ACKNOWLEDGEMENTS.....	VI
ACRONYMS AND ABBREVIATIONS.....	VIII
1. INTRODUCTION	1
2. PURPOSE.....	1
3. BACKGROUND	2
3.1 Probabilistic vs deterministic risk assessment models.....	2
3.2 Essential elements of a human health risk assessment model	3
4. THE HUMAN HEALTH RISK ASSESSMENT MODEL.....	4
4.1 Hazard assessment (hazard identification and hazard characterization)	4
4.1.1 Sources of data	4
4.1.2 Types of health hazard data.....	5
4.1.3 Range of toxicity tests normally required for pesticide approval	7
4.1.4 Evaluation of the toxicity information	8
4.1.5 Insecticides not recommended for use in larviciding	8
4.1.6 Other special considerations in hazard assessment.....	9
4.1.7 Dose-response assessment and setting of tolerable exposure levels	9
4.2 Human exposure assessment.....	14
4.2.1 General parameters for exposure assessment	15
4.2.2 Algorithms used to estimate exposure and absorbed dose caused by larviciding	19
4.2.3 Total exposure assessment.....	23
4.2.4 Uncertainties in exposure-determining factors and risk calculations	23
4.3 Risk characterization	24
5. THE ENVIRONMENTAL RISK ASSESSMENT MODEL	24
5.1 Environmental exposure assessment	26
5.1.1 Air	26
5.1.2 Soil	29
5.1.3 Surface water and aquatic sediment	32
5.2 Effects.....	35
5.2.1 Aquatic organisms.....	35
5.2.2 Soil organisms and soil function	39
5.2.3 Non-target terrestrial arthropods including honeybees.....	41
5.2.4 Terrestrial vertebrates	41
5.2.5 Higher terrestrial plants	43
6. CONCLUSIONS	43
7. SUMMARY OF THE HUMAN HEALTH RISK ASSESSMENT MODEL AND A WORKED EXAMPLE.....	44
8. SUMMARY OF THE ENVIRONMENTAL RISK ASSESSMENT MODEL AND A WORKED EXAMPLE.....	50
REFERENCES.....	53

The first draft of these generic models was prepared by a drafting committee appointed by the World Health Organization (WHO) and composed of Dr M. Mäkinen, Finnish Institute of Occupational Health, Kuopio, Finland; Dr T. Santonen, Finnish Institute of Occupational Health, Helsinki, Finland; Dr A. Aitio, private consultant, Helsinki, Finland; Dr S. Dobson OBE, Birchtree Consultants Ltd., Peterborough, UK; and Dr M. Zaim, WHO Pesticide Evaluation Scheme (WHOPES), Geneva, Switzerland. None of the drafting committee members declared an interest in the subject matter of these guidelines.

The first draft of the guidelines was peer reviewed by individuals and institutions known for their expertise in the subject. The peer review group comprised Dr M. Baril, Institut de recherche Robert-Sauvé en santé et en sécurité au travail (IRSST), Montreal, Canada; Dr N. Besbelli, United Nations Environment Programme (UNEP), Geneva, Switzerland; Dr M. Birchmore, Syngenta Ltd., Basel, Switzerland; Dr L. Blake, Syngenta Ltd., Surrey, UK; Dr R. Brown, WHO Programme on Chemical Safety, Geneva, Switzerland; Dr H. Bouwman, School of Environmental Sciences and Development, North-West University, Potchefstroom, South Africa; Dr R. S. Chhabra, National Institute of Environmental Health Sciences, Research Triangle Park, NC, USA; Dr O. Hänninen, National Institute for Health and Welfare (THL), Kuopio, Finland; Dr M. Latham, Manatee County Mosquito Control District, Palmetto, FL, USA; Professor Dr G. A. Matthews, Imperial College, Ascot, UK; Dr D. J. Miller, Dr M. Crowley and Dr J. Evans, United States Environmental Protection Agency (USEPA), Office of Pesticide Programs, Health Effects Division, Washington DC, USA; Dr L. Patty, Bayer Environmental Science, Lyon, France; Dr L. Tomaska and Dr M. Bulters, Australian Commonwealth Department of Health, Office of Chemical Safety, Canberra, Australia; Dr C. Vickers, WHO Programme on Chemical Safety, Geneva, Switzerland; and Dr O. Yamada, French Agency for Environmental and Occupational Health Safety (Afsset), Maisons-Alfort, France.

The above-mentioned drafting committee considered all comments received and prepared a second draft. This revised draft was reviewed and discussed at a WHO
