All rights reserved. Publications of the World Health Organization are available on the WHO website (www. who.int) or can be purchased from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: bookorders@who.int).

Requests for permission to reproduce or translate WHO publications -whether for sale or for non-commercial distribution- should be addressed to WHO Press through the WHO website (www.who.int/about/licensing/copyright_form/en/index.html).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

Compendium of innovative health technologies for low-resource settings

Assistive devices eHealth solutions Medical devices

2011-2013

Acknowledgements

The coordination of the Compendium project and the evaluation of the submissions were managed by the Medical Devices team, Policy, Access and Use unit of the Essential Medicines and Health Products department under the direction of Adriana Velazquez-Berumen, coordinator, and Jennifer Barragan, technical officer, the Disability and Rehabilitation team of the Violence and Injury Prevention and Disability department under the direction of Chapal Khasnabis, and the eHealth unit of the Knowledge Management and Sharing department under the direction of Diana Zandi and Misha Kay.

For the evaluation of submitted medical devices, assistive devices and eHealth solutions we thank:

- Aurora Llanos Méndez from Agencia de Evaluación de Technologías Sanitarias de Andalucía (AETSA), Seville, Spain;
- Antonio Migliore and Maria Rosaria Perrini from the Agenzia Nazionale per i servizi sanitari regionali (Agenas), Rome, Italy;
- Gaizka Benguria-Arrate, Iñaki Gutiérrez-Ibarluzea, and Nora Ibargoyen-Roteta, from the Basque Office for Health Technology Assessment (Osteba), Vitoria-Gasteiz, Spain;
- Debra Kriger and Andra Morrison from the Canadian Agency for Drugs and Technologies in Health (CADTH);
- Alexandre Barna, Martin Blachier, Emmanuel Charpentier, Bjorn Fahlgren, and Marc Vanicatte from the Committee for Evaluation and Diffusion of Innovative Technologies (CEDIT), Paris, France;
- Kees Groeneveld and Cees A. Postema from the Health Council of the Netherlands (GR), The Hague, The Netherlands;
- Brendon Kearney and Linda Mundy from the Health Policy Advisory Committee on Technology (HPACT), Queensland, Australia;
- Setefilla Luengo-Matos from the Agencia de Evaluacion de Tecnologias Sanitarias (AETS) Institute of Health Carlos III, Madrid, Spain;
- Orna Tal from the Israeli Center for Emerging Technologies (ICET), Israel;
- Roberta Joppi and Chiara Poggiani from the Italian Horizon Scanning Project (IHSP);
- Kristina Routh, Biruntha Senthinathan, and Sue Simpson from the National Institute for Health Research Horizon Scanning Centre (NIHR HSC), University of Birmingham, United Kingdom;
- Marianne Klemp and Inger Natvig Norderhaug from the Norwegian Knowledge Centre for the Health Services (NOKC), Oslo, Norway;
- Dr Johan Borg from Lund University, Sweden;
- Kevin Clausen from the Nova Southeastern University, USA;
- Antoine Geissbuhler from the University Hospital Geneva, Switzerland;
- Kendall Ho from the University of British Columbia, Canada;
- Tove Sorensen from the Norwegian Centre for Telemedicine, Norway.

Special thanks to Heike Hufnagel and Amir Sabet Sarvestani who managed the call for innovative health technologies and the submissions. We are additionally grateful to Keiko Fukuta for her support in producing the Compendium and Belén Valladares Vaquero for her support throughout the project.

For their financial support of the 2013 edition we thank the Japan Ministry of Health, Labour and Welfare, the Netherlands Ministry of Health, Welfare and Sport, and the US Agency for International Development.

Graphic design and layout - Jillian Reichenbach Ott (Genève Design).
