<i>Structure of this book</i> .....	<i>xi</i>
<i>Acknowledgements</i> .....	<i>xii</i>
<i>Acronyms and abbreviations</i> .....	<i>xvii</i>

## SECTION I: SCIENTIFIC BACKGROUND

<b>1</b>	<b>Groundwater and public health .....</b>	<b>3</b>
1.1	Groundwater as a source of drinking water .....	4
1.2	The public health and socio-economic context of groundwater protection.....	7
1.3	Groundwater quantity .....	8
1.4	Disease derived from groundwater use.....	9
1.5	Groundwater in the context of international activities to reduce water-related disease .....	13
1.6	Groundwater in the WHO Guidelines for Drinking-water Quality.....	15
1.7	References .....	16
<b>2</b>	<b>Groundwater occurrence and hydrogeological environments .....</b>	<b>21</b>
2.1	Groundwater in the hydrological system .....	22
2.2	Groundwater occurrence and movement .....	26
2.3	Groundwater discharge and recharge .....	34
2.4	Groundwater flow systems .....	36
2.5	Geological environments and aquifer types.....	38
2.6	References .....	46

<b>3</b>	<b>Pathogens: Health relevance, transport and attenuation .....</b>	<b>49</b>
3.1	Microbial pathogens and microbial indicator organisms .....	50
3.2	Distribution of pathogens and faecal indicators in groundwater.....	55
3.3	Transport and attenuation of microorganisms in the underground .....	60
3.4	References .....	76
<b>4</b>	<b>Chemicals: Health relevance, transport and attenuation.....</b>	<b>81</b>
4.1	Subsurface transport and attenuation of chemicals .....	82
4.2	Natural inorganic constituents .....	90
4.3	Nitrogen species .....	99
4.4	Metals .....	102
4.5	Organic compounds.....	105
4.6	Pesticides.....	125
4.7	Emerging issues.....	129
4.8	References .....	131
<b>5</b>	<b>Socio-economic, institutional and legal aspects in groundwater assessment and protection .....</b>	<b>139</b>
5.1	Socio-economic status: issues of poverty and wealth .....	140
5.2	Population and population density.....	144
5.3	Community participation and consultation .....	144
5.4	Land tenure and property rights.....	147
5.5	Valuing and costing groundwater protection.....	149
5.6	Setting goals and objectives - how much will be protected? .....	151
5.7	Institutional issues .....	152
5.8	Legal framework .....	153
5.9	References .....	154
 <b>SECTION II: UNDERSTANDING THE DRINKING-WATER CATCHMENT</b>		
<b>6</b>	<b>Collecting information for characterising the catchment and assessing pollution potential.....</b>	<b>159</b>
6.1	Types of information and access to it .....	160
6.2	The need for collaboration.....	166
6.3	Sufficiency and quality of information – dealing with uncertainty.....	169
6.4	Summary – how to proceed.....	171
6.5	References .....	174
<b>7</b>	<b>Characterisation of the socio-economic, institutional and legal setting .....</b>	<b>175</b>
7.1	Defining socio-economic status.....	175
7.2	Institutional and stakeholder analysis .....	180
7.3	Managing stakeholder discussions – levelling the playing field.....	185
7.4	Developing public participation .....	185
7.5	Analysis of land-use and groundwater use for policy development.....	188
7.6	Valuing groundwater protection .....	191
7.7	Checklist.....	193
7.8	References .....	195
<b>8</b>	<b>Assessment of aquifer pollution vulnerability and susceptibility to the impacts of abstraction .....</b>	<b>199</b>
8.1	Defining, characterising and mapping groundwater vulnerability.....	200
8.2	Information needs and data sources for vulnerability assessment .....	213
8.3	Estimating groundwater recharge .....	219

