Members of the WHO Multicentre Growth Reference Study Group

Coordinating Team

Mercedes de Onis [Study Coordinator], Adelheid Onyango, Elaine Borghi, Amani Siyam, Alain Pinol (Department of Nutrition for Health and Development, World Health Organization).

Executive Committee

Cutberto Garza [Chair], Mercedes de Onis, Jose Martinez, Reynaldo Martorell, Cesar G. Victora (up to October 2002), Maharaj K. Bhan (from November 2002).

Steering Committee

Coordinating Centre (WHO, Geneva): Mercedes de Onis, Jose Martinez, Adelheid Onyango, Alain Pinol.

Investigators (by country): Cesar G. Victora and Cora Luiza Araújo (Brazil), Anna Lartey and William B. Owusu (Ghana), Maharaj K. Bhan and Nita Bhandari (India), Kaare R. Norum and Gunn-Elin Aa. Bjoerneboe (Norway), Ali Jaffer Mohamed (Oman), Kathryn G. Dewey (USA).

United Nations Agency Representatives: Cutberto Garza (UNU), Krishna Belbase (UNICEF).

Advisory Group

Maureen Black, Wm. Cameron Chumlea, Tim Cole, Edward Frongillo, Laurence Grummer-Strawn, Reynaldo Martorell, Roger Shrimpton, Jan van den Broeck. For the work presented in this document, Charlotte M Wright, John Himes, Huiqi Pan, Robert Rigby, Mikis Stasinopoulos and Stef van Buuren, participated in an advisory capacity.

Participating countries and investigators

Brazil: Cora Luiza Araújo, Cesar G. Victora, Elaine Albernaz, Elaine Tomasi, Rita de Cássia Fossati da Silveira, Gisele Nader (Departamento de Nutrição and Departamento de Medicina Social, Universidade Federal de Pelotas; and Núcleo de Pediatria and Escola de Psicologia, Universidade Católica de Pelotas).

Ghana: Anna Lartey, William B. Owusu, Isabella Sagoe-Moses, Veronica Gomez, Charles Sagoe-Moses (Department of Nutrition and Food Science, University of Ghana; and Ghana Health Service).

India: Nita Bhandari, Maharaj K. Bhan, Sunita Taneja, Temsunaro Rongsan, Jyotsna Chetia, Pooja Sharma, Rajiv Bahl (All India Institute of Medical Sciences).

Norway: Gunn-Elin Aa. Bjoerneboe, Anne Baerug, Elisabeth Tufte, Kaare R. Norum, Karin Rudvin, Hilde Nysaether (Directorate of Health and Social Affairs; National Breastfeeding Centre, Rikshospitalet University Hospital; and Institute for Nutrition Research, University of Oslo).

Oman: Ali Jaffer Mohamed, Deena Alasfoor, Nitya S. Prakash, Ruth M. Mabry, Hanadi Jamaan Al Rajab, Sahar Abdou Helmi (Ministry of Health).

USA: Kathryn G. Dewey, Laurie A. Nommsen-Rivers, Roberta J. Cohen, M. Jane Heinig (University of California, Davis).

Acknowledgements

The WHO Child Growth Standards were constructed by the Coordinating Team in the Department of Nutrition for Health and Development of the World Health Organization.

The Study Group is indebted to the parents, children and more than 200 field staff that participated in the WHO Multicentre Growth Reference Study. The generous contribution of many individuals that provided expertise and advice was also crucial to the development of the growth standards.

The project received funding from the Bill & Melinda Gates Foundation, the Netherlands Minister for Development Cooperation, the Norwegian Royal Ministry of Foreign Affairs, and the United States Department of Agriculture (USDA). Financial support was also provided by the Ministry of Health of Oman, the United States National Institutes of Health, the Brazilian Ministry of Health and Ministry of Science and Technology, the Canadian International Development Agency, the United Nations University, the Arab Gulf Fund for United Nations Development, the Office of the WHO Representative to India, and the WHO Department of Child and Adolescent Health and Development.

