Publications of the World Health Organization are available on the WHO website (www.who.int) or can be purchased from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: bookorders@who.int). Requests for permission to reproduce or translate WHO publications – whether for sale or for non-commercial distribution – should be addressed to WHO Press through the WHO website (www.who.int/about/licensing/copyright_form/en/index.html).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

The named authors alone are responsible for the views expressed in this publication.

Contents

Foreword vii
Acknowledgements viii
Abbreviations ix
1. Objectives 1
2. Burden of medication errors on public health 2
2.1 Patient safety incidents 2
2.2 Medication incidents 2
2.3 Examples of medication error incidents 3
2.3.1 Prescribing error 3
2.3.2 Dispensing error 3
2.3.3 Medicine preparation error 5
2.3.4 Administration error 6
2.3.5 Monitoring error 6
2.4 Root causes of medication errors 6
2.5 Medication error reporting and learning systems 7
3. Organizations involved in medication error prevention 9
3.1 International level 9
3.1.1 World Health Organization 9
3.1.2 The World Alliance for Patient Safety 10
3.1.3 International Medication Safety Network 11
3.2 National level 12
3.2.1 Patient safety organizations 12
3.2.2 National pharmacovigilance centres 12
3.2.3 Poison control centres 14
3.3 Local level 15
3.3.1 Hospitals 15
3.3.2 Consumer and patient organizations 15
4. Terminology and definitions 19
4.1 Harmonization of terminology and definitions 21

5. Classification **23**
5.1 The conceptual framework for ICPS 23
5.2 ICPS drafting principles 23
5.3 The ICPS data structure 24
5.3.1 Medication incidents subcategories of the ICPS 26
5.4 Medicines and IV fluids involved 26
5.5 ICPS terms and pharmacovigilance classification systems 26
6. Identifying and reporting medication errors **28**
6.1 Identifying MEs through individual case safety reports 28
6.1.1 The yellow card and other individual case safety reporting forms 28
6.1.2 The P method 31
6.2 Detecting medication errors in practice 34
6.2.1 Incident reports 34
6.2.2 Patient chart review 34
6.2.3 Direct observations 34
6.2.4 Interventions by pharmacist 35
6.2.5 Adverse drug event trigger tools 35
6.2.6 Comparison of methods 36
6.3 Reporting medication errors 36
7. Analysing medication error incident reports **40**
7.1 Summarizing and prioritizing medication error reports (quantitative analysis) 40
7.1.1 Analysis by patient outcome 41
7.1.2 Analysis by medication process 41
7.1.3 Analysis by medication problem 41
7.1.4 Analysis by therapeutic group or medicine 41
7.2 Root cause analysis (qualitative analysis) 42
7.2.1 Human error and human factors and systems 46
7.2.2 System barriers to prevent medication errors 47
7.2.3 Identifying contributory factors to medication error incidents 48
7.2.4 Identifying root causes 50
7.2.5 Example of medication error report analysis form 51
7.2.6 Full root cause analysis 51
7.3 Summary 51

8. Medication error prevention strategies **57**
8.1 Country strategy for managing MEs 57
8.1.1 Basic steps to develop a national organization dedicated to safe medication practice 57
8.1.2 Practical methods to minimize harm from medication errors 58
8.1.3 Preventing medication errors 58
8.1.4 Making them visible 58
8.1.5 Mitigating their effect when they occur 59
8.1.6 Raising awareness, education and training 59
8.2 Prevention strategies for medicine regulators and industry 61
8.2.1 The design of labelling and packaging of medicine products 61
8.2.2 Medicine names 65
8.2.3 Technical information on a medicine product 66
8.2.4 Formulation and presentation of medicine products 69
8.2.5 Risk management plans 70
8.3 Prevention strategies for reducing incidents with medical devices 72
8.3.1 Examples of strategies for the prevention of medical devices medication error 73
8.4 Prevention strategies for individual practitioners 75
8.4.1 Examples of strategies for the prevention of medication errors involving actions for health-care practitioners 76
8.5 Prevention strategies for health-care provider organizations 77
8.5.1 Examples of medication error prevention strategies for health-care provider organizations 78
8.6 Prevention strategies for patients and carers 78
8.6.1 Examples of strategies for prevention of medication errors for patients and carers 79
8.7 Summary 80
9. Collaborations **86**
9.1 First level of partnership 86
9.2 Second level of partnership 87
9.3 Third level of partnership 87
9.4 Fourth level of partnership 88
9.5 Collaboration between the four levels of partnership 88
Annex 1: Glossary **89**
