Requests for permission to reproduce or translate WHO publications – whether for sale or for non-commercial distribution – should be addressed to WHO Press at the above address (fax: +41 22 791 4806; e-mail: permissions@who.int).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either express or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

The recommendations of the World Health Organization Pesticide Evaluation Scheme (WHOPES) are intended to facilitate the registration and use of the evaluated products by the Member States of the World Health Organization. A recommendation or interim recommendation concerning a specific product means that the World Health Organization has evaluated that product in laboratory and field trials and that the product was found to meet the criteria and requirements of the World Health Organization.

For long-lasting insecticidal mosquito nets (LNs), the World Health Organization may – pending the completion of long-term studies that may be required to fully evaluate such LNs and subject to certain conditions being met – issue an interim recommendation for the use of such LNs for prevention and control of malaria.

A recommendation or interim recommendation does not imply any approval by the World Health Organization of the product in question (which is the sole prerogative of national authorities).

Such a recommendation or interim recommendation does not, furthermore, constitute any assurance by the World Health Organization that the manufacture, distribution, sale and/or use of the product in question is in accordance with the national laws and regulations of any country, including, but not limited to, patent law.

The recommendations and interim recommendations included in this publication may not be used by manufacturers, suppliers or any other parties for commercial or promotional purposes. Manufacturers are, however, permitted to discreetly mention the outcome of the WHOPES evaluation in non-commercial material which is addressed to national public health professionals and/or pesticide registration authorities only (that is, through a statement that the product in question was found to have been manufactured in accordance with the applicable specification recommended by the World Health Organization).

A recommendation or interim recommendation does not constitute an endorsement, or warranty of the fitness, by the World Health Organization of any product for a particular purpose, nor does such a recommendation or interim recommendation constitute the expression of any opinion whatsoever about the product's suitability for the control of any given pest, or for use in any particular geographical area.

CONTENTS

	Page
1. INTRODUCTION	1
2. REVIEW OF PIRIMIPHOS-METHYL 300 CS	3
2.1 Safety assessment	4
2.2 Efficacy – background and supporting Documents	5
2.2.1 Determination of the diagnostic dosage for pirimiphos-methyl	5
2.2.2 Small-scale field trials	6
2.3 Efficacy – WHOPES supervised trials	8
2.3.1 Small-scale field trials	8
2.3.2 Large-scale field trials	12
2.4 Conclusions and recommendations	16
3. REVIEW OF CHLORFENAPYR 240 SC	33
3.1 Safety assessment	33
3.2 Efficacy – background and supporting Documents	34
3.2.1 Laboratory studies	34
3.2.2 Experimental hut studies	37
3.3 Efficacy – WHOPES supervised trials	40
3.3.1 Laboratory study	40
3.3.2 Small-scale field trials	42
3.3.3 Large-scale field trials	46
3.4 Conclusions and recommendations	51
4. REVIEW OF DELTAMETHRIN 62.5 SC-PE	64
4.1 Safety assessment	65
4.2 Efficacy – background and supporting Documents	66
4.2.1 Small-scale trials	66
4.3 Efficacy – WHOPES supervised trials	69
4.3.1 Small-scale trial	69
4.3.2 Large-scale trials	71

4.4	Conclusions and recommendations	75
5.	REVIEW OF DURANET LN	84
5.1	Efficacy – background and supporting Documents	84
5.2	Efficacy – WHOPES supervised trials	86
5.3	Conclusions and recommendations	93
6.	REVIEW OF NETPROTECT LN	99
6.1	Efficacy – background and supporting Documents	99
6.2	Efficacy – WHOPES supervised trials	104
6.3	Conclusions and recommendations	113
7.	REVIEW OF YAHE LN	122
7.1	Efficacy – WHOPES supervised trials	123
7.2	Conclusions and recommendations	130
8.	REVIEW OF SPINOSAD 83.3 MONOLAYER DT	138
8.1	Efficacy – background and supporting Documents	139
8.2	Efficacy – WHOPES supervised trials	140
8.3	Conclusions and recommendations	145
9.	REVIEW OF SPINOSAD 25 EXTENDED RELEASE GR	152
9.1	Efficacy – background and supporting Documents	152
