PROJECT TEAM AND PARTNERS

Atlas is a project of the World Health Organization (WHO) Headquarters, Geneva and is supervised and coordinated by Shekhar Saxena. Mental health Atlas 2014 is the latest in a series of publications that first appeared in 2001, with subsequent updates published in 2005 and 2011.

In WHO Member States, key project collaborators were the mental health focal points in Ministries of Health, who provided information and responses to the Atlas survey questionnaire and to follow-up queries for clarification. A full list of collaborators is provided as Appendix A of this report.

Key collaborators from WHO regional offices, who contributed to the planning and collation of data and liaised with focal points in Member States, were: Sebastiana Da Gama Nkomo (WHO Regional Office for Africa); Jorge Rodriguez, Devora Kestel (WHO Regional Office for the Americas); Khalid Saeed (WHO Regional Office for the Eastern Mediterranean); Matthijs Muijen and Elena Shevkun (WHO Regional Office for Europe); Nazneen Anwar (WHO Regional Office for South East Asia); Xiangdong Wang, Yutarō Setoya and Marie Villanueva (WHO Regional Office for the Western Pacific).

At WHO Headquarters, a team comprising Dan Chisholm, Fahmy Hanna and Grazia Motturi provided the central technical leadership and administrative support to the project, including development of the questionnaire and an associated completion guide, management of the online data collection system, validation of information and responses, liaison with Member States and WHO regional and country offices, as well as analysis of data and preparation of this report. They received inputs and advice from the following colleagues: Natalie Drew, Tarun Dua, Alexandra Fleischmann, Michelle Funk, Vladimir Poznyak, Chiara Servili, Mark van Ommeren and Taghi Yasamy. The contribution of Antonio Lora, Peter Ventevogel, Julian Eaton, Yulia Bakonina, Melissa Harper, Elise Gehring, Pooja Pradeep, Shelly Chopra and Alessandra Trianni to particular aspects of data collection, processing, or analysis are also acknowledged.

The development of the Atlas 2014 questionnaire was overseen and approved by an expert group, consisting of Florence Baingana, Harry Minas, Antonio Lora, Crick Lund, Pratap Sharan and Graham Thornicroft. The proposed set of selected indicators were subsequently field-tested in Chile, South Africa, Vietnam, and for this stage thanks go to Sifiso Phakathi, Melvyn Freeman, Alfredo Pemjean, Harry Minas and Ritsuko Kakuma.

The contribution of each of these team members and partners, which has been crucial to the success of this project, is very warmly acknowledged.
