World Health
Organization

The World Health Organization was established in 1948 as a specialized agency of the United Nations serving as the directing and coordinating authority for international health matters and public health. One of WHO's constitutional functions is to provide objective and reliable information and advice in the field of human health, a responsibility that it fulfils in part through its extensive programme of publications. The Organization seeks through its publications to support national health strategies and address the most pressing public health concerns of populations around the world. To respond to the needs of Member States at all levels of development, WHO publishes practical manuals, handbooks and training material for specific categories of health workers; internationally applicable guidelines and standards; reviews and analyses of health policies, programmes and research; and state-of-the-art consensus reports that offer technical advice and recommendations for decision-makers. These books are closely tied to the Organization's priority activities, encompassing disease prevention and control, the development of equitable health systems based on primary health care, and health promotion for individuals and communities. Progress towards better health for all also demands the global dissemination and exchange of information that draws on the knowledge and experience of all WHO's Member countries and the collaboration of world leaders in public health and the biomedical sciences. To ensure the widest possible availability of authoritative information and guidance on health matters, WHO secures the broad international distribution of its publications and encourages their translation and adaptation. By helping to promote and protect health and prevent and control disease throughout the world, WHO's books contribute to achieving the Organization's principal objective – the attainment by all people of the highest possible level of health.

The WHO Technical Report Series makes available the findings of various international groups of experts that provide WHO with the latest scientific and technical advice on a broad range of medical and public health subjects. Members of such expert groups serve without remuneration in their personal capacities rather than as representatives of governments or other bodies; their views do not necessarily reflect the decisions or the stated policy of WHO. An annual subscription to this series, comprising about four to six such reports, costs CHF 150.00 / US\$ 180.00 (CHF 105.00/US\$ 126.00 in developing countries). For further information, please contact: WHO Press, World Health Organization, 20 avenue Appia, 1211 Geneva 27, Switzerland (tel. +41 22 791 3264; fax: +41 22 791 4857; email: bookorders@who.int; order online: <http://www.who.int/bookorders>).

Evaluation of certain veterinary drug residues in food

Seventy-eighth report of the
Joint FAO/WHO Expert Committee on
Food Additives

**World Health
Organization**

WHO Library Cataloguing-in-Publication Data:

Evaluation of certain veterinary drug residues in food: Seventy-eighth report of the Joint
FAO/WHO Expert Committee on Food Additives

(WHO technical report series ; no. 988)

1.Food contamination. 2.Drug residues - analysis. 3.Drug residues - toxicity.
4.Veterinary drugs - toxicity. 5.Veterinary drugs - pharmacology. 6.Risk assessment.
7.Maximum allowable concentrations - standards. 8.No-observed-adverse-effect level.
I.World Health Organization. II.Food and Agriculture Organization of the United Nations.
III.Joint FAO/WHO Expert Committee on Food Additives. IV.Series.

Contents

1. Introduction	1
1.1 Declarations of interests	2
1.2 Modification of the agenda	2
2. General considerations	3
2.1 Matters of interest arising from previous sessions of the Codex Committee on Residues of Veterinary Drugs in Foods (CCRVDF)	3
2.2 A risk-based decision-tree approach for the safety evaluation of residues of veterinary drugs	5
2.3 Dietary exposure to veterinary drug residues	7
2.4 Antimicrobial resistance: update on activities relevant to JECFA	14
2.5 Review of the need to update <i>Principles and methods for the risk assessment of chemicals in food</i> (EHC 240)	15
2.6 Feedback from JMPR on ongoing work on general criteria for interpretation of toxicological data	15
2.7 Extrapolation of MRLs to minor species	16
2.8 MRLs for veterinary drug residues in honey	25
2.9 Scope of MRLs established by JECFA relating to fish and fish species	31
2.10 JECFA analytical method validation requirements	31
2.11 Guidance for the evaluation of veterinary drug residues in food by JECFA	32
3. Comments on residues of specific veterinary drugs	33
3.1 Derquantel	33
3.2 Enamectin benzoate	38
3.3 Gentian violet	45
3.4 Ivermectin	54
3.5 Lasalocid sodium	56
3.6 Monepantel	68
3.7 Recombinant bovine somatotropins	70
3.8 Zilpaterol hydrochloride	78

4. Future work and recommendations	95
Acknowledgements	99
References	101
Annex 1 Reports and other documents resulting from previous meetings of the Joint FAO/WHO Expert Committee on Food Additives	103
Annex 2 Recommendations on compounds on the agenda and further information required	119

