ABBREVIATIONS	v
ACKNOWLEDGEMENTS	vi
INTRODUCTION	vii
PART I – Rationale and objectives	1
CHAPTER 1. WHAT, WHY, WHERE AND HOW?	3
1.1 What is TB prevalence and what is a TB prevalence survey?	3
1.2 Why are prevalence surveys important?	4
1.3 Where should prevalence surveys be carried out?	8
1.4 What are the essential ingredients for a successful survey?	13
CHAPTER 2. SURVEY GOAL, OBJECTIVES AND INDICATORS	19
2.1 Survey goal	19
2.2 Survey objectives	20
2.3 Survey indicators	24
PART II – Design and methods	27
CHAPTER 3. PROTOCOL DEVELOPMENT AND STANDARD OPERATING PROCEDURES	29
3.1 Protocol development process	29
3.2 Essential components of the protocol	30
3.3 Standard operating procedures	37
CHAPTER 4. CASE DEFINITIONS AND SCREENING STRATEGIES	39
4.1 Introduction	39
4.2 Measurement and case definitions	40
4.3 Screening tools and strategies	44
CHAPTER 5. SAMPLING DESIGN	51
5.1 Sampling methodology	56
5.2 Sample size determination and definition of terms	57
5.3 Selection of clusters and selection of individuals within clusters	71
5.4 Definition of the eligible survey population	79
CHAPTER 6. INTERVIEWS, DATA COLLECTION TOOLS AND INFORMED CONSENT	81
6.1 What is the purpose of the interview?	81
6.2 Informed consent	82
6.3 Types of data collection tools	84

6.4 Questionnaire design	91
6.5 Administration of questionnaires	92
6.6 Quality assurance of questionnaires	93
CHAPTER 7. CHEST RADIOGRAPHY	95
7.1 Introduction	95
7.2 X-ray techniques, limitations and recent advances	96
7.3 The epidemiological value of chest X-rays	99
7.4 X-ray technology and equipment	99
7.5 Choice of equipment	102
7.6 Radiation safety	104
7.7 Staff	106
7.8 Interpretation	107
7.9 Training	108
7.10 Field work	108
7.11 Practical issues and tips	110
7.12 Quality assurance	115
7.13 Management of imaging data	115
CHAPTER 8. BACTERIOLOGY	117
8.1 Introduction	117
8.2 Specimen collection and management	118
8.3 Choice of laboratory tests	120
8.4 Laboratory capacity	127
8.5 Training laboratory workers	128
8.6 Laboratory supplies	129
8.7 Archiving and storage of cultures	129
8.8 Safety	129
8.9 Quality assurance	130
CHAPTER 9. REPEAT SURVEYS	135
9.1 Rationale	135
9.2 Sampling design and survey tools	135
9.3 Sample size determination	137
9.4 Inference based on the repeat survey	147
CHAPTER 10. ETHICAL CONSIDERATIONS	153
10.1 Introduction	153
10.2 Ethical principles	153
10.3 Review by an ethics committee	154
10.4 Specific ethical issues that arise in TB surveys	158

CHAPTER 11. TB TREATMENT, HIV TESTING AND OTHER CRITICAL INTERVENTIONS	161
11.1 Management and follow-up of confirmed or suspected TB	161
11.2 HIV testing	161
11.3 Management and follow-up of abnormalities	163
CHAPTER 12. BUDGETING AND FINANCING	167
12.1 What is the total budget required for a prevalence survey?	167
12.2 Major factors that influence the size of the required budget	167
12.3 The typical components of a budget for a prevalence survey	170
12.4 Why the budget for a prevalence survey may underestimate or exaggerate the true cost of a survey	173
12.5 Sources of funding for prevalence surveys	174
PART III – Management, organization, logistics and field work	177
CHAPTER 13. SURVEY ORGANIZATION AND TRAINING	179
13.1 Lines of supervision	179
13.2 Advisory functions	181
13.3 Qualifications and tasks for survey staff	182
13.4 Staff recruitment	186
13.5 Training	187
13.6 Technical assistance	189
CHAPTER 14. FIELD OPERATIONS	193
14.1 Timelines	193
14.2 Standard operating procedures/Field Survey Implementation Manual	195
14.3 Mobilization and involvement of local government and communities	195
14.4 Field activities	197
CHAPTER 15. DOCUMENTS AND DATA MANAGEMENT	209
15.1 Introduction	209
15.2 Documents	210
15.3 Organizational aspects of data management	212
15.4 Procedures and data logistics	214
15.5 Tools	223
PART IV – Analysis and reporting	231
CHAPTER 16. ANALYSIS AND REPORTING	233
16.1 Introduction	233
16.2 Description and assessment of the completeness and internal consistency of the core data	234
16.3 Estimation of pulmonary TB prevalence: methods of analysis	249

16.4 Estimation of pulmonary TB prevalence: presentation of results	259
16.5 Summary and conclusions	264
PART V – Appendices	265
1. Examples of questionnaires	266
1.1 Screening questionnaire	266
1.2 Questionnaire for participants eligible for sputum examination	267
1.3 Questionnaire to understand why cases are missed by the NTP	271
2. Chest radiography	273
2.1 Chest X-ray fact-sheet for survey participants	273
2.2 Staff requirement for chest X-ray team	275
2.3 Interpretation of chest X-ray at central level	275
2.4 X-ray equipment check-list	277
3. Ethical aspects	278
3.1 Example check-list for submission of a TB prevalence survey protocol to an Ethical Review Committee	278
3.2 10 steps for obtaining informed consent in practice	282
4. Budgeting for a prevalence survey: an example template	283
5. Social determinants and risk factors	286
6. Drug susceptibility testing in population-based TB prevalence surveys	300
7. Institutional affiliations of authors	303
8. Process used to develop the handbook	304