Contents

Executive summary.....	xvii
1. Introduction.....	1
2. Methodology.....	5
2.1 Design of the WHO Multicentre Growth Reference Study.....	5
2.2 Anthropometry methods.....	5
2.3 Sample description.....	6
2.4 Data cleaning procedures and correction to target age.....	7
2.4.1 Data cleaning.....	7
2.4.2 Correction to target age.....	7
2.5 Statistical methods for constructing the growth velocity standards.....	8
3. Construction of the weight velocity standards.....	11
3.1 Weight velocities conditional on age.....	11
3.1.1 1-month intervals.....	11
3.1.2 2-month intervals.....	12
3.1.3 3-month intervals.....	13
3.1.4 4-month intervals.....	14
3.1.5 6-month intervals.....	15
Appendix A3 Diagnostics.....	34
A3.1a 1-month intervals for boys.....	34
A3.1b 1-month intervals for girls.....	40
A3.2a 2-month intervals for boys.....	46
A3.2b 2-month intervals for girls.....	52
A3.3a 3-month intervals for boys.....	58
A3.3b 3-month intervals for girls.....	61
A3.4a 4-month intervals for boys.....	64
A3.4b 4-month intervals for girls.....	70
A3.5a 6-month intervals for boys.....	76
A3.5b 6-month intervals for girls.....	82
3.2 Centile tables of weight velocity by birth weight category from birth to 60 days.....	88
4. Construction of the length velocity standards.....	93
4.1 2-month intervals.....	93
4.2 3-month intervals.....	94
4.3 4-month intervals.....	95
4.4 6-month intervals.....	96
Appendix A4 Diagnostics.....	114
A4.1a 2-month intervals for boys.....	114
A4.1b 2-month intervals for girls.....	120
A4.2a 3-month intervals for boys.....	126
A4.2b 3-month intervals for girls.....	129
A4.3a 4-month intervals for boys.....	132
A4.3b 4-month intervals for girls.....	138
A4.4a 6-month intervals for boys.....	144
A4.4b 6-month intervals for girls.....	150
5. Construction of the head circumference velocity standards.....	157
5.1 2-month intervals.....	157
5.2 3-month intervals.....	158
5.3 4-month intervals.....	159
5.4 6-month intervals.....	160
Appendix A5 Diagnostics.....	174
A5.1a 2-month intervals for boys.....	174

A5.1b 2-month intervals for girls	180
A5.2a 3-month intervals for boys	186
A5.2b 3-month intervals for girls	192
A5.3a 4-month intervals for boys	198
A5.3b 4-month intervals for girls	204
A5.4a 6-month intervals for boys	210
A5.4b 6-month intervals for girls	216
6. Computation of centiles and z-scores for velocities based on weight, length and head circumference	223
7. Discussion	229
8. Bibliography	235
Appendix B Model specifications of the WHO child growth velocity standards	239
Appendix C Results from analyses related to regression to the mean.....	240