Seventy-eighth meeting of the Joint FAO/WHO Expert Committee on Food Additives

Geneva, 5–14 November 2013

Members

Professor A. Anadón, Department of Toxicology and Pharmacology, Faculty of Veterinary Medicine, Universidad Complutense de Madrid, Madrid, Spain
(*Joint Rapporteur*)

Dr S. Barlow, Toxicologist, Brighton, East Sussex, England, United Kingdom

Dr J.O. Boison, Centre for Veterinary Drug Residues, Canadian Food Inspection Agency, Saskatoon, Saskatchewan, Canada

Professor A.R. Boobis, Centre for Pharmacology & Therapeutics, Department of Experimental Medicine, Division of Medicine, Faculty of Medicine, Imperial College London, London, England, United Kingdom (*Chairman*)

Dr L.G. Friedlander, Residue Chemistry Team, Division of Human Food Safety, Center for Veterinary Medicine, Food and Drug Administration, Department of Health and Human Services, Rockville, MD, United States of America (USA) (*Joint Rapporteur*)

Professor S.H. Jeong, Department of Applied Biotoxicology, Hoseo University, Hoseo Toxicology Research Centre, Asan City, Chungnam, Republic of Korea

Professor J. Palermo-Neto, Department of Pathology, Faculty of Veterinary Medicine, University of São Paulo, São Paulo, Brazil

Professor Emeritus L. Ritter, University of Guelph, Guelph, Ontario, Canada

Dr P. Sanders, National Reference Laboratory for Veterinary Drug Residues and Antimicrobial Resistance, Agence nationale de sécurité sanitaire de l'alimentation, de l'environnement et du travail (ANSES), Fougères, France (*Vice-Chairman*)

Professor G.E. Swan, Faculty of Veterinary Science, University of Pretoria, Onderstepoort, South Africa

Secretariat

Ms A. Bruno, Joint FAO/WHO Food Standards Programme, Food and Agriculture Organization of the United Nations, Rome, Italy (*Codex Secretariat*)

Dr C.E. Cerniglia, Division of Microbiology, National Center for Toxicological Research, Food and Drug Administration, Department of Health and Human Services, Jefferson, AR, USA (*WHO Expert*)

Mr S.J. Crossley, Provision of Scientific Advice, Agriculture and Consumer Protection Department, Food and Agriculture Organization of the United Nations, Rome, Italy (*FAO Joint Secretary*)

- Dr H. Erdely, Residue Chemistry Team, Division of Human Food Safety, Center for Veterinary Medicine, Food and Drug Administration, Department of Health and Human Services, Rockville, MD, USA (*FAO Expert*)
- Dr V. Fattori, Food and Agriculture Organization of the United Nations, Rome, Italy (*FAO Secretariat*)
- Dr S. Ghimire, Veterinary Drugs Directorate, Health Canada, Ottawa, Ontario, Canada (*WHO Expert*)
- Dr N. Jarrett, European Medicines Agency, London, England, United Kingdom (*WHO Expert*)
- Dr K.M. Kang, Joint FAO/WHO Food Standards Programme, Food and Agriculture Organization of the United Nations, Rome, Italy (*Codex Secretariat*)
- Mr J. Kim, Risk Assessment and Risk Management, Department of Food Safety and Zoonoses, World Health Organization, Geneva, Switzerland (*WHO Secretariat*)
- Professor B. Le Bizec, Laboratoire d'Étude des Résidus et des contaminants dans les aliments (LABERCA), École Nationale Vétérinaire, Agroalimentaire et de l'Alimentation Nantes Atlantique (ONIRIS), Nantes, France (*FAO Expert*)
- Dr J. MacNeil, Consultant, Food and Agriculture Organization of the United Nations, Rome, Italy (*FAO Secretariat*)
- Dr K. Ogawa, Division of Pathology, Biological Safety Research Center, National Institute of Health Sciences, Tokyo, Japan (*WHO Expert*)
- Professor F. Ramos, Bromatology, Pharmacognosy and Analytical Sciences Group, Pharmacy Faculty, Coimbra University, Coimbra, Portugal (*FAO Expert*)
- Mr J. Reeve, Science and Risk Assessment Directorate, Standards Branch, Ministry for Primary Industries, Wellington, New Zealand (*WHO Expert*)
- Dr R. Reuss, Food Standards Australia New Zealand, Barton, ACT, Australia (*FAO Expert*)
- Ms M. Sheffer, Orleans, Ontario, Canada (*WHO Editor*)
- Dr A. Tritscher, Risk Assessment and Management, Department of Food Safety and Zoonoses, World Health Organization, Geneva, Switzerland (*WHO Joint Secretary*)
- Dr S. Vaughn, Chair, Codex Committee on Residues of Veterinary Drugs in
