Requests for permission to reproduce or translate WHO publications – whether for sale or for noncommercial distribution – should be addressed to WHO Press through the WHO web site (http://www.who.int/about/licensing/copyright_form/en/index.html).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

WHO. *Guideline: Potassium intake for adults and children*.
Geneva, World Health Organization (WHO), 2012.

¹ This publication is a World Health Organization (WHO) guideline. A WHO guideline is any document, whatever its title, containing WHO recommendations about health interventions, whether they be clinical, public health or policy interventions. A recommendation provides information about what policy-makers, health-care providers or patients should do. It implies a choice between different interventions that have an impact on health and that have ramifications for the use of resources. All publications containing WHO recommendations are approved by the WHO Guidelines Review Committee.

Acknowledgements

Technical support

This guideline was coordinated by Dr Nancy Aburto under the supervision of Dr Chizuru Nishida. The World Health Organization (WHO) gratefully acknowledges the technical input and expert advice provided by the members of the WHO Nutrition Guidance Expert Advisory Group Subgroup on Diet and Health, and by the external experts and resource persons involved in the development of this guideline.

Thanks are due to the members of the WHO Steering Committee for Nutrition Guidelines Development, and the staff of the WHO Guidelines Review Committee Secretariat for their support and guidance throughout the process. We also express our deep appreciation of Mr Issa Matta from the WHO Office of the Legal Counsel for his support and valuable guidance in the management of the conflicts of interest procedures. Special acknowledgement is made to Ms Emma Kennedy from the Nutrition Policy and Scientific Advice Unit, Department of Nutrition for Health and Development, for providing administrative and logistic support. Special thanks are given also to Hialy Guterrez, Sara Hanson and Anna Ziolkovska for their work on data collection and extraction for the systematic reviews that informed this guideline.

Acknowledgement is also made to Dr Hilary Cadman from Cadman Editing Services in Australia for technical editing of this guideline and Mr Alberto March from Grafmac Inc in USA for the cover design and layout.

Financial support

WHO expresses special appreciation to the Ministry of Health, Labour and Welfare of the Government of Japan, the Korea Food and Drug Administration, the Korea Health Industry Development Institute, and the International Kidney Evaluation Association Japan for providing financial support for this work.
