Introduction		
	Who should read this manual?	1
	How was this manual developed?	2
	Overview of the content	2
Chapter 1.	Youth violence definition, prevalence and consequences	4
	Definitions: youth violence in context	5
	Youth violence: magnitude, distribution and consequences	6
	Homicide	6
	Non-fatal youth violence	7
	Youth receiving hospital emergency treatment for violence-related injuries	7
	Self-reported victimization and perpetration	7
	Dating violence prevalence	9
	Sexual violence prevalence	9
	Consequences of non-fatal youth violence	9
	Wider social and economic consequences	10
Chapter 2.	Risk factors for youth violence	12
	Risk factors most strongly associated with youth violence	13
	Involvement in crime and delinquency	13
	Antisocial peers and lack of social ties	13
	Alcohol and drugs	15
	Sex	15
	Socioeconomic status	15
	Parental involvement in antisocial behaviour and crime	15
	Aggressive behaviour and history of involvement in violence	16
	Child maltreatment	16
	Parenting skills and parent child relations: supervision, discipline, bonding	16
	School attitude/performance	16
	Psychological conditions	16

	Other risk factors for youth violence	17
	Individual level risk factors	17
	Family and close relationship risk factors	17
	Community-level risk factors	17
	Society-level risk factors	17
	Use of risk factors for developing and planning interventions	18
Chapter 3.	What is the evidence for youth violence prevention?	20
	Parenting and early childhood development approaches	22
	Home visiting programmes	22
	Parenting programmes	24
	Early childhood development programmes	26
	School-based academic and social skills development strategies	28
	Life and social skills development	28
	Bullying prevention	30
	Academic enrichment programmes	31
	Dating violence prevention programmes	32
	Financial incentives for adolescents to attend school	34
	Peer mediation	35
	After-school and other structured leisure time activities	37
	Strategies for young people at higher risk of, or already involved in, violence	39
	Therapeutic approaches	39
	Vocational training	40
	Mentoring	42
	Gang and street-violence prevention programmes	43
	Community- and society-level programmes and policies	45
	Hotspots policing	45
	Community- and problem-orientated policing	48
	Reducing access to and the harmful use of alcohol	49
	Drug control programmes	51
	Reducing access to and misuse of firearms	53
	Spatial modifications and urban upgrading	54
	Poverty de-concentration	56
	Overview of evidence	58

CONTENTS

Chapter 4.		hat governments and civil society can do to implement youth olence prevention programmes	60
	1.	Raising awareness about prevention	62
		Awareness within the health sector	62
		Awareness among other sectors	62
		Public awareness	63
	2.	Developing partnerships across sectors	64
		Consulting with different sectors	64
	3.	Strengthening knowledge about the importance of data collection on fatal and non-fatal youth violence, and on risk and protective factors	65
		Sources of youth violence data	65
		Role of the ministry of health in data collection	65
		Putting violence and injury information systems in place	66
		Why surveys of youth violence are important	67
		Supplementing available information with research	67
		Compiling and disseminating data	67
	4.	Enhancing capacity to evaluate existing prevention programmes	67
		Monitoring of youth violence at the population level	67
		Outcome evaluation of specific youth violence prevention programmes	68
	5.	Developing a policy framework	69
		Development of a youth violence prevention plan of action for the health sector	69
		Multisectoral plans of action	69
		Legislative efforts	70
		Laws of particular relevance for youth violence prevention	70
	6.	Developing capacity for youth violence prevention	71
		Building human resource capacity	71
		Maintaining effective networks	71
Conclusion	1		72

Acknowledgements

This manual was written by Berit Kieselbach and Alexander Butchart of the World Health Organization (WHO) Violence Prevention Unit, Department for Management of Noncommunicable Diseases, Disability, Violence and Injury Prevention. Franziska Meinck helped with many of the reviews. Christopher Mikton, also of the WHO Department for Management of Noncommunicable Diseases, Disability, Violence and Injury Prevention, provided valuable inputs into conceptualizing and reviewing this document. Angela Burton was responsible for technical editing.

Deborah Fry, Gabrielle Inglis, Tali Kassidy and Richard Matzopoulos conducted reviews on several interventions. Noemi Pereda Beltrán and Judit Abad Gil contributed Spanish language reviews, and Lila Kazemian provided a French language review.

The document benefited greatly from the contributions of an external expert group that reviewed the scientific evidence for youth violence prevention. This group was chaired by Mark Bellis and Dinesh Sethi, and its members were Anna Alvazzi del Frate, Patrick Burton, Linda Dahlberg, Manuel Eisner, Deborah Fry, Johanne-Saskia Gay, Jan Ole Haagensen, Tulio Kahn, Anna Rau, Ekaterina Romanova, Margaret Shaw, Bettina Silbernagl, Gary Slutkin, Catherine Ward and Elizabeth Ward.

Valuable comments were received from the following peer reviewers: Margit Averdijk, Mark Bellis, Giovanna Campello, Linda Dahlberg, Johannes de Haan, Joseph Murray, Dinesh Sethi, Margaret Shaw and Catherine Ward.

The development and publication of this document has been made possible by the generous support of the Jacobs Foundation, the Deutsche Gesellschaft für Internationale Zusammenarbeit, and the United States Centers for Disease Control and Prevention.
