All rights reserved. Publications of the World Health Organization are available on the WHO web site (www.who.int) or can be purchased from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: bookorders@who.int). Requests for permission to reproduce or translate WHO publications – whether for sale or for non-commercial distribution – should be addressed to WHO Press through the WHO web site (www.who.int/about/licensing/copyright_form/en/index.html).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

This publication contains the collective views of an international group of experts and does not necessarily represent the decisions or the policies of the World Health Organization.

Please consult the WHO Global Malaria Programme web site for the most up-to-date version of all documents (www.who.int/malaria).

Contents

	Preface	vii
	Contributors	ix
	Acknowledgements	xi
	Abbreviations	xii
	Glossary	xiv
Chapter 1	Introduction	1
	Humanitarian emergencies	1
	Malaria	3
	Importance of malaria in humanitarian emergencies	7
	References	9
	Finding out more	9
Chapter 2	Coordination	10
	Coordination mechanisms	10
	Advocacy and resource mobilization	11
	Priorities and constraints	13
	Finding out more	13
Chapter 3	Assessment and operational planning	15
	Assessment and information needs	15
	Data collection	17
	Operational planning	23
	Finding out more	27
Chapter 4	Surveillance	28
	Health surveillance in humanitarian emergencies	28
	Planning malaria surveillance during humanitarian emergencies	30
	Monitoring and evaluation	39
	References	42
	Finding out more	42

MALARIA CONTROL IN HUMANITARIAN EMERGENCIES

Chapter 5	Outbreaks	43
	Outbreak preparedness	43
	Outbreak investigation	45
	Outbreak response and follow-up	47
	References	52
	Finding out more	52
Chapter 6	Case management	53
	Initial assessment	53
	Confirmatory malaria diagnosis	55
	Malaria treatment	61
	Managing malaria in special groups	73
	References	78
	Finding out more	79
Chapter 7	Prevention	81
	Malaria prevention in humanitarian emergencies	81
	Selecting and implementing prevention methods	101
	Operational aspects of mosquito biology and behaviour	109
	References	116
	Finding out more	118
Chapter 8	Community participation	119
	Principles for community participation	119
	Involving communities	122
	Health communication in malaria control	134
	References	137
	Finding out more	138
Chapter 9	Operational research and associated routine monitoring	139
	Importance of operational research in humanitarian emergencies	139
	Operational research areas	142
	Operational research planning	151
	References	160
	Finding out more	161
	Annexes	163
I	Sources and methods for collecting population data	165
II	Methods for collecting retrospective mortality data	170
III	Overview of methods for conducting rapid assessments of malaria transmission	171
IV	Example malaria rapid prevalence data collection tool	179

CONTENTS

V	Checklist for effective response to malaria epidemics	180
VI	Antimalarial treatment regimes	184
VII	Assessment and treatment of danger signs	200
VIII	Assessment of level of consciousness	202
IX	Rapid qualitative assessment of social, economic, and cultural aspects of malaria	204
X	Tube and cone assays for insecticide testing of adult mosquitoes	210
XI	Example malaria outbreak form	214

Figures and tables

Figures

Figure 1.1	Malaria, countries or areas at risk of transmission, 2011	4
Figure 3.1	Assessing malaria risk	18
Figure 4.1	Example: mortality surveillance reporting form	33
Figure 4.2	Example: cause-specific mortality reporting form	34
Figure 4.3	Example: cause-specific morbidity reporting form	35
Figure 5.1	Epidemic malaria in Northwest Frontier Province Pakistan 2003	46
Figure 7.1	Example approaches to hanging LLINs indoors and outdoors	90
Figure 7.2	Example compression sprayer	92
Figure 7.3	Life-cycles of anopheline and culicine mosquitoes	111

Boxes

Box 4.1	Surveillance challenges after the Haiti earthquake, 2010	29
Box 4.2	Budgeting for surveillance	31
Box 4.3	Classification of malaria treatment responses	42
Box 5.1	Pakistan malaria outbreak	46
Box 5.2	Outbreak response using mobile clinics in Burundi, 2009	49
Box 7.1	Evidence for ITPS prevention of malaria in an emergency setting in Sierra Leone	97
Box 8.1	Importance of communicating and listening to community concerns	125
Box 8.2	Importance of understanding local context	125
Box 8.3	Involving traditional healers in case management in Cambodia	131
Box 8.4	Caregivers as peer role models	132
Box 8.5	Training community health educators in malaria prevention in refugee camps on the Myanmar-Thailand border	132
Box 8.6	Training community health workers	133
Box 9.1	Case-control study in Afghanistan	156

MALARIA CONTROL IN HUMANITARIAN EMERGENCIES

Tables

Table 1.1	Phases of humanitarian emergencies	2
Table 1.2	Population displacement and risk of malaria in resettlement areas	8
Table 2.1	Constraints in humanitarian emergencies	14
Table 4.1	Useful indicators for malaria surveillance	37
Table 4.2	Standardized malaria case definitions	38
Table 6.1	Groups at high risk of severe malaria and mortality in all transmission areas	54
Table 6.2	IMCI guidelines for the management of febrile children	56
Table 6.3	Clinical features of uncomplicated and severe malaria	57
Table 6.4	Comparison of microscopy and RDTs	58
Table 6.5	Antigen targets of rapid diagnostic tests	60
Table 6.6	Supportive treatment for patients with severe malaria	66
Table 6.7	Managing complications of severe malaria	68
Table 6.8	IPTp in areas of high malaria endemicity	75
Table 7.1	Factors that may affect prevention approaches in humanitarian emergencies	82
Table 7.2	WHO recommended LLINs	86
Table 7.3	LLIN distribution by phase of emergency and level of transmission	88
Table 7.4	Household aspects of indoor residual spraying	93
Table 7.5	WHO-recommended insecticides for IRS against malaria vectors	94
Table 7.6	Recommended insecticides for larval control of malaria vectors in humanitarian emergencies	101
Table 7.7	Geographical issues to consider in selecting prevention activities	103
Table 7.8	Factors for choosing malaria prevention interventions	104
Table 7.9	Information to guide planning of malaria prevention activities	108
Table 7.10	Three ways to distinguish anopheline from culicine mosquitoes	109
Table 7.11	Important malaria vectors in Africa	112
Table 7.12	Important malaria vectors in South-east Asia	113