8.4	Natural hydrochemical and geochemical environments .....	223
8.5	Characterising groundwater abstraction .....	225
8.6	Susceptibility of groundwater resources to degradation .....	228
8.7	Checklist.....	236
8.8	References .....	239
<b>9</b>	<b>Agriculture: Potential hazards and information needs .....</b>	<b>243</b>
9.1	Use of manure and fertilisers .....	244
9.2	Disposal of animal carcasses .....	252
9.3	Animal feedlots .....	253
9.4	Use of wastewater and sewage sludge on land and in aquaculture .....	255
9.5	Use of pesticides.....	257
9.6	Irrigation and drainage.....	263
9.7	Checklist.....	265
9.8	References .....	270
<b>10</b>	<b>Human excreta and sanitation: Potential hazards and information needs ..</b>	<b>275</b>
10.1	Contaminants of concern from sanitation systems.....	277
10.2	Types of sanitation and their potential to contaminate groundwater .....	280
10.3	Assessing the risks to groundwater.....	298
10.4	Analytical indication of human excreta and sewage in groundwater.....	300
10.5	Checklist.....	301
10.6	References .....	304
<b>11</b>	<b>Industry, mining and military sites: Potential hazards and information needs .....</b>	<b>309</b>
11.1	Industrial activities .....	310
11.2	Mining activities.....	318
11.3	Military facilities and activities .....	328
11.4	Checklist.....	333
11.5	References .....	336
<b>12</b>	<b>Waste disposal and landfill: Potential hazards and information needs .....</b>	<b>339</b>
12.1	Types of solid waste .....	340
12.2	Waste storage, treatment and disposal sites .....	344
12.3	Factors governing contamination of groundwater by disposal of waste .....	345
12.4	Assessing groundwater contamination associated with waste sites .....	354
12.5	Checklist.....	356
12.6	References .....	360
<b>13</b>	<b>Traffic and transport: Potential hazards and information needs.....</b>	<b>363</b>
13.1	Groundwater pollutants from traffic.....	364
13.2	Traffic- and transport-related activities polluting groundwater .....	367
13.3	Pathways of pollutants into groundwater.....	368
13.4	Checklist.....	369
13.5	References .....	372

**SECTION III: SITUATION ANALYSIS**

<b>14</b>	<b>Assessment of groundwater pollution potential .....</b>	<b>375</b>
14.1	The overall assessment process .....	376
14.2	Components of assessment of pollutant loading.....	378
14.3	Outcome of assessing pollution potential .....	389
14.4	Using groundwater quality monitoring to support the assessment.....	391
14.5	The Barbados case study .....	391
14.6	The Perth case study .....	401
14.7	References .....	408
<b>15</b>	<b>Establishing groundwater management priorities.....</b>	<b>411</b>
15.1	Ensuring the suitability of information .....	412
15.2	Prioritising pollutants in groundwater with respect to urgency of management responses .....	414
15.3	Selection of management options .....	419
15.4	Documentation and reporting .....	425
15.5	References .....	426

**SECTION IV: APPROACHES TO DRINKING-WATER SOURCE PROTECTION MANAGEMENT**

<b>16</b>	<b>Water Safety Plans: Risk management approaches for the delivery of safe drinking water from groundwater sources.....</b>	<b>431</b>
16.1	End-product testing and the need for a risk management approach.....	433
16.2	Scope of Water Safety Plans.....	433
16.3	Preliminary steps for developing Water Safety Plans.....	436
16.4	Hazard analysis.....	438
16.5	System assessment.....	440
16.6	Control measures .....	443
16.7	Operational monitoring.....	449
16.8	Corrective actions .....	450
16.9	Verification.....	451
16.10	Supporting programmes .....	452
16.11	Documentation .....	453
16.12	References .....	462
<b>17</b>	<b>Groundwater protection zones .....</b>	<b>465</b>
17.1	The concept of a zone of protection.....	466
17.2	Delineating protection zones .....	467
17.3	Fixed radius and travel time approaches.....	471
17.4	Approaches using vulnerability assessments .....	476
17.5	A risk assessment approach for delineating protection zones.....	477
17.6	Prioritising schemes for groundwater protection .....	480
17.7	Managing land use and human activities in protection zones .....	483
17.8	Monitoring and verification of protection zones.....	490
17.9	References .....	491
<b>18</b>	<b>Sanitary completion of protection works around groundwater sources .....</b>	<b>493</b>
18.1	Sanitary completion and health .....	494
18.2	The needs for effective control measures in sanitary completion .....	495
18.3	Control measures in sanitary completion: Planning and design.....	496
18.4	Control measures in sanitary completion: Construction and materials .....	502

