Organization

# **GUIDELINES FOR EFFICACY TESTING OF SPATIAL REPELLENTS**

**World Health  
Organization**

**CONTROL OF NEGLECTED TROPICAL DISEASES  
WHO PESTICIDE EVALUATION SCHEME**

WHO Library Cataloguing-in-Publication Data

Guidelines for efficacy testing of spatial repellents.

1. Insect repellents – standards. 2. Insect vectors. 3. Insecticides. 4. Mosquito control – methods. 5. Guideline. I. World Health Organization. II. WHO Pesticide Evaluation Scheme.

ISBN 978 92 4 150502 4

Publications of the World Health Organization are available on the WHO web site ([www.who.int](http://www.who.int)) or can be purchased from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: [bookorders@who.int](mailto:bookorders@who.int)).

Requests for permission to reproduce or translate WHO publications –whether for sale or for non-commercial distribution– should be addressed to WHO Press through the WHO web site ([www.who.int/about/licensing/copyright\\_form/en/index.html](http://www.who.int/about/licensing/copyright_form/en/index.html)).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use..

# CONTENTS

	Page
<b>Acknowledgements</b>	<b>v</b>
<b>1. Introduction</b>	<b>1</b>
<b>2. Laboratory studies</b>	<b>3</b>
2.1 Spatial repellency of active ingredients	6
2.1.1 Movement away from a chemical Stimulus	6
2.1.2 Host attraction–inhibition	10
2.2 Spatial repellency of active ingredients against insecticide-resistant strains	14
2.3 Protective efficacy of formulated products	14
<b>3. Semi-field trials of formulated products</b>	<b>18</b>
3.1 Study design	19
3.2 Indoor effective dosage and duration of protective efficacy	22
3.3 Outdoor effective dosage and duration of protective efficacy	24
<b>4. Field trials of formulated products</b>	<b>26</b>
<b>5. Ethical considerations</b>	<b>28</b>
5.1 Informed consent	28
5.2 Human landing catch in semi-field and field testing	28
<b>Annex 1. Definition of knock-down and mortality         of adult mosquitoes</b>	<b>30</b>
<b>Annex 2. Spatial repellency assay specifications</b>	<b>32</b>
<b>Annex 3. Y-tube olfactometer specifications</b>	<b>' 6</b>
<b>Annex 4. Latin square randomization tables</b>	<b>40</b>
<b>Annex 5. Example of informed consent form</b>	<b>41</b>

## **ACKNOWLEDGEMENTS**

The first draft of these guidelines was prepared by a drafting committee appointed by the World Health Organization (WHO) and composed of Dr Nicole L. Achee, Uniformed Services University of the Health Sciences, Bethesda, Maryland, USA; Dr John P. Grieco, Uniformed Services University of the Health Sciences, Bethesda, Maryland, USA; Dr Ulrich Bernier, Mosquito and Fly Research Unit, United States Department of Agriculture, Gainesville, Florida, USA; and Dr Sarah Moore, London School of Hygiene and Tropical Medicine, London, United Kingdom. The draft was subsequently peer reviewed by individuals and institutions known for their expertise in the subject.

The outcome of the external peer review was discussed at a consultation of the WHO Pesticide Evaluation Scheme (WHOPES) held at WHO headquarters in Geneva, Switzerland, on 22–26 October 2012. Representatives of the pesticide industry were invited to attend the first 3 days of the meeting to exchange information and views. Their comments were reviewed by WHO-appointed experts and the Secretariat, who finalized the guidelines by consensus. The WHO-appointed experts were Dr Nicole L. Achee, Uniformed Services University of the Health Sciences, Bethesda, Maryland, USA; Dr Ulrich Bernier, Mosquito and Fly Research Unit, United States Department of Agriculture, Gainesville, Florida, USA; Dr Fabrice Chandre, Institut de Recherche pour le Développement, Montpellier, France; Dr Marc Coosemans, Institute of Tropical Medicine, Antwerp, Belgium; Dr John Grieco, Uniformed Services University of the Health Sciences, Bethesda, Maryland, USA; Dr Sarah Moore, London School of Hygiene and Tropical Medicine, London, United Kingdom; and Dr Hassan Vatandoost, School of Public Health, Teheran University of Medical Sciences, Teheran, Islamic Republic of Iran.

The WHO Department of Control of Neglected Tropical Diseases acknowledges all the individuals and institutions listed above for their important contributions to this work. The financial support provided by the Bill & Melinda Gates Foundation is gratefully appreciated.

The Department also thanks the following individuals for providing visual material for the document: Sarah Moore (cover); Nathan Newlon, Mosquito and Fly Research Unit,

United States Department of Agriculture, Gainesville, Florida, USA (Figure 3); Cecile Bremont, London School of Hygiene and Tropical Medicine, UK (Figure 4); Sheila Ogoma, Ifakara Health Institute, Ifakara, United Republic of Tanzania (Figure 5); Jason Moore, Bagamoyo Research and Training Centre, Bagamoyo, United Republic of Tanzania (Figure 6); and Ulrich Bernier (Annex 3, Figures A.3.1–A.3.3).

The Department welcomes feedback on the guidelines and suggestions for improvement from national programmes, research institutions and industry.
