specificity of LF-LAM for diagnosis of active TB in HIV positive patients with CD4 count ≤ 200 cells /μL, microbiological reference standard .....	18