18.5	Control measures in sanitary completion: Operation and maintenance .....	503
18.6	Assessment of sanitary completion and establishing priority risk factors.....	505
18.7	Control measures for sanitary completion of groundwater sources .....	511
18.8	References .....	513
<b>19</b>	<b>Hydrological management .....</b>	<b>517</b>
19.1	Managing abstraction to prevent saline intrusion .....	518
19.2	Managing abstraction to control induced pollution .....	521
19.3	Management of artificial recharge and wastewater use .....	522
19.4	Bank infiltration .....	528
19.5	Validation of artificial recharge and bank infiltration schemes .....	529
19.6	Monitoring and verification of control measures for hydrological management	530
19.7	References .....	533

## SECTION V: APPROACHES TO POLLUTION SOURCE MANAGEMENT

<b>20</b>	<b>Policy and legal systems to protect groundwater .....</b>	<b>537</b>
20.1	Groundwater protection policies.....	538
20.2	Legislative framework for groundwater protection .....	546
20.3	Consultation and participation.....	548
20.4	Land use planning and management.....	551
20.5	Tools for pollution control.....	553
20.6	Enforcement .....	558
20.7	Management plans for disasters and incidents.....	559
20.8	References .....	561
<b>21</b>	<b>Agriculture: Control and protection.....</b>	<b>563</b>
21.1	Pathogen management on agricultural land.....	565
21.2	Nutrient management on agricultural land.....	569
21.3	Management of wastewater and human excreta used on land and in aquaculture .....	573
21.4	Nutrient and pathogen management on grazing land.....	575
21.5	Management of animal feeding operations and dairies.....	577
21.6	Pesticide management .....	579
21.7	Irrigation water management and drainage.....	581
21.8	Monitoring and verification of measures controlling agricultural activities .....	582
21.9	References .....	585
<b>22</b>	<b>Human excreta and sanitation: Control and protection.....</b>	<b>587</b>
22.1	Balancing investment decisions.....	588
22.2	Selecting the right sanitation technology .....	590
22.3	Measures for controlling risks from on-site sanitation .....	591
22.4	Controlling risks from septic tanks and aquaprivies .....	600
22.5	Measures for prevention and control of sewer leakage.....	601
22.6	Control measures for sewage treatment.....	605
22.7	Monitoring and verification of measures controlling sanitation systems.....	607
22.8	References .....	609

<b>23</b>	<b>Industry, mining and military sites: Control and protection .....</b>	<b>613</b>
23.1	Industrial and military sites .....	615
23.2	Mining .....	623
23.3	Monitoring and verification of measures controlling industry, mining and military sites .....	627
23.4	References .....	630
<b>24</b>	<b>Waste disposal and landfill: Control and protection .....</b>	<b>631</b>
24.1	Waste control.....	631
24.2	Siting and planning of landfills.....	636
24.3	Design strategies for landfills .....	637
24.4	Operation and maintenance of landfills .....	645
24.5	Public participation and education.....	646
24.6	Monitoring and verification of measures controlling waste disposal and landfill .....	647
24.7	References .....	650
<b>25</b>	<b>Traffic and transport: Control and protection .....</b>	<b>653</b>
25.1	Planning and regulations .....	655
25.2	Runoff control .....	656
25.3	Design and maintenance of protective structures.....	657
25.4	Minimising usage of harmful chemicals.....	658
25.5	Accidental spillage and disposal.....	659
25.6	Monitoring and verification of measures controlling traffic and transport .....	659
25.7	References .....	662
	<b>Index .....</b>	<b>663</b>
