<b>Contributors</b>	<b>xi</b>
<b>1. Understanding spinal cord injury</b>	<b>1</b>
Aim and scope of this report	4
What is spinal cord injury?	4
The medical dimension	4
The historical dimension of spinal cord injury	6
Spinal cord injury as a challenge to health systems and to society	7
Tools for understanding the spinal cord injury experience	7
Overview	9
<b>2. A global picture of spinal cord injury</b>	<b>11</b>
What do we know about spinal cord injury?	13
Prevalence of spinal cord injury	15
Incidence of spinal cord injury	17
Traumatic spinal cord injury	17
Non-traumatic spinal cord injury	22
Mortality and life expectancy	22
Costs of spinal cord injury	26
Data and evidence for spinal cord injury	28
Data sources	28
Information standards	30
Data issues and concerns	31
Definitions and standardization of data	31
Underreporting	31
Other issues	31
Conclusion and recommendations	32
<b>3. Prevention of spinal cord injury</b>	<b>43</b>
Causes of traumatic spinal cord injury	45
Road traffic crashes	46
Falls	49
Violence	49
Causes of non-traumatic spinal cord injury	51
Activities, places and circumstances associated with spinal cord injuries	52

Occupational injuries	52
Sport and recreation-related injuries	55
Natural disasters	58
<b>Conclusion and recommendations</b>	<b>59</b>
<b>4. Health care and rehabilitation needs</b>	<b>65</b>
<b>Understanding the health impact of spinal cord injury</b>	<b>68</b>
Potential complications	69
<b>Health care needs</b>	<b>72</b>
Pre-hospital and acute care	72
Post-acute medical care and rehabilitation	73
Assistive technology	78
Health maintenance	81
<b>Conclusion and recommendations</b>	<b>83</b>
<b>5. Health systems strengthening</b>	<b>93</b>
<b>Unmet needs</b>	<b>95</b>
Health care	95
Rehabilitation	96
<b>Health systems strengthening</b>	<b>97</b>
Leadership and governance	97
Service delivery	98
Human resources	103
Health technologies	105
Health information systems	107
Financing and affordability	109
Research	110
<b>Conclusion and recommendations</b>	<b>112</b>
<b>6. Attitudes, relationships and adjustment</b>	<b>121</b>
<b>Attitudes</b>	<b>124</b>
Wider community attitudes	124
Attitudes of health professionals	125
<b>Assistance and support</b>	<b>126</b>
Informal care	126
Formal care	128
Personal assistants	128
<b>Family relationships</b>	<b>129</b>
Partners	130
Parent and sibling relationships	131
<b>Adjustment to spinal cord injury</b>	<b>132</b>
<b>Conclusion and recommendations</b>	<b>137</b>

<b>7. Spinal cord injury and enabling environments</b>	<b>147</b>
<b>Barriers for people with spinal cord injury</b>	<b>149</b>
Housing	150
Transportation	150
Public buildings	151
<b>Addressing the barriers</b>	<b>151</b>
Cross-cutting measures	151
Housing	153
Transportation	156
Public buildings	157
<b>Conclusion and recommendations</b>	<b>160</b>
<b>8. Education and employment</b>	<b>167</b>
<b>Spinal cord injury and participation in education</b>	<b>170</b>
<b>Addressing barriers to education</b>	<b>171</b>
Legislation and policy	171
Support for children with spina bifida	172
Returning to school after injury	172
Transitions from school	173
Reducing physical barriers	174
Reasonable accommodations	174
Funding education and accommodations	175
Social support	175
Addressing attitudinal barriers	176
<b>Spinal cord injury and participation in employment</b>	<b>177</b>
<b>Addressing barriers to employment</b>	<b>178</b>
Vocational training and supported employment	179
Overcoming misconceptions about spinal cord injury	182
Ensuring workplace accommodations	182
Self-employment	184
Social protection	185
<b>Conclusion and recommendations</b>	<b>186</b>
<b>9. The way forward: recommendations</b>	<b>195</b>
<b>Key findings</b>	<b>197</b>
1. Spinal cord injury is a significant public health issue	197
2. Personal and social impacts of spinal cord injury are considerable	198
3. Barriers to services and environments restrict participation and undermine quality of life	199
4. Spinal cord injury is preventable	199
5. Spinal cord injury is survivable	200
6. Spinal cord injury need not prevent good health and social inclusion	201
<b>Recommendations</b>	<b>201</b>

1. Improve health sector response to SCI	201
2. Empower people with SCI and their families	201
3. Challenge negative attitudes to people with SCI	202
4. Ensure that buildings, transport and information are accessible	202
5. Support employment and self-employment	202
6. Promote appropriate research and data collection	202
Next steps	202
Conclusion	204
<b>Technical appendix A</b>	<b>207</b>
<b>Technical appendix B</b>	<b>211</b>
<b>Technical appendix C</b>	<b>213</b>
<b>Technical appendix D</b>	<b>215</b>
<b>Glossary</b>	<b>217</b>
<b>Index</b>	<b>221</b>
