Publications of the World Health Organization can be obtained from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: [bookorders@who.int](mailto:bookorders@who.int)). Requests for permission to reproduce or translate WHO publications – whether for sale or for noncommercial distribution – should be addressed to WHO Press, at the above address (fax: +41 22 791 4806; e-mail: [permissions@who.int](mailto:permissions@who.int)).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

## Acknowledgements

---

The Department of Food Safety, Zoonoses and Foodborne Diseases, World Health Organization (WHO), Geneva, Switzerland, wishes to express its sincere thanks to all those who contributed towards the success of this Consultation.

First and foremost we wish to thank all participants for their valuable technical input and their collegiality during the meeting. We are particularly grateful to Mr Martyn Kirk for superb chairing of the meeting, Dr Kathryn Doré for excellent rapporteuring and Dr Sarah O'Brien for her valuable input to the report.

We also wish to express our sincere gratitude to the Centers for Disease Control and Prevention (CDC), Atlanta, USA, for their generous financial support to this meeting.

## Table of Contents

<b>List of tables and figures</b>	<b>v</b>
<b>List of acronyms</b>	<b>vi</b>
<b>Definitions</b>	<b>vii</b>
<b>Preamble</b>	<b>viii</b>
<b>Executive Summary</b>	<b>ix</b>
<b>1. Introduction</b>	<b>1</b>
<b>2. Consultation objectives</b>	<b>2</b>
<b>3. Definitions and scope of the Initiative</b>	<b>3</b>
<b>4. Methodological approaches and measures for foodborne disease burden estimation</b>	<b>4</b>
4.1 Methodological approaches	4
4.1.1 Discussion	4
4.1.2 Recommendations for chapter 4.1 – Methodological approaches	10
4.2 Etiologies to be included in the burden of disease assessment	10
4.2.1 Discussion	10
4.2.2 Recommendations for chapter 4.2 – Etiologies to be included	13
4.3 Burden of disease measures to be used	13
4.3.1 Discussion	13
4.3.2 Recommendations for chapter 4.3 – Burden of disease measures to be used	15
<b>5. Burden of foodborne disease studies at country level</b>	<b>16</b>
5.1 Country protocols	16
5.1.1 Discussion	16
5.1.2 Recommendations for chapter 5.1 – Country protocols	17
5.2 Consultation, training and communication	20
5.2.1 Discussion	20
5.2.2 Recommendations for Chapter 5.2 – Consultation, training and communication	21
<b>6. Strategic way forward</b>	<b>23</b>
6.1 Burden strategy and time frame for action	23
6.2 The Foodborne Disease Burden Epidemiology Reference Group (FERG)	24
<b>7. Conclusions</b>	<b>26</b>
7.1 Outputs of the Consultation	26
7.2 Summary of recommendations	27
<b>8. References</b>	<b>29</b>
<b>Appendix 1: List of participants</b>	<b>30</b>
<b>Appendix 2: Agenda</b>	<b>40</b>

## List of tables and figures

### Tables

Table 1:	Chemicals for which more reliable quantitative information for foodborne disease burden may exist -----	11
Table 2:	A fully integrated approach to foodborne diseases combining syndromic and agent-specific clinical presentations (“evidence map”) -----	12
Table 3:	Table of recommendations -----	27

### Figures

Figure 1:	Prevention of FBD includes vaccination against various pathogens such as rotavirus -----	viii
Figure 2:	Contamination of food occurs across the entire chain from farm to fork -----	2
Figure 3:	The process for estimating the incidence of foodborne gastroenteritis in a specific country -----	6
Figure 4:	Different food preferences and preparation methods may reduce or increase the risk of foodborne diseases -----	7
Figure 5:	Neurocysticercosis, a preventable cause of epilepsy and its global distribution -----	9
Figure 6:	Looking fresh - being safe? -----	14
Figure 7:	Foodborne trematodiasis caused by the liver fluke <i>Opisthorchis viverrini</i> -----	19
Figure 8:	Participants receive a lecture on foodborne disease laboratory techniques at a Global Salm-Surv international Training Course in China -----	22
Figure 9:	Strategic framework for the execution of recommendations ----	23
Figure 10:	International partnerships are essential to make our food safer -----	25

### Textboxes

Textbox 1:	Global Burden of Disease Study -----	8
Textbox 2:	Methods for global burden assessment: echinococcosis -----	13
Textbox 3:	Our food, our health: healthy diet and safe food in The Netherlands -----	15
Textbox 4:	The Jordan Burden of Illness Study -----	17
Textbox 5:	International cooperation on foodborne disease burden of illness studies: a case study in WHO's American Region ---	20

## List of acronyms

<b>ADG</b>	Assistant Director-General
<b>BOD</b>	Burden of Disease
<b>CE</b>	Cystic echinococcosis
