CONTENTS

ABOUT THE AUTHORS	6
PREFACE	7
1 WHY USE RESEARCH INFORMATION?	11
Introduction	11
What is the information need of the occupational health professional?	13
Where do I go to find the information?	13
Is all information equally useful?	13
Once you have found the information, how do you apply it?	14
Exercise 1: Sources of information	14
2 QUESTIONS ARISING FROM PRACTICE	15
Questions in practice	15
How often do physicians have questions?	16
Background and foreground questions	18
Categories of health questions	19
Exercise 2: Questions arising from practice	22
Exercise 3: Questions in practice	22
3 SOURCES OF INFORMATION AND SEARCH STRATEGIES	23
What is efficient and reliable?	23
Text books and manuals	23
National Journals on Occupational Medicine and Occupational Health	24
Internationally oriented Journals	25
Websites on Internet	27
Practice Guidelines	28
Medline, systematic reviews and medical-scientific literature	29
Other databases containing scientific literature	29
Converting questions in practice into answerable questions: PICO	30
Searching in Medline using PubMed	32
Search terms and MeSH terms	32
Search Results	33
Search filters	35

Search terms for occupational health situations	36
Search terms for intervention studies	37
Exercise 4: PICO	39
Exercise 5: Searching in PubMed	39
Exercise 6: PICOs and search strategies for the results of exercise 3	39
4 DATABASES OF INTEREST TO OCCUPATIONAL HEALTH PROFESSIONALS	40
Introduction	40
How to find more occupational safety and health databases?	40
Databases in the US National Library of Medicine	41
The Specialized Information Services at the US NLM	41
US Databases at Science.gov	42
The NIOSH website	43
The Agency for Toxic Substances and Disease Registry website	43
The Occupational Safety and Health Administration website	43
The Material Safety Data Sheets (MSDS)	44
Databases of international organizations	46
International Programme on Chemical Safety	46
International Occupational Safety and Health Information Centre	47
The Canadian Centre for Occupational Health and Safety Resource	48
The Virtual Health Library	48
Exercise 7: Database	49
5 CRITICAL APPRAISAL OF RESEARCH ARTICLES	50
Introduction	50
Evaluating study results	51
Etiological research	52
Diagnostic research	52
Intervention / Prevention research	54
Prognostic research	57
Reviews	57
Exercise 8: Evaluating study quality	58

6 APPLICATION OF SEARCH RESULTS TO THE QUESTION IN PRACTICE	59
Formulating the search result	59
Applicability of the result of the search action	60
Exercise 9: Applying the results to practice	62
 REFERENCE LIST	 63
MEDICAL SUBJECT HEADINGS (MESH) IN MEDLINE RELATED TO OCCUPATIONAL HEALTH	66
 ANSWERS TO EXERCISES	 67

ABOUT THE AUTHORS

Jos Verbeek is an occupational physician and an epidemiologist. He works both at the Coronel Institute for Occupational and Environmental Health at the Academic Medical Center / University of Amsterdam, the Netherlands and the Finnish Institute of Occupational Health, Kuopio, Finland. He is coordinator of the Occupational Health Field of the Cochrane Collaboration.

Frank van Dijk is an occupational physician and professor of Occupational Medicine at the Corneel Institute at the Academic Medical Center / University of Amsterdam, the Netherlands

Giuliano Franco is an occupational physician and professor of Occupational Medicine at the University of Modena, Italy

Iris Pasternack is an occupational physician and researcher at the Finnish Institute of Occupational Health in Helsinki, Finland

Gerry Eijkemans is a senior officer at the WHO occupational and environmental health programme

Jukka Salmi is a specialist in exercise medicine and associate professor at the University of Jyväskylä, Finland

Frederieke Schaafsma is an occupational physician and researcher at the Coronel Institute of
