CONTENTS

Preface	v
Safety evaluations of specific food additives (other than flavouring agents)	1
Carrageenan (addendum)	3
Citric and fatty acid esters of glycerol (CITREM) (addendum)	45
Gardenia yellow	73
Lutein esters from <i>Tagetes erecta</i>	87
Octenyl succinic acid (OSA)–modified starch	105
Pectin (addendum)	139
Safety evaluations of groups of related flavouring agents	163
Introduction	165
Aliphatic and alicyclic hydrocarbons (addendum)	169
Aliphatic and aromatic ethers (addendum)	195
Ionones and structurally related substances (addendum)	217
Miscellaneous nitrogen-containing substances (addendum)	241
Monocyclic and bicyclic secondary alcohols, ketones and related esters (addendum)	263
Phenol and phenol derivatives (addendum)	277
Phenyl-substituted aliphatic alcohols and related aldehydes and esters (addendum)	297
Sulfur-containing heterocyclic compounds (addendum)	317
Annex 1	
Reports and other documents resulting from previous meetings of the Joint FAO/WHO Expert Committee on Food Additives	343
Annex 2	
Abbreviations used in the monographs	355
Annex 3	
Participants in the seventy-ninth meeting of the Joint FAO/WHO Expert Committee on Food Additives	359
Annex 4	
Toxicological information and information on specifications	363
Annex 5	
Summary of the safety evaluation of secondary components for flavouring agents with minimum assay values of less than 95%	369

PREFACE

The monographs contained in this volume were prepared at the seventy-ninth meeting of the Joint Food and Agriculture Organization of the United Nations (FAO)/World Health Organization (WHO) Expert Committee on Food Additives (JECFA), which met at WHO headquarters in Geneva, Switzerland, on 17–26 June 2014. These monographs summarize the data on selected food additives, including flavouring agents, reviewed by the Committee.

The seventy-ninth report of JECFA has been published by WHO as WHO Technical Report No. 990. Reports and other documents resulting from previous meetings of JECFA are listed in [Annex 1](#). The participants in the meeting are listed in [Annex 3](#) of the present publication. A summary of the conclusions of the Committee is given in [Annex 4](#).

JECFA serves as a scientific advisory body to FAO, WHO, their Member States and the Codex Alimentarius Commission, primarily through the Codex Committee on Food Additives, the Codex Committee on Contaminants in Food and the Codex Committee on Residues of Veterinary Drugs in Foods, regarding the safety of food additives, residues of veterinary drugs, naturally occurring toxicants and contaminants in food. Committees accomplish this task by preparing reports of their meetings and publishing specifications or residue monographs and dietary exposure and toxicological monographs, such as those contained in this volume, on substances that they have considered.

The monographs contained in this volume are based on working papers that were prepared by WHO experts. A special acknowledgement is given at the beginning of each monograph to those who prepared these working papers. The monographs were edited by M. Sheffer, Ottawa, Canada.

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the organizations participating in WHO concerning the legal status of any country, territory, city or area or its authorities, or concerning the delimitation of its frontiers or boundaries. The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the organizations in preference to others of a similar nature that are not mentioned.

Any comments or new information on the biological or toxicological properties of the compounds evaluated in this publication should be addressed to: WHO Joint Secretary of the Joint FAO/WHO Expert Committee on Food Additives, Department of Food Safety and Zoonoses, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland.