Figures

Appendix A3

Figure A3.1	Worm plots from selected model [BCPE($x = \text{age}^{0.05}$, $\text{df}(\mu) = 9$, $\text{df}(\sigma) = 4$, $\text{df}(\nu) = 4$, $\tau = 2$)] for 1-month weight velocity for boys	35
Figure A3.2	Fitting of the μ , σ , and ν curves of selected model for 1-month weight velocity for boys	36
Figure A3.3	3rd, 10th, 50th, 90th, 97th smoothed centile curves and empirical values: 1-month weight velocity for boys	37
Figure A3.4	5th, 25th, 50th, 75th, 95th smoothed centile curves and empirical values: 1-month weight velocity for boys	38
Figure A3.5	Centile residuals from fitting selected model for 1-month weight velocity for boys	39
Figure A3.6	Worm plots from selected model [BCPE($x = \text{age}^{0.05}$, $\text{df}(\mu) = 9$, $\text{df}(\sigma) = 4$, $\text{df}(\nu) = 1$, $\tau = 2$)] for 1-month weight velocity for girls	41
Figure A3.7	Fitting of the μ , σ , and ν curves of selected model for 1-month weight velocity for girls	42
Figure A3.8	3rd, 10th, 50th, 90th, 97th smoothed centile curves and empirical values: 1-month weight velocity for girls	43
Figure A3.9	5th, 25th, 50th, 75th, 95th smoothed centile curves and empirical values: 1-month weight velocity for girls	44
Figure A3.10	Centile residuals from fitting selected model for 1-month weight velocity for girls	45
Figure A3.11	Worm plots from selected model [BCPE($x = \text{age}^{0.05}$, $\text{df}(\mu) = 12$, $\text{df}(\sigma) = 6$, $\text{df}(\nu) = 3$, $\tau = 2$)] for 2-month weight velocity for boys	47
Figure A3.12	Fitting of the μ , σ , and ν curves of selected model for 2-month weight velocity for boys	48
Figure A3.13	3rd, 10th, 50th, 90th, 97th smoothed centile curves and empirical values: 2-month weight velocity for boys	49
Figure A3.14	5th, 25th, 50th, 75th, 95th smoothed centile curves and empirical values: 2-month weight velocity for boys	50
Figure A3.15	Centile residuals from fitting selected model for 2-month weight velocity for boys	51
Figure A3.16	Worm plots from selected model [BCPE($x = \text{age}^{0.05}$, $\text{df}(\mu) = 12$, $\text{df}(\sigma) = 5$, $\text{df}(\nu) = 4$, $\tau = 2$)] for 2-month weight velocity for girls	53
Figure A3.17	Fitting of the μ , σ , and ν curves of selected model for 2-month weight velocity for girls	54
Figure A3.18	3rd, 10th, 50th, 90th, 97th smoothed centile curves and empirical values: 2-month weight velocity for girls	55
Figure A3.19	5th, 25th, 50th, 75th, 95th smoothed centile curves and empirical values: 2-month weight velocity for girls	56
Figure A3.20	Centile residuals from fitting selected model for 2-month weight velocity for girls	57

Figure A3.21	3rd, 10th, 50th, 90th, 97th smoothed centile curves and empirical values: 3-month weight velocity for boys.....	58
Figure A3.22	5th, 25th, 50th, 75th, 95th smoothed centile curves and empirical values: 3-month weight velocity for boys.....	59
Figure A3.23	Centile residuals from fitting selected model for 3-month weight velocity for boys.....	60
Figure A3.24	3rd, 10th, 50th, 90th, 97th smoothed centile curves and empirical values: 3-month weight velocity for girls	61
Figure A3.25	5th, 25th, 50th, 75th, 95th smoothed centile curves and empirical values: 3-month weight velocity for girls	62
Figure A3.26	Centile residuals from fitting selected model for 3-month weight velocity for girls	63
Figure A3.27	Worm plots from selected model [BCPE($x=age^{0.05}$, $df(\mu)=11$, $df(\sigma)=5$, $df(v)=5$, $\tau=2$)] for 4-month weight velocity for boys.....	65
Figure A3.28	Fitting of the μ , σ , and v curves of selected model for 4-month weight velocity for boys.....	66
Figure A3.29	3rd, 10th, 50th, 90th, 97th smoothed centile curves and empirical values: 4-month weight velocity for boys.....	67
Figure A3.30	5th, 25th, 50th, 75th, 95th smoothed centile curves and empirical values: 4-month weight velocity for boys.....	68
Figure A3.31	Centile residuals from fitting selected model for 4-month weight velocity for boys.....	69
Figure A3.32	Worm plots from selected model [BCPE($x=age^{0.05}$, $df(\mu)=9$, $df(\sigma)=5$, $df(v)=5$, $\tau=2$)] for 4-month weight velocity for girls	71
Figure A3.33	Fitting of the μ , σ , and v curves of selected model for 4-month weight velocity for girls	72
Figure A3.34	3rd, 10th, 50th, 90th, 97th smoothed centile curves and empirical values: 4-month weight velocity for girls	73
Figure A3.35	5th, 25th, 50th, 75th, 95th smoothed centile curves and empirical values: 4-month weight velocity for girls	74
Figure A3.36	Centile residuals from fitting selected model for 4-month weight velocity for girls	75
Figure A3.37	Worm plots from selected model [BCPE($x=age^{0.05}$, $df(\mu)=10$, $df(\sigma)=5$, $df(v)=3$, $\tau=2$)] for 6-month weight velocity for boys.....	77
