The first draft of these generic models was prepared by a drafting committee appointed by the World Health Organization (WHO) and composed of Dr Milja Mäkinen, Finnish Institute of Occupational Health, Kuopio, Finland; Dr Tiina Santonen, Finnish Institute of Occupational Health, Helsinki, Finland; Dr Antero Aitio, private consultant, Helsinki, Finland; Dr Stuart Dobson OBE, Birchtree Consultants Ltd., Peterborough, UK; and Dr Morteza Zaim, WHO Pesticide Evaluation Scheme (WHOPES), Geneva, Switzerland. None of the drafting committee members declared an interest in the subject matter of these guidelines.

The first draft of the guidelines was peer reviewed by individuals and institutions known for their expertise in the subject. The peer review group comprised Dr Marc Baril, Institut de recherche Robert-Sauvé en santé et en sécurité au travail (IRSST), Montreal, Canada; Dr Nida Besbelli, United Nations Environment Programme (UNEP), Geneva, Switzerland; Dr Mark Birchmore, Syngenta Ltd., Basel, Switzerland; Dr Louise Blake, Syngenta Ltd., Surrey, UK; Dr Richard Brown, WHO Programme on Chemical Safety, Geneva, Switzerland; Dr Henk Bouwman, School of Environmental Sciences and Development, North-West University, Potchefstroom, South Africa; Dr Rajendra S. Chhabra, National Institute of Environmental Health Sciences, Research Triangle Park, NC, USA; Dr Otto Hänninen, National Institute for Health and Welfare (THL), Kuopio, Finland; Dr Mark Latham, Manatee County Mosquito Control District, Palmetto, FL, USA; Professor Dr Graham A. Matthews, Imperial College, Ascot, UK; Dr David J. Miller, Dr Matthew Crowley and Dr Jeff Evans, United States Environmental Protection Agency (USEPA), Office of Pesticide Programs, Health Effects Division, Washington DC, USA; Dr Laurent Patty, Bayer Environmental Science, Lyon, France; Dr Luba Tomaska and Dr Matthew Bulters, Australian Commonwealth Department of Health, Office of Chemical Safety, Canberra, Australia; Dr Carolyn Vickers, WHO Programme on Chemical Safety, Geneva, Switzerland; and Dr Ohri Yamada, French Agency for Environmental and Occupational Health Safety (Afsset), Maisons-Alfort, France.

The above-mentioned drafting committee considered all comments received and prepared a second draft. This revised draft was reviewed and discussed at a WHO consultation held at the Finnish Institute of Occupational Health in Helsinki (Finland) on 23–25 June 2009. The experts appointed by WHO were Dr Nida Besbelli, Dr Henk Bouwman, Dr Otto Hänninen, Dr Mark Latham and Professor Dr Graham A. Matthews. Dr Carolyn Vickers (WHO Programme on Chemical Safety) and Dr Morteza Zaim (WHOPES) took part in reviewing the revised draft. None of the experts participating in the consultation declared an interest in the subject matter of these guidelines.

The WHO Department of Control of Neglected Tropical Diseases acknowledges the individuals and institutions listed above for their important contributions to this work. It also expresses its sincere thanks to Professor Matthews for his valuable support and technical advice in all phases of the drafting process. The financial support provided by the Bill & Melinda Gates Foundation is also gratefully acknowledged.

The Department welcomes feedback on the guidelines and suggestions for improvement from national programmes, research institutions and industry in order to improve future editions.
