Publications of the World Health Organization can be obtained from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: bookorders@who.int). Requests for permission to reproduce or translate WHO publications – whether for sale or for noncommercial distribution – should be addressed to WHO Press, at the above address (fax: +41 22 791 4806; e-mail: permissions@who.int).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

# Table of contents

List of abbreviations 3

Acknowledgements 4

1. Introduction 6

2. Background 7
- 2.1 Programme objectives 7
- 2.2 Global investment in health technology 7
- 2.3 Global Initiative on Health Technologies 8
  - 2.3.1 Call for innovative technologies 8

3. Call for innovative technologies 10
- 3.1 Key phases 10
  - 3.1.1 Launch 10
  - 3.1.2 Outreach 10
  - 3.1.3 Deadline 10
  - 3.1.4 Announcement of results 10
- 3.2 Screening and selection process 10
  - 3.2.1 Categories 10
  - 3.2.2 Reception and screening of submissions 11
  - 3.2.3 Evaluation 11
  - 3.2.4 Recommendation for selection 11
- 3.3 The response 12
  - 3.3.1 Submissions by category 12
  - 3.3.2 Global health concerns addressed 13
  - 3.3.3 Country submissions 14
  - 3.3.4 Intended users of submitted technologies 15
  - 3.3.5 Source of submissions 15
- 3.4 Submissions 16
  - 3.4.1 Submitted technologies 16
- 3.5 The selected technologies 18
  - 3.5.1 Stool sample collection and preparation kit 20

3.5.2 LED phototherapy unit 21
3.5.3 System for on-site production of wound irrigation solution 22
3.5.4 Short messaging service (SMS) smoking cessation system 23
3.5.5 Reusable neonatal suction system 24
3.5.6 Fluorescence visualization of abnormalities in oral cavity 25
3.5.7 Transcutaneous bilirubin measurement system 25
3.5.8 Isothermal nucleic acid amplification system for tuberculosis diagnosis 26
3.5.9 Simplified anaesthesia unit 27
3.5.10 Single use assistive vaginal delivery system 28
3.5.11 Portable on-site cell sorter and counter for HIV and malaria diagnosis 29
3.5.12 Decision support system for paediatric HIV 30
3.5.13 Transcutaneous anaemia monitoring system 31
3.5.14 Solar-powered autoclave 32
3.5.15 Portable infant warmer 33

**4. Challenges to making innovative technologies available** 34

**5. Conclusion** 36

**6. References** 37

**Annex 1: Rules of the call for innovative technologies** 38

# List of Abbreviations

# Acknowledgements

The WHO call for innovative technologies was funded by the Bill and Melinda Gates Foundation within the framework of the Global Initiative for Health Technologies that was launched in 2008.

The evaluation of submitted technologies was carried out by the Diagnostic Imaging and Medical Devices unit of the Essential Health Technologies department under the direction of Adriana Velazquez, team coordinator, and Björn Fahlgren, with the support of Nicholas Adjabu, Deirdre Dimancesco, Valentina Hafner, Adham Ismail, Mattias Ivarsson, Iyad Mobarek, Jiaoru Qian, Kittie Rasmussen, Hayde Reynoso, Benjamin Schanker, Lisa Stroux, Noboru Takamura, and under the overall oversight of Steffen Groth Director of the Essential Health Technologies Department.

The contribution of the following persons and institutions has been invaluable for the evaluation of submitted innovative technologies:

Tony Easty and Anjum Chagpar from the Centre for Global eHealth Innovation, University Health Network & Institute of Biomaterials & Biomedical Engineering, University of Toronto,
Toronto, Ontario, Canada.

Euroscan represented by Iñaki Gutiérrez and Sue Robinson and the following Euroscan members:

- Aurora Llanos from Agencia de Evaluación de Technologías Sanitarias de Andalucía (DETECTA), Seville, Spain;
- Maria Rosaria Perrini from Agenzia Nazionale per I Servizi sanitari Regionali (Age.na.s), Rome , Italy;
- Anne-Florence Fay from Assistance Publique-Hôpitaux de Paris, Committee for Evaluation and Diffusion of Innovative Technologies (CEDIT), France;
- Brendon Kearney from Australia and New Zealand Horizon Scanning Network (ANZHSN)/HPACT;
- Janet Hiller and Linda Mundy from Australian Health Technology Assessment (AHTA);
- Irving Lee and Alun Cameron from Australian Safety and Efficacy Register of New Interventional Procedures – Surgical (ASERNIPS);
- Iñaki Gutiérrez Ibarluzea from Basque Office for Health Technology Assessment (Osteba), Spain;
- Andra Morrison from Canadian Agency for Drugs and Technologies in Health (CADTH);
- Hans-Peter Dauben from Deutsches Institut fur Medizinisches Dokumentation und Information (DIMDI);
- Dr Kees Groeneveld and Cees Postema from Health Council of the Netherlands (GR);
- Martin Flattery from Health Information and Quality Authority (HIQA), Ireland;
- Inger Norderhaug and Helene Arentz-Hansen from HTA Reviews and Dissemination Department, Norwegian Centre for Health Services Research (NOKC);
- Paul Fennessy from Integrated Care & Aged Department of Health, Victoria, Australia; and
- Claire Packer from National Horizon Scanning Centre (NHSC), England and Wales.

The support and guidance of the following experts constituting the Advisory Group on Innovative Technologies that participated in the Copenhagen meeting, where the evaluation was done, has been crucial to the outcome of the project:
José Asua, Rosa Maria Ceballos, Anjum Chagpar, Tony Easty, Iñaki Gutierrez-Ibarluzea, Josee Hansen, Tsinko Ilunga, Pascience Kibatala, Carole Longson, Joseph Mathew, Rodolphe Munoz, Noah Perin, Albert Poon, Sue Robinson, Laura Sampietro-Colom, Ludo Scheerlinck, Kathleen Sienko, Sripen Tantivess, Yot Teerawattananon, Diana Velasco.

We would like to thank Karina Reyes-Moya and Natalya Tarasenko for administrative support throughout the project.

This publication on the outcome of the call was produced by Adriana Velazquez-Berumen, Björn Fahlgren, Jennifer Barragan and Victoria Gerrard. Illustrations were provided by the applicants who submitted the selected technologies.
